

ISLE OF ANGLESEY COUNTY COUNCIL	
Report to:	Full Council
Date:	7 March 2024
Subject:	Polling District and Polling Places Review
Portfolio holder:	Cllr. Carwyn Elias Jones – Council Business and Customer Experience
Lead officer:	Dylan J Williams, Chief Executive and Returning Officer
Contact officer/ author:	Dyfan Sion, Head of Democratic Services
Purpose of report:	Submit the results of the review and seek Council approval for the polling place list.

Background

1. This report provides a summary of the outcome of the 2023/24 review of polling districts and polling places.
2. Local authorities are required to review their polling districts and polling places for parliamentary elections at least once every five years. It is a constitutional requirement that the full Council approve the division of the constituency and electoral divisions into polling districts. ¹
3. The mandatory review period currently open is the 16 months between 1 October 2023 and 31 January 2025. We decided to hold the review early in the statutory window in Anglesey because there are challenging times ahead for the electoral service in 2024, with two elections likely to be held.
4. Parliamentary constituency boundaries, Senedd Cymru constituency boundaries and the boundaries and name of the local authority or its electoral wards are not part of this review process. Instead, it deals with the smaller polling districts and polling places.

¹ Sections 3.2.3.19 and 3.2.3.20 of the Constitution

Review

5. The aim of the review was to ensure that polling places in Anglesey were accessible and reasonable to constituents and that polling facilities were adequate in the circumstances.
6. A consultation on the review took place between 13 November 2023 and 12 January 2024. A public notice was posted on the Council's website along with a list of districts and polling places.
7. All Town and Community Councils were notified of the review by sending a message to the clerks and they were also asked to share the public notice in their communities.
8. The notice was also shared in Council libraries and the information was shared with members of the Council.
9. At the end of the consultation period, there was only one response and the respondent confirmed that he was satisfied that the list was suitable.
10. It is very likely that the lack of response is indicative of a general satisfaction with the distribution and accessibility of Anglesey polling places as a result of regular work that has been undertaken over the years to review polling places.
11. During each election, polling station inspectors will monitor the suitability of the stations and look out for any other suitable facilities or new buildings in the area that may be used as stations in the future. The elections team also reviews the suitability and accessibility of polling places between elections and keeps track of any major changes in polling district population.
12. Because there was no objection to the Council's proposals during the consultation period of the review, we conclude that the polling place list (annex 1) is suitable.

13. Recommendations -

- a. That the Council notes the outcome of the review.
- b. That the final proposals set out in **Appendix 1** regarding polling districts, polling places and polling stations be approved by the Council.
