Recommendation: Gohirio / Defer

Reason for Reporting to Committee

The planning application has been called to the planning committee by a local member. The Committee, at its meeting held on 6th March 2019, resolved to visit the site. The site visit took place on 20th March. Amended plans have now been received which are being consulted upon and notified and it is envisaged that a full report on the planning application will be presented to the planning committee in May.
