## 1. Introduction

1.1 The Council Plan 2023-28 identifies six strategic objectives and sets out the key actions and commitments for the next five years.

Welsh Language

Social Care and Wellbeing

Education

Housing

Economy

Climate Change

### Council Plan 2023 to 2028

- 1.2 This scorecard monitoring report for 2024/25 is used to monitor the performance of our Key Performance Indicators (KPIs) in delivering the council's day to day activities that underpin the delivery of the Council Plan.
- 1.3 This year a number of KPIs were new, and many did not have targets and they were included to set a baseline. Trends for these were monitored during 2024/25 with the aim of setting targets in 2025/26 where possible.
- 1.4 The scorecard provides the evidence to enable the Council to monitor its performance and to be data informed when identifying any mitigating actions agreed by the Leadership Team to drive and secure performance improvements into the future.
- 1.5 The results within the scorecard are all cumulative and as such a trend column was made available in Q2 to inform the performance trends from quarter to quarter.
- 1.6 The RAG status for each section of the scorecard, with the exception of financial management which is done from a professional opinion perspective, can be found below:
- Red - more than 10% below target and/or needing significant intervention
  - Amber - between 5% & 10% below target and/or requiring some intervention
  - Yellow - within 5% of target
  - Green - on or above target

## 2. Overview

2.1 The majority (82.5%) of the indicators with targets monitored during the quarter performed well against those targets (Green or Yellow RAG).

2.2 Seven indicators are currently Red or Amber against targets. They are:

2.2.1 Education – 07) Môn Actif - Average number of children undertaking swimming lessons throughout the year – AMBER – 1,747 against a target of – 1,900

The number of Anglesey children on the Nofio Môn Swimming programme in Q4 was 1,682 which is a slight decline on the Q3 performance of 1695. This performance brings the average number for 2024/25 to 1,747. These figures do not include children undertaking swimming lessons through the primary schools, for which 3845 children attended sessions during 30-week block.

Demand for places has decreased and there is currently only one centre with a waiting list. The reasons for the decline in demand remain unknown. The service provided enhanced coaching training for some staff members at the end of March through Swim Wales. The enhanced training will further improve the quality of the swimming lessons. The service will work with leisure centres to increase demand for places by promoting the availability of places on the swimming programme.

2.2.2 Housing - 03) The average number of calendar days to let lettable units of accommodation (excluding DTLs) – RED – 54 days, Target – 35 days

This indicator declined further from an average of 47 days to 54 days during Q4. This indicator has many reasons for its decline and they were discussed at length in the [Corporate Scrutiny Committee on the 19<sup>th</sup> February](#). More time is needed to see the impact of the improvements on the performance indicators following the work of the Scrutiny task and the finish group and the resulting interventions put in place by Housing Service.

2.2.3 Housing – 04) Average number of calendar days taken to deliver a Small and Medium Disabled Facilities Grant – Adaptions (<£10k) – AMBER – 195 Days, Target 185 Days; and  
Housing - 05) Average number of calendar days taken to deliver a Major Disabled Facilities Grant – Adaptions (>£10k) – AMBER – 229 Days, Target 211 Days

Due to danger of overspending, new approvals were put on hold in November. This had a knock-on effect, when the service started approving again and successful contractors had unfortunately moved onto other projects, which delayed the start.

The service is currently reviewing the Disabled Facilities Grant (DFG) policy, which currently provides grants up to the value of £10k for all applicants and anything over £10k is currently means tested. The development of new performance indicators or targets for the DFGs against the new policy will be agreed when setting the new scorecard for 2025/26.

#### 2.2.4 Economy - 03) Total number of customers with annual mooring contract – AMBER – 191, Target 210

The number of annual mooring contracts sold is below initial expectations and no further contracts were sold during Q4. There are many reasons for missing the target including improvements at other moorings, the cost of living and ambitious targets.

The service continues to review arrangements for moorings with a new online system nearing completion. A new vessel bought during the year is used to ensure compliance and payment if a vessel is on its mooring.

#### 2.2.5 Climate Change - 02) Percentage of domestic waste reused, recycled, or composted - RED – 65.07%, Target 70%

61.37% of waste was reused, recycled or composted during Q4. This is the same as in 2023/24 and therefore brings the overall annual total to 65.07% for 2024/25.

To mitigate and to try and improve the rate, the council will continue its aim of reducing general waste and increasing recycling by working with the local communities to educate residents. This is a long-term strategy, and results will not change overnight as it requires a behaviour change by the residents.

The council has established a programme board to discuss what further mitigations can be put in place. Any significant changes identified by the board will be discussed by the Executive and Scrutiny Committees before any changes are made.

#### 2.2.6 Whole Council Health - 12) % of FOI requests responded to within timescale – AMBER – 83%, Target – 90%

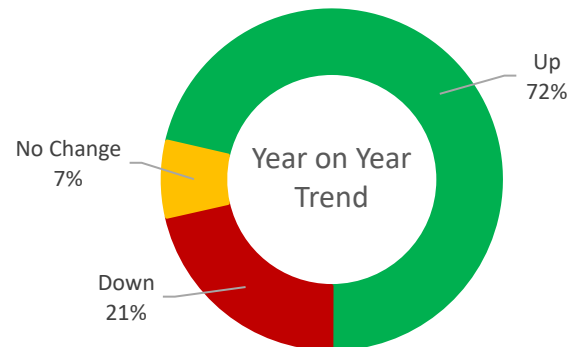

There were 260 FOI requests during Q4 with only 14 of them not responded to in time (95% within timescale) which is an improvement on previous results during the year. This brings the total for the period April to March to 682 FOI responded to within timescale out of the 818 FOI requests received (83%).

The performance of 83% is an improvement on the 80% achieved in 2023/24 and the 72% achieved in 2022/23. The Council remain committed to increasing the response rate for FOIs and the changes implemented during the second half of the year have started to have a positive impact on performance.

2.3 Some examples of the good performance seen during the year include:

- 2.3.1 30 businesses received support to develop the Welsh Language as part of the ARFOR programme before it came to an end
- 2.3.2 There were over 565,000 visits to Môn Actif Leisure Centres where people undertook exercise during the year, an increase of 50,000 visits compared to the previous year
- 2.3.3 Only 1.9% of pupils leaving school at the end of year 11 were known not to be in employment, education or training (NEET) for 2024, an improvement on the 4% in 2023. This was possible due to improved identification of young people at risk of being NEET and working closely with them to identify and find successful outcomes.
- 2.3.4 86% of tenants were satisfied with responsive repairs undertaken at their properties throughout the year, an increase from the 80% that were satisfied in 2023/24
- 2.3.5 Close to 98% of planning applications are now determined in time
- 2.3.6 All three road categories were below target with 1.8% in poor condition for A roads, 1.6% in poor condition for B roads and 7.3% in poor condition for C roads.

2.4 Our year-on-year performance for all comparable indicators (28 in total) demonstrates that 20 (72%) have improved during the year, 6 (21%) have declined and 2 (7%) have maintained on their performance levels.

## 10. Conclusion and Recommendations

- 10.1 The performance of 82.5% of the performance indicators performing above target or within 5% tolerance of their targets for the year is positive.
- 10.2 It demonstrates that services are operating in line with the values and general principles of the Council.
- 10.3 **Recommendation – that the Leadership Team manage, investigate and secure improvements into the future for the following KPIs:**
  - 10.3.1 Education – 07) Môn Actif - Average number of children undertaking swimming lessons throughout the year
  - 10.3.2 Housing - 03) The average number of calendar days to let lettable units of accommodation (excluding DTLs)
  - 10.3.3 Housing – 04) Average number of calendar days taken to deliver a Small and Medium Disabled Facilities Grant
  - 10.3.4 Housing - 05) Average number of calendar days taken to deliver a Major Disabled Facilities Grant
  - 10.3.5 Economy - 03) Total number of customers with annual mooring contract
  - 10.3.6 Climate Change - 02) Percentage of domestic waste reused, recycled, or composted
  - 10.3.7 Whole Council Health - 12) % of FOI requests responded to within timescale
