

ISLE OF ANGLESEY COUNTY COUNCIL		
Report to:	Governance and Audit Committee	
Date:	4 December 2025	
Subject:	Audit Wales Briefing Note: National Fraud Initiative 2024-25 update for Isle of Anglesey County Council	
Head of Service:	Marc Jones Director of Function (Resources) and Section 151 Officer MarcJones@anglesey.gov.wales	
Report Author:	Marion Pryor Head of Audit and Risk MarionPryor@anglesey.gov.wales	Andrew Lewis Insurance and Counter Fraud Officer AndrewLewis@anglesey.gov.wales
Nature and Reason for Reporting: The committee's terms of reference require it to have oversight of the council's arrangements for managing the risks from fraud and corruption, providing assurance that they are fit for purpose and will champion good counter fraud and anti-corruption practice to the wider organisation (3.4.8.9.2). This briefing note from Audit Wales provides an update on national and local progress of the National Fraud Initiative exercise which commenced in 2024-25.		

1. INTRODUCTION

- 1.1 The National Fraud Initiative (NFI) is a UK-wide counter-fraud programme conducted biennially in conjunction with the [Public Sector Fraud Authority](#), which operates under the authority of the Cabinet Office and HM Treasury, and focuses on managing and reducing the impact of fraud within the public sector. The exercise utilises data matching to detect and prevent fraud.
- 1.2 In Wales, the NFI is carried out under the statutory authority of the Auditor General, with mandatory participation from unitary local authorities, NHS bodies, police forces, and fire and rescue services.
- 1.3 This briefing from Audit Wales provides a national update as of 31 July 2025 and encourages those charged with governance to seek further local detail from lead officers.
- 1.4 The Governance and Audit Committee received an update on local detail at its [meeting](#) on 30 September 2025. Our report provided progress in relation to the review of the matches (Appendix 2 – NFI 2024-25 Outcomes Summary) and concluded that the low number of fraud/errors identified in relation to the match areas analysed provided assurance that there are robust systems of internal controls in place, i.e. in relation to Housing tenants / Waiting Lists, Payroll and Procurement.
- 1.5 While the Revenues and Benefits Service had not analysed the Council Tax Single Person Discount (CTSPD) matches, there is a plan to use an external provider to carry out a managed bulk review of their discounts and exemptions before the end of 2025-26.

1.6 Consequently, the council has not been able to maximize the benefit of their participation in the NFI by analysing the most valuable area of NFI data matches, as highlighted by Exhibits 3 and 6 in the Audit Wales briefing note. Audit Wales advocates that CTSPD data matches and matches in key reports should be treated as 'very high risk' in practice.

2. RECOMMENDATION

2.1 That the Governance and Audit Committee notes the Audit Wales briefing note and takes assurance that the council, taking account of the need to prioritise its resources, is seeking to actively embrace opportunities provided by the National Fraud Initiative to use data analytics to strengthen both the prevention and detection of fraud.

Briefing Note

National Fraud Initiative 2024-25: update for Isle of Anglesey County Council

About the National Fraud Initiative

- 1 The National Fraud Initiative (NFI) is a biennial UK-wide counter-fraud exercise. It helps prevent and detect fraud by electronically sharing and matching data sets. **Appendix 1** provides further information on how the NFI works.
- 2 In Wales, the NFI operates under the Auditor General's statutory powers. Participation is mandatory for unitary local authorities, NHS bodies, police forces, and fire and rescue authorities. Participating on a voluntary basis in the latest exercise are the Welsh Government, some Welsh Government arm's length bodies (Natural Resources Wales, Arts Council of Wales, Sport Wales, National Library of Wales, Transport for Wales), and South East Wales Corporate Joint Committee.
- 3 This briefing note provides an update on the latest NFI 2024-25 exercise at a national level and as at 31 July 2025. It also provides some local level data for your organisation, although we are encouraging those charged with governance to seek further local detail from lead officers.

Data submission for 2024-25

- 4 The NFI 2024-25 exercise is underway. Participants submitted data for the biennial batch data matching exercise in October 2024. This included data on housing benefits, housing tenants and waiting lists, blue badge parking permits, licences, and various payments such as creditor payments, payroll, and pensions.
- 5 The UK Public Sector Fraud Authority released most data match reports to participants by the end of December 2024. Council tax and electoral register data are submitted annually. The most recent deadline for submitting this data was February 2025.
- 6 Supplementary data runs take place during the exercise to process new, incomplete or missing data submissions. For example, progress is being made to amend the Public Audit (Wales) Act 2004 through a Legislative Reform Order which will enable the NFI to resume the matching of adult social care data during the NFI 2024-25 exercise.

National update

Data matches and investigation

- 7 To date, almost 440,000 data matches have been identified for the Welsh NFI 2024-25 exercise participants. **Exhibit 1** shows that most of these matches are for unitary authorities and health bodies.

Exhibit 1: NFI 2024-25 Welsh participant data matches by type of organisation, at end of July 2025

Type of organisation	Number of data matches	% of data matches
Unitary authority	373,114	84.9
Health	50,409	11.5
Police	2,641	0.6
Fire and rescue	740	0.2
Other	12,749	2.9
Total	439,653	100.0

Source: Audit Wales analysis of NFI web-application data

Note: % total does not match the sum of the parts due to rounding.

- 8 Data matching identifies potentially fraudulent or erroneous claims and payments. No assumption can be made about whether there is fraud, error, or another explanation until an investigation is carried out. There can, for example, be false positives around creditor payments if bodies are deliberately making staged payments of the same amount.
- 9 We recognise it is not practical to investigate all data matches, particularly for bodies with large numbers of matches. Bodies are encouraged to take a risk-based approach to assessing data match reports and deciding what type of, and how many, data matches they review.
- 10 By the end of July 2025, five participating bodies had not yet closed any data matches. Some participants are making good progress with reviewing NFI 2024-25 data matches, while others have made limited progress.
- 11 **Exhibit 2** shows the total number of data matches for each data match area. It also shows the number of data matches closed in a data match area, along with the number of participants that have matches in that area.

The absence of closed matches indicates that the participant has not reviewed any matches in that area.

Exhibit 2: NFI 2024-25 Welsh participant data matches processed and closed, at end of July 2025

Data match area	Data matches	Data matches closed	Participants with data matches	Participants with no closed statuses for their matches
Council tax single person discount	198,146	5,385	22	11
Creditors	187,228	19,791	48	16
Council tax reduction scheme	16,578	3,547	22	1
Blue badges	10,377	5,849	22	3
Payroll	8,150	1,705	46	6
Housing waiting lists	6,359	1,392	18	5
Housing tenants	4,636	879	11	2
Pensions	2,962	1,098	12	4
Resident parking	2,405	2,368	8	1
Procurement	1,985	400	42	28
Housing benefit	826	483	22	2
Taxi drivers	1	1	1	0
Total	439,653	42,898	49	5

Source: Audit Wales analysis of NFI web-application data

Note: After risk assessing data match reports and any subsequent investigations, each data match should be 'closed' and given a match status. There are a range of 'closed' statuses. Matches not investigated should be given the status 'Closed – Not selected for investigation'. Assigning match statuses to data matches can be done individually or by bulk selection.

Outcomes

- 12 Welsh participants recorded outcomes of £4.7 million for the period 1 April 2024 to 31 July 2025. **Exhibit 3** shows which matching process the outcomes relate to.

Exhibit 3: Welsh participant reported NFI outcomes, 1 April 2024 to 31 July 2025

NFI exercise	Outcomes (£s)
NFI 2024-25 biennial exercise	1,719,037
Late savings from the NFI 2022-23 biennial exercise	867,157
Annual council tax data matching exercises	2,080,831
Total	4,667,025

Source: Audit Wales analysis of NFI web-application data

Note: Outcomes are made up of (i) actual amounts participants have recorded as fraud or error; and (ii) estimated elements which seek to capture the value of loss from a fraud or error detected, and the value of any future losses that bodies may have incurred without intervention following an NFI match. Most datasets have a methodology to calculate estimated savings. All methodologies are reviewed by the Cabinet Office's NFI Governance Board and approved by the Cabinet Office's Fraud Prevention Panel.

Local update

- 13 Data matches are released in data match reports. Each report has a different purpose and compares data from two or more datasets. The reports are broken down into dataset types: for example, housing benefit, payroll, or creditors.
- 14 An organisation's risk assessment of the data match reports should determine the types and numbers of data matches to be investigated. To aid risk assessment, the NFI web application flags some data match reports as 'key reports' with historically high success rates in identifying fraud or error. Also, most individual data matches are assigned a fraud risk score.
- 15 **Exhibit 4** shows the total number of data matches identified for Isle of Anglesey County Council, along with those recorded in key reports. **Appendix 2** provides some further analysis of these data matches by fraud risk score.

Exhibit 4: Isle of Anglesey County Council's NFI 2024-25 data matches, at end of July 2025

Data match area	Data matches in all reports	Data matches in key reports with historically high success rates
Blue badges	270	243
Council tax single person discount	5,284	5,284
Council tax reduction scheme	506	452
Creditors	1,889	1,438
Housing benefit	7	6
Housing waiting lists	26	18
Housing tenants	194	129
Payroll	102	96
Procurement	40	40
Total	8,318	7,706

Source: Audit Wales analysis of NFI web-application data

Note: Council tax single person discount data match reports are not formally designated as 'key reports' but are treated as such in practice.

- 16 Various factors can influence which data match reports are reviewed and when this takes place. For example, an organisation may prioritise looking at data match reports linked to areas where it has concerns about internal controls or where there is a history of fraud or error. Also, local resourcing will dictate the pace of progress. For these reasons, this general update does not provide further detail on where processing work and outcomes are recorded by your organisation at this stage.
- 17 The NFI web application features a dashboard and provides various reports on outcomes and processing activity. We encourage those charged with governance to seek more detailed updates on processing work and outcomes recorded from their NFI Senior Responsible Officer and NFI Key Contact.

Future Audit Wales work

- 18 For this NFI exercise we will carry out a high-level assessment of participants' governance and follow-up arrangements. We will engage with bodies over the autumn/early winter to consider issues covered in our NFI self-appraisal checklist.¹ We will also analyse the risk assessment and data match processing work carried out, and the outcomes recorded by participants, as reflected in the NFI web application.
- 19 This work will help us understand the factors influencing the outcomes reported by individual bodies and the variations between them. Findings from this assessment will inform our next national report in autumn 2026.

¹ In December 2024, we shared the updated checklist with NFI senior responsible officers and key contacts. We encouraged all bodies to complete it and share it with those charged with governance.

Appendix 1 – The National Fraud Initiative

The NFI uses data matching to detect and prevent fraud. It electronically compares sets of data against other records held by the same and other bodies, to see to what extent they match.

The data matching flags anomalies or inconsistencies that indicate potential fraud or error. Indicators of potential fraud are reported to the participants, who are responsible for following up these matches.

The effectiveness of the NFI depends on the thoroughness of the assessment and investigation of matches and recording of outcomes.

Bodies record the outcomes in the NFI web application. Each participant body has a nominated Senior Responsible Owner and Key Contact for the NFI, who in some cases may be the same individual.

The UK Public Sector Fraud Authority, part of the UK Government's Cabinet Office and HM Treasury, oversees the NFI across the UK. Audit Wales leads the exercise in Wales under the Auditor General's powers in the Public Audit (Wales) Act 2004. The Auditor General's Code of Data Matching Practice summarises the key legislation, and controls, governing the exercise in Wales.

We published a report on the outcomes from the 2022-23 NFI exercise in October 2024. Reports on the NFI for other parts of the UK are produced by the Public Sector Fraud Authority, Audit Scotland, and the Northern Ireland Audit Office.

There is no direct cost to participants for taking part in the exercise. Audit Wales receives funding, through the Welsh Consolidated Fund, to pay for bodies to participate in the NFI. This covers the central data matching processing for the biennial exercise, as well as the annual exercise for council tax and electoral register datasets. This remained the case for the NFI 2024-25 exercise. The main costs to participants are, therefore, the resources used to submit data and conduct follow-up work once data matches are released.

Appendix 2 – Analysis of data matches by fraud risk score for Isle of Anglesey County Council

The NFI assigns a fraud risk score of very high risk, high risk, or medium risk to most, but not all, data matches. This risk score is based on a combination of two factors:

- Risk logic – a set of criteria for each dataset combination that, when met, indicates a fraudulent outcome is more likely to occur.
- Footprint score – the number of times an individual in a match appears at the address across all NFI data. It is an indicator of whether that person resides at that address.

Exhibit 5 and **Exhibit 6** provide further analysis of Isle of Anglesey County Council's data matches by risk score for data matches in all data match reports and those in key reports. This analysis builds on **Exhibit 4** in the main body of this briefing note. Not all data matches are formally assigned a risk score. Council tax single person discount data matches and matches in key reports that are not formally assigned a risk score should generally be treated as 'very high risk' in practice.

Exhibit 5: Isle of Anglesey County Council's NFI 2024-25 data matches by risk score for data matches in all reports, at end of July 2025

Data match area	All data matches	Very high risk	High risk	Medium risk	No risk score
Blue badges	270	244	26	0	0
Council tax single person discount	5,284	-	-	-	-
Council tax reduction scheme	506	16	132	51	307
Creditors	1,889	223	1,666	0	0
Housing benefit	7	4	1	0	2
Housing waiting lists	26	26	0	0	0
Housing tenants	194	38	1	19	136
Payroll	102	37	8	10	47
Procurement	40	0	0	0	40
Total	8,318	588	1,834	80	532
