INTRODUCTION

I am privileged to present our fourth annual delivery document (ADD) which focuses on the work we are undertaking to accomplish the ambitious aspirations set in the County Council's Plan for 2017-22. This ADD is however different to any of the previous 3 that have been published as it will focus on the work we will undertake over an 18 month period between October 2020 and March 2022

I'm writing this at a time when we have only recently come out of a two week firebreak to try and reduce the number of people who are Covid-19 positive following a high number of cases nationwide and here on Anglesey.

As I discussed in my forward in the Annual Performance Report only last month, the Council responded and adapted quickly to protect the vulnerable in our communities and to support those in need when required. As a result, it was not possible, for example, to publish our ADD to you in June as many of our day to day activities and plans were abruptly stopped at the end of March 2020 in order to deal with the Coronavirus Pandemic.

We recognize that we continue to live in a world that can change dramatically from one week to the next and we have therefore brought together, what we believe to be, achievable Programme of work for the period irrespective of the current pandemic.

It includes the work associated with the North Anglesey Economic Regeneration Plan which aims to improve the prosperity of Amlwch and North Anglesey. This is particularly important at a time where work opportunities have been declining in the area. We will also work closely with Menter Môn and other partners on the Morlais Tidal Demonstration Zone, which aims to create many skilled jobs if approved.

The development of our School Modernisation Programme has been delayed since the pandemic, however now that systems are in place, we aim to agree on the appropriate way forward that ensures the best opportunities are available for our current and future students.

INTRODUCTION

During 2019/20, we helped bring 104 houses back into use as well as create 7 new homes so that they become homes for individuals, couples and families. This year we aim to continue this positive trend and bring back more empty homes into use as well as increase the Council Stock available to our tenants by developing plans for 83 new properties.

Much of the work we have undertaken in response to the coronavirus has focussed on how best Anglesey citizens can contact the Council, especially whilst our offices are closed. The work undertaken on our digital journey to facilitate an online self-service provision has enabled many services to continue as normal as well as introducing new services in response to the pandemic, such as business grant applications and recycling centre bookings. We will continue on our digital transformation journey over the next 18 months, ensuring that other services are available online.

In September 2020, the Isle of Anglesey County Council agreed a motion to commit to achieving a Carbon Neutral Public Sector by 2030. During the forthcoming year we will work on developing a Climate Change Action Plan in order to play our role fully.

We are also aware that we must develop plans on how best to recover from the pandemic and because of this we are developing 4 recovery plans focussing on Economic Recovery, Destination Recovery, Community / Social and Organisational work streams. These will all be made available early in the New Year.

Finally, the circumstances in the year from March onwards have changed us all. As a Council we can be proud of our staff and our communities. Together we can make a difference and by pulling together we show the strength of our small island.

Llinos Medi
Council Leader

Recovery

Dealing with the Covid-19 emergency has been a significant challenge for the Council – not only in terms of maintaining key front-line services, the provision of new services, and conducting business as usual where possible, but also in ensuring that health and safety arrangements are in place to protect the authority's staff whilst delivering services. There had to be a balance between these issues and developing / delivering new services and interventions in response to the emergency.

The impact has had a far-reaching impact on the island's inhabitants, society and economy. It has had a significant impact on the Council's ability to continue with its strategic work programme as is outlined above. We acknowledge however, that there is a duty upon us to strike a balance between recovery, business as usual and strategic plans. As the challenges of the Covid-19 emergency continue to be significant, it is recognised that our recovery as an Island and Council is to be focused on 4 main areas of work –

- **Economic Recovery Plan**

The aim of the economic recovery plan will be to establish a framework of actions to support businesses, maintain employment levels, and lay the foundations to begin restructuring the local economy to ensure increased resilience and possible growth in the future.

- **Destination Recovery Plan**

Our aim here will be to establish an agreed framework and range of actions to address the issues faced by tourism and hospitality businesses since the beginning of the pandemic. We will also continue to support the recommencement of a safe and sustainable trading and attracting visitors back to the island, not only to enjoy the tranquillity, natural assets and 'unique sense of place' of Anglesey, but also to respect and behave responsibly in our communities under the 'new normal'.

What will we deliver in 2020 - 2022

Recovery

- **Community / Social Recovery Plan**

This recovery plan will aim to retain good practice, maximise capacity and expertise, learn and co-produce efforts that have developed and strengthened naturally throughout the emergency period.

The aim, through the recovery, will be to protect the residents of Anglesey from the challenges faced and the obvious weaknesses that increased the personal impacts of Covid-19. In addition, it is anticipated that front line staff (key workers) will need to be protected by building the necessary ability and resilience throughout the recovery period.

- **Organisational Recovery Plan**

The pandemic has had an extraordinary impact on the Council with high and endless demands, and the scale and pace of change has been unprecedented and all aspects of the Council's activities have been impacted. Indeed, it is believed that all aspects of people's and (staff's) lives have been impacted and it is important now to consider the impact of these changes on organisational development.

It is believed that a Council-wide planned effort is needed to review process to improve efficiency and effectiveness that recognises the ever changing external environment. The emergency can be seen to provide an unparalleled opportunity to change and improve.

The challenge will be to realise the opportunities – opportunities that will ensure that robust and safe working arrangements are maintained , ensuring the wellbeing of staff through continued support and development of their abilities and skills to meet the changed requirements.

Alignment with the Wellbeing of Future Generations Act

The actions discussed in the previous pages of this document all contribute and align with the goals and the principle of sustainable development embodied in the Well-being of Future Generations Act. Our objectives have been aligned to these as can be seen in the table opposite.

The actions above will once again be undertaken using the 5 ways of working method noted below. The method has helped us over the course of the Council Plan and the Coronavirus pandemic to work better together, avoiding past mistakes and tackling some of the challenges we face together.

The importance of involving people with an interest in achieving the well-being goals, and ensuring that those people reflect the diversity of the area which the body serves
