

ISLE OF ANGLESEY COUNTY COUNCIL	
REPORT TO:	GOVERNANCE AND AUDIT COMMITTEE
DATE:	16 JULY 2026
SUBJECT:	DRAFT STATEMENT OF ACCOUNTS 2025/26
PORTFOLIO HOLDER(S):	CLLR ROBIN WILLIAMS – DEPUTY LEADER & PORTFOLIO HOLDER FINANCE, CORPORATE BUSINESS & CUSTOMER EXPERIENCE
HEAD OF SERVICE:	MARC JONES – DIRECTOR OF FUNCTION (RESOURCES) / SECTION 151 OFFICER
REPORT AUTHOR: TEL: E-MAIL:	BETHAN HUGHES-OWEN 01248 752133 BethanOwen2@ynysmon.llyw.cymru
LOCAL MEMBERS:	n/a
A - Recommendation/s and reason/s	
This report presents the draft Statement of Accounts for 2025/26. It is important to note that these figures are unaudited and may, therefore, be subject to change. A report will be presented to the Governance and Audit Committee following the completion of the External Audit. Recommendation:- 1) That the Governance and Audit Committee scrutinise and note the draft unaudited main financial statements for 2025/26.	

1. PURPOSE

This report presents the Isle of Anglesey County Council's draft Statement of Accounts for the financial year 2025/26.

2. BACKGROUND

- 2.1 Regulation 10 of the Accounts and Audit (Wales) Regulations 2014, as amended by the Accounts and Audit (Wales) (Amendment) Regulations 2018, requires that the responsible financial officer must, by no later than 31 May immediately following the end of the financial year, sign and date the statement of accounts and certify that it presents a true and fair view of the financial position of the Council. Since Covid-19, Welsh Government (WG) has revised its expectation for the completion of the draft and audited final accounts by suggesting later deadlines. This has continued beyond the Pandemic as, since 2021/22, there were significant delays to all councils' accounts due to technical accounting issues which affected all councils.
- 2.2 WG has extended the draft accounts deadline for 2025/26 to 30 June 2026, however, the audited final accounts has been reduced to 30 September 2026. The revised deadline has not been written into the regulations, therefore, each council is required to publish a notice highlighting a delay in the publication of the draft accounts, with the reasons, from the original deadline of 31 May 2026.
- 2.3 The draft Statement of Accounts for 2025/26 was signed by the Council's Responsible Financial Officer, the Director of Function (Resources) / Section 151 Officer, on 30 June 2026, and the audit of the accounts commenced on 1 July 2026. It is expected that the audit will be completed over the summer, with the final audited accounts being approved by 30 September 2026.

3. THE DRAFT COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT 2025/26 AND MOVEMENT IN RESERVES STATEMENT 2025/26

- 3.1** The draft Comprehensive Income and Expenditure Statement (CIES) 2025/26 is presented in Appendix 2 and on page 10 of the Draft Statement of Accounts.
- 3.2** The CIES summarises the cost of providing services in 2025/26, in accordance with statutory accounting requirements, and covers both the Council Fund and the Housing Revenue Account (HRA) in one financial statement. The CIES includes statutory accounting costs, such as depreciation and pension adjustments, which are not charged against Council Tax and are, therefore, reversed out before determining the final position of general balances, earmarked reserves, the HRA account balance and school balances. As a result, the CIES is not directly comparable to the outturn reports that will be presented to the Executive on 21 July 2026. A report on the Revenue Outturn was presented to the Executive on 16 June 2026.
- 3.3** The CIES shows that the net cost of services was £182.912m, with a surplus of £38.668m on the provision of services. The latter part of the CIES includes the movement for the revaluation of assets, such as properties, and for the re-measurement of the pension liability, to give the final net surplus for the year of £29.296m. Adjustments are then made, as shown in Table 1 below, to determine the movement to reserves and balances. The accounting adjustments are detailed in note 6 of the draft Statement of Accounts. The CIES and adjustments in note 6 are then brought together in the Movement in Reserves Statement (MIRS) on page 12, to show the Council balances as at 31 March 2026.

Table 1
Reconciliation of CIES to the Contribution to or from Reserves and Balances for 2025/26

	£'000	£'000
Total Cost / (Surplus) as per the CIES - page 10		(30,622)
Reverse out the surplus on the Revaluation of Assets and the Re-Measurement of the Pension Liability (Other comprehensive income and expenditure)	(5,046)	
Adjustments between Accounting Basis and the Funding Basis under Regulations – note 6 on page 20	35,913	
		30,867
Contribution (to) / from Usable Reserves and Balances		245

The movement in the Council's reserves and balances is shown in Table 2 below:-

Table 2
Summary of Movements in Reserves and Balances as at 31 March 2026

	Opening Balance 01/04/2025 £'000	Net (Over) / Under Spend 2025/26 £'000	Net Transfers (from) / to Reserves for Approved Funding £'000	Closing Balance 31/03/2026 £'000
Council General Fund	18,160	2,620	(1,743)	19,037
Council Fund Earmarked Reserves	20,759	-	3,676	24,435
School Balances	5,074	-	(746)	4,328
Capital Receipts Reserve	2,616	-	165	2,781
Capital Grants Unapplied Reserve	538	-	697	1,235
Ambition North Wales Reserve	913	-	-	913
HRA Reserve	7,977	(4,914)	-	3,063
TOTAL USEABLE RESERVES	56,037	(2,294)	2,049	55,792

- 3.4** The Council's accounts also include £913k in respect of the Ambition North Wales. This figure is the Council's share of the useable reserves, which are held by Gwynedd Council as the lead authority for the Board Members.

4. DRAFT BALANCE SHEET AS AT 31 MARCH 2026

- 4.1** The draft Balance Sheet as at 31 March 2026 is presented on page 13 within Appendix 2.
- 4.2** The value of the Council's net assets increased by £29.296m, from £486.690m last year to £515.392m at 31 March 2026. The value of the Council's long-term assets increased by £32.941m, this is due to capital expenditure on the Council's property, plant and equipment and the revaluation of existing assets.
- 4.3** Current liabilities decreased by £0.926m, reaching £56.817m. This movement primarily reflects an increase of £6.569m in short-term creditors, offset by a decrease of £8.190m in short-term grants received in advance. Long-term liabilities also reduced, falling from £135.223m to £133.818m.
- 4.4** The actuarial valuation indicates that the Pension Fund is in a surplus position of £155.642m. However, in accordance with IFRIC14, the Council is required to restrict the recognition of this surplus, as it is unable to access or realise the economic benefits associated with the pension asset. As a result, the value of the pension asset reported in the Council's accounts must be reduced to comply with the applicable accounting standards.

5. GENERAL FUND BALANCE

- 5.1** The General Fund balance (subject to audit) as at 31 March 2026 is £22.219m, representing 10.73% of the 2025/26 net expenditure budget. This balance remains provisional and may be amended following completion of the external audit. For 2026/27, the Council has approved the use of £1.685m from the General Fund to support the revenue budget. A further £0.100m has been allocated to meet additional staffing costs within Legal Services. After accounting for these commitments, the net available General Fund balance reduces to £20.434m, equivalent to 9.87% of the 2026/27 net expenditure budget.

The movement in the General Fund balance is summarised in Table 3.

Table 3
Movement in General Balances 2025/26

	£'m	£'m
Opening Balance as at 1 April 2025		18.161
Less Utilised to Balance 2025/26 Revenue Budget		(2.459)
Balance Available as at 1 April 2026		15.702
Transfers From Earmarked Reserves	0.716	
2025/26 Revenue Budget Surplus	2.620	
		3.336
Balance as at 31 March 2026		19.038
Funding for 2026/27 Revenue Budget		(1.685)
Legal Services Staffing Costs		(0.100)
Balance as at 1 April 2026		17.253

6. SCHOOL BALANCES

- 6.1 The level of School balances has decreased from £5.074m at the beginning of the financial year, to £4.327m at the end of the financial year. 6 primary schools were in deficit compared to 4 at the end of 2024/25. All of the schools that have a deficit balance have agreed an expenditure plan which will bring the school out of deficit over a period of time. The balances per sector are summarised in Table 4, below:-

Table 4
Summary of School Balances

Sector	Balance at 1 April 2025 £	Movement in Year £	Balance at 31 March 2026 £
Community and Voluntary Primary Schools	2,213,650	(699,527)	1,514,123
Community Secondary Schools	2,264,916	(145,955)	2,118,961
Community Special Schools	229,403	36,517	265,920
Foundation Primary School	365,668	62,611	428,279
TOTAL	5,073,637	(746,354)	4,327,283

7. EARMARKED RESERVES

- 7.1 Earmarked Reserves are maintained by the Council to provide financial protection against potential future risks, to accommodate anticipated increases in service demand, to support planned capital investment and to enable improvements in business processes and service delivery that are not funded through the annual revenue budget. These reserves also hold unspent grants and other external contributions. The maintenance of earmarked reserves is a key component of the Council's financial strategy, ensuring an appropriate level of financial resilience to meet future risks and challenges while enabling targeted investment in assets and services.

New reserves established during 2025/26, totalling £0.510m, are detailed in Table 5, and the Executive is asked to formally approve their creation at their meeting on the 21 July 2026.

Table 5
New Earmarked Reserves Created in 2025/26

Service	Reserve Name	Reserve Amount £	Reason for Creating Reserve	Purpose of the Reserve
Regulation - Maritime	Maritime Dredging	50,000	Fund capital expenditure required in 2026/27	Dredging works around piers.
Property	Door Entry System	75,000	Fund capital expenditure required in 2026/27	Repairs to the Door Access system to the main Council offices and an upgrade to the associated software.
Property	Smallholdings Repairs & Maintenance	200,000	Approved transfer of underspend to fund capital expenditure in 2026/27	Contribution to fund backlog repairs of the smallholdings estate.
Education	Post 16 Funding	42,317	Carry forward un-utilised grant to 2026/27	To fund further expenditure on post 16 education, as specified in the grant offer letter.
Children's Services	Duke of Edinburgh Award Scheme	4,537	To hold funding restricted for this purpose	To fund future costs relating to this scheme.
Children's Services	Travis Perkins Community Legacy Fund	9,425	To hold funding restricted for this purpose	To fund future costs relating to this scheme.

Digital, Modernisation and Transformation	ICT Staffing	121,885	To carry forward unspent staffing budget from 2025/26	To fund additional staffing costs in 2026/27 prior to the costs being permanently funded in 2027/28 budget.
Children's Services	Repairs & Maintenance - Cabannau	6,490	To transfer income to create a sinking fund	To create a sinking fund to meet the future repair and maintenance costs of nursery provision cabins located at various schools.
	TOTAL	509,654		

- 7.2** The total earmarked reserves as at 31 March 2026 are detailed in full in Appendix 4, but are summarised by purpose below, in Table 6:-

Table 6
Summary of Earmarked Reserves as at 31 March 2026

	Opening Balance – 01/04/2025 £	Contributions to / (from) during 2025/26 £	Closing Balance – 31/03/2026 £
Ongoing Corporate and Service Risks	7,092,100	1,111,627	8,203,727
Specific Corporate and Service Risks	1,609,476	(160,853)	1,448,623
Funding of Future Capital Expenditure	5,321,709	2,836,361	8,158,070
Business Process Improvements	374,327	(84,805)	289,522
Unused Contingency Budgets Carried Forward to Future Years	848,805	530,251	1,379,056
Restricted Grant Holding Reserves	2,181,098	(642,874)	1,538,224
Other Restricted Reserves	307,898	(185,646)	122,252
Other Earmarked Reserves for Specific Projects	3,023,645	270,552	3,294,197
TOTAL EARMARKED RESERVES	20,759,058	3,674,613	24,433,671

8. CAPITAL GRANT UNAPPLIED RESERVE

- 8.1** The Capital Grant Unapplied Reserve holds the unspent balance of the general capital grant. This reserve is not classified as an earmarked reserve as it is established specifically to retain capital funding. Although the grant is provided without conditions, it is for the Council to determine which capital projects will be supported from this funding. The reserve remains unapplied as the grant was not fully utilised by the end of the financial year. The balance will be drawn down to support capital expenditure in 2027/28.

9. HOUSING REVENUE ACCOUNT (HRA) BALANCE

- 9.1** The balance of the HRA reserve fell from £7.978m at the beginning of the financial year to £3.064m as at 31 March 2026. The details are shown in Table 7 below:-

Table 7
Housing Revenue Account Balance as at 31 March 2026

	£'m	£'m
Opening Balance as at 1 April 2025		7.976
Revenue Account Surplus 2025/26	8.023	
Capital Expenditure Funded from Reserves	(12.935)	
Net Movement in 2025/26		(4.912)
Closing Balance as at 31 March 2026		3.064

10. CONCLUSION

- 10.1** The Draft Statement of Accounts 2025/26 will be subject to audit during the summer period. Upon completion of the audit, the final audited Statement of Accounts will be presented to the Governance and Audit Committee on 28 September 2026.

Narrative Report

The Statement of Accounts is produced annually to give electors, local taxpayers, Members of the Council, employees and other interested parties, clear information about the Council's finances.

This narrative report, which is a key section of the accounts, aims to provide an effective guide to the most significant matters reported in the accounts. This is in order to provide a fair, balanced, and easy to understand explanation of the Council's financial position and to assist in the interpretation of the financial statements.

The Accounts and Audit (Wales) Regulations 2014 came into force on 31 March 2015, as amended by the Accounts and Audit (Wales) (Amendment) Regulations 2018. These regulations require Welsh Local Authorities to prepare a Statement of Accounts in accordance with these regulations and proper practices.

The Statement of Accounts consists of :-

Core Financial Statements

The Statement of Accounts includes the core financial statements, which are: -

1. **The Comprehensive Income and Expenditure Statement (CIES)** - shows the accounting cost in the year of providing services, in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation.
2. **Expenditure and Funding Analysis (EFA)** - shows the information in the CIES but also provides the accounting adjustments which are cancelled out in Note 6 to ensure that these adjustments are not funded by Council Taxpayers. The first column of the Expenditure and Funding Analysis provides the real impact of the year's financial performance on the Council and HRA's balances and reserves.
3. **The Movement in reserves Statement (MIRS)** - shows the movement in the year of reserves held by the Council, analysed between 'usable' and 'unusable' reserves. The statement shows the true economic cost of providing the Authority's services and how those costs are funded from the various reserves.
4. **The Balance Sheet** - shows the value as of the Balance Sheet date of the assets and liabilities recognised by the Authority. The net assets are matched by reserves held by the Authority.
5. **The Cash Flow Statement** - shows the changes in cash and cash equivalents of the Council during the reporting period.

The Isle of Anglesey County Council Vision and Priorities

The Isle of Anglesey County Council is a unitary authority and serves a population of approximately 69,000, situated on the north coast of Wales with an area of 276 square miles. Anglesey is by far the largest island in Wales, and the seventh largest in the British Isles. Anglesey is also the largest island in the Irish Sea by area, and the second most populous island in the British Isles.

The Council is a politically led organisation and has adopted a Leader and Cabinet model. The Council had 35 elected Members representing 14 multi-Member wards on 31 March 2026. Elections were held on 5 May 2022 for all Council seats, following which the successful candidates formed the full Council, which will remain in place until early May 2027. Plaid Cymru is the controlling party in the Council with more Plaid Cymru Councillors than any other group or party.

The Council Plan 2023/28

The Council Plan 2023/28 highlights that the Council's long-term vision continues as "Creating an Anglesey which is healthy and prosperous where people can thrive". The strategic objectives of the new Council plan are:

- To increase opportunities to learn and use the Welsh language;
- To protect and support the vulnerable;
- To raise educational attainment and achievement;
- To work with partners to increase quality, affordable and accessible homes;
- To promote opportunities to develop the island's economy;
- To respond to the climate change crisis, tackle change and work towards being a net zero organisation by 2030.

The Council Plan 2023/28 can be found on the website at the web address:

[Council Plan 2023 to 2028](#)

Financial Scenario

All 22 councils in Wales received a better-than-expected funding settlement from Welsh Government for 2025/26. The final settlement included a floor at 3.8% with Anglesey receiving the funding floor level, an increase of 0.2% on the provisional settlement. This took the total value of the AEF to £135.881m. In addition, the final settlement noted that a further grant of £30m across Wales, would be provided by the Welsh Government (WG) to help meet the costs faced by local authorities in caring for elderly clients at home or in residential or nursing care, rather than clients having to go to hospital. This additional £30m will provide the Council with £663k in additional grant funding.

Whilst setting the 2025/26 budget the Welsh Government announced an additional funding package of £220 million to support higher National Insurance costs for Welsh public Services. For Anglesey this equated to additional grant income of £2.223m. The Council set a balanced budget for 2025/26, which required an 8.5% increase in Council Tax and the use of £2.460m of the Council's own reserves.

The Budget

The Council's Budget and Medium-Term Financial Strategy for 2025/26 was adopted by the Council at its meeting on 6 March 2025, and it provides an overall picture of the financial position of the Council and ensures that the Council funding is allocated to meet its priorities. The Medium-Term Financial Strategy is available at: -

Isle of Anglesey County Council – Item 9

The settlement was better than anticipated during the majority of the budget planning stage and provided the Council with £135.881m, which was an increase in cash terms of £4.974m (3.80%) after allowing for £4.974m of grants received in 2024/25, which transferred into the settlement in 2025/26. The Council resolved to increase the Band D Council Tax by 8.5%, which increased the charge for a Band D property to £1,705.95.

The revenue budget was set at £195.443m, which was to be funded by the settlement, council tax and £2.460m use of reserves. The Council also resolved to approve the Capital Strategy 2025/26 and the Initial Capital Programme 2025/26 of £44.294m, as well as the Treasury Management Strategy Statement for 2025/26.

Budget Monitoring

The Council has a well-established procedure for monitoring the budgets. This allows the Council to mitigate any overspending and the impact likely to occur on services. Additional funding from reserves where possible, could be provided for instances where demand for a service is required. Both the Revenue and Capital information, alongside HRA, are reported to the Finance Scrutiny Subgroup, the Scrutiny Committee and then the Executive on a quarterly basis, which facilitates a level of challenge as well as being able to mitigate any impact that is likely to occur on services.

Performance

The Council regularly measures its performance and linked below is a report that shows the Council's performance against its strategic objectives as outlined in the Council's Plan.

Isle of Anglesey County Council – Item 8

Revenue Expenditure

The Statement of Accounts sets out the Council's spending and funding in line with accounting requirements. The Council measures financial performance against planned activity in the form of the Council's management accounts. In 2025/26, the Council's draft outturn is an underspend of £2.620m against a planned activity of £195.442m (net budget). This may be subject to change once the accounts have been audited.

The table below reflects the final budget for 2025/26 and actual income and expenditure against it: -

Services	Annual Budget £'000	Outturn £'000	Variance £'000
Education, Young People and Skills	71,519	70,516	(1,003)
Adult Services	42,356	41,483	(873)
Children's Services	17,230	18,567	1,337
Housing	2,991	2,990	(1)
Highways, Waste, Property	20,495	20,384	(111)
Regulation	6,083	6,034	(49)
Transformation	8,110	7,527	(583)
Resources	3,906	3,909	3
Corporate Services and Corporate Finance	6,241	6,576	335
Total Council Fund	178,931	177,986	(945)

The Council's general reserve balance was £18.160m at the start of the financial year. As part of the approved 2025/26 budget, £2.459m was transferred from the reserve, reducing the balance to £15.701m. During the year, £716k was released from earmarked reserves to the general reserve. Together with the Council's 2025/26 underspend of £2.620m, this increased the general reserve balance to £19.037m as at 31 March 2026.

Summary of Movements in Council Reserves 2025/26

	Council Fund General Reserve	Council Fund Earmarked Reserves	School Reserves	Capital Receipts Reserve	Capital Grants Unapplied Reserve	NWEAB Reserves	Housing Revenue Account (HRA) Reserve	Housing Revenue Account (HRA) Capital Receipts Reserve	Total Usable Reserves

Net transfers from/(to) Reserves for approved funding	1,743	(3,676)	746	(165)	(697)	-	-	-	(2,049)
General Reserve Balance at 31 March 2026	(19,037)	(24,435)	(4,328)	(2,781)	(1,235)	(913)	(3,063)	-	(55,792)

Capital Expenditure

The capital programme supports the Council's wider objective to deliver services and support economic growth.

In March 2025, the Council approved an initial capital programme of £44.294m and, in July 2025, the Executive approved that £2.529m of slippage from 2024/25 to be carried forward and added to the 2025/26 budget. This gave a revised budget of £46.823m.

During the year, additional schemes were added to the capital programme, to reflect funding changes and any additional grant funding that is received during the year. In total, £23.825m has been added to the capital programme. This brings the total Capital budget for 2025/26 to £70.648m.

The programme has made steady progress in year, achieving a delivery rate of 77%. It is expected that most of the remaining schemes will be delivered in the next financial year. From this total spend of £54.662m, £24.499m was added to the value of assets in the Council's Balance Sheet. The remainder was charged to the Comprehensive Income and Expenditure Statement, as it was either in support of assets that are not in direct Council ownership (£10.181m) or did not increase the fair value of the capital assets (£19.983m). However, this capital expenditure improved the condition of the assets and, on several projects, extended the life of the assets.

IFRS16 Leases from 1 April 2024 requires all local authorities to add leased assets in, above the small value leases exemption (less than £10k for the Council) to the Council's balance sheet similar to owned assets. In 2025/26 £1.320m of new Right of Use assets were added to the balance sheet (£2.229m in 2024/25).

The Council received a significant amount of capital grants during the year from Welsh Government, UK Government and other sources of £25.937m (£37.883m in 2024/25). This included £12.179m of capital grants from Welsh Government for the improvement and development of Council dwellings. This will help the Council continue with improvements to meet the Welsh Housing Quality Standards and to increase the number of Council dwellings on Anglesey. The Council Fund also benefitted from substantial grants including £8.759m on economic and regeneration schemes, £4.075m for low carbon heat pumps in several schools and care homes, £3.136m of Highways grants, £2.824m on educational projects along with additional funding for several other projects.

The table below details the capital expenditure, per service: -

Services	2025/26 £'000	2024/25 £'000
Education, Young People and Skills	3,070	8,265
Adult Services	1,238	486
Housing	1,620	1,966
Housing HRA	25,114	27,468
Highways, Waste, Property	13,072	19,026
Regulation	9,611	7,948
Transformation	937	396
Right of Use Assets	1,320	2,229
Total Council Fund	55,982	67,784

A note of the Authority's current borrowing facilities and capital borrowing: -

Funded By	2025/26 £'000	Percentage %
Unsupported Borrowing	1,491	2.66%
Supported Borrowing	4,229	7.55%
Capital Grants	25,937	46.33%
Capital Receipts	53	0.09%
Revenue Contribution	12,935	23.11%
REFCUS grants	9,447	16.88%
Loan	385	0.69%
Capital Reserve	1,505	2.69%
Total	55,982	100%

The Authority had £123.556m of external borrowing (excluding accrued interest of £1.850m) as at 31 March 2026. In addition, the Council held £2.349m of right of use liabilities for the right of use (leased) assets into the Council. This relates to the liabilities outstanding at 31 March 2025 for leased assets of £10k or higher. IFRS16 Leases from 1 April 2024 requires all local authorities to add leased assets in, above the small value leases exemption (less than £10k for the Council) to the Council's balance sheet similar to owned assets. The outstanding payments under the lease or contract are then treated as borrowing and are split between principal and interest similar to traditional loans.

The Authority's Capital Financing Requirement (CFR), which essentially is a measure of the Council's underlying borrowing need, was £156.537m (£152.389m in 2024/25), which indicates that the Council has used £32.981m of its own surplus cash balances to fund capital expenditure. In the Treasury Management Strategy Statement for 2025/26, the Authorised Borrowing Limit approved by the Council was £176m, therefore, the Authority is well within its borrowing limit with external borrowing of £123.556m.

Reserves, Financial Performance and Financial Position

The Council's General Fund balance as at 31 March 2026 stood at £19.037m, which equates to 13.4% of the net revenue budget for 2025/26. The Council's financial strategy aims to hold a minimum of 5% of the net revenue budget as General Balances (£9.772m). As a result, the Council's General Balance is higher than the target. However, with the continuing cost and demand pressures increasing costs facing the Council, this surplus provides more financial stability for the Council especially with the funding issues affecting Government and all public sector organisations.

The financial performance for 2025/26 showed a net underspend of £2.620m on the Council Fund. This is made up of overspends from some services such as an overspend of £1.337m in Children's Services which continues to experience increased demand. Several services underspent or achieved surplus income. The Education, Young People and Skills Service underspent by £1.003m and the Adults service underspent by £873k. The total underspend on services amounted to £908k.

There were some overspends in Corporate Finance such as £336k for debt write-offs and increases in the impairment loss allowance (previously known as bad debt provision). Benefits granted underspent by £189k and Capital Financing achieved an underspend of £771k due to surplus interest receivable and delaying external borrowing. The continuing high levels of interest rates by the Bank of England are benefiting the Council as the interest receivable from its investment of surplus funds continues to generate significantly higher levels of interest

than in the previous decade. However, increased interest rates continue to negatively impact the Council when borrowing in the future for capital projects, despite the modest Bank of England base rate reductions, which have slowed due to uncertainty from global events. No borrowing was taken out in 2025/26, and the Council will use cash balances for as long as possible to save on borrowing costs though this reduces the amount available to invest. Overall, Corporate Finance underspent by £393k. The Council achieved surplus income of £1.212m on the Council Tax premium and £119k on Council Tax.

Housing Revenue Account

The Council's Housing Revenue Account balance stood at £3.063m as at 31 March 2026. The reserve is earmarked to fund the cost of the development of new properties as set out in the Council's 30-year HRA Business Plan. This balance will delay the need for the HRA to borrow for refurbishing or building new council dwellings. The HRA has had a very successful year of improving, purchasing and building new council dwellings and due to the high levels of external grants this has not impacted significantly on the HRA balances in 2025/26.

Provisions

The Council's total provisions amounted to £2.316m on 1 April 2025. During the year, the balance increased by £0.306m to £2.622m. Insurance coverage was increased to £738k in line with estimated need. The total short-term provisions amounted to £1.124m, to accommodate expected future costs that may arise from past liabilities. The total provision for Penrhysgyn Waste Site was reduced by £0.156m due to the cost of improvement works undertaken on the landfill site in 2025/26 and removing £0.087m from the provision to an earmarked reserve. Details of the movements in provisions are shown in Note 21 of the Accounts

Teachers Pension Scheme – Teachers employed by the Council are members of the Teachers' Pension Scheme, administered by the Department for Education. The scheme provides teachers with specified benefits upon their retirement and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

Local Government Pension Scheme - As part of the terms and conditions of employment of its officers and other employees, the Council offers retirement benefits by participating in the Gwynedd Pension Fund defined benefit scheme which is administered by Gwynedd Council. This is a funded scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pension's liabilities with investment assets. Benefits will not actually be payable until employees retire, but the Council has a commitment to make the payments to the Pension Fund that need to be disclosed at the time that the employees earn their future entitlement.

There are two valuations completed for the pension fund. These are completed by an Actuary, who is a pension valuation specialist. The first is the funding valuation which is completed every three years. This is important as it considers the actual assets that the fund is invested in at the valuation date and assesses whether the returns on the assets will fully fund the value of all future payments to members based on all benefits earned up to the valuation date. The present value of the liabilities are then discounted, so that the values are converted to their value as at the valuation date. If the valuation calculates that the pension fund is not fully funded, then the Council's contributions rates will increase to move towards 100% funding over an agreed time period. If the valuation shows the scheme is more than 100% funded, then contributions into the pension fund may reduce.

The second valuation is the accounting valuation (used for the purpose of these accounts) which is more theoretical and projects what the Council's liability or asset would be if the pension fund would cease to exist. This valuation is based on assets and obligations at the balance sheet date. It is theoretical because of the rules and regulations to protect the pension fund to ensure that it exists for as long as the pension fund obligations require and due to the assumptions, the Actuary is required to make. This is based on accounting requirements which do not affect the Council's actual funds. The results of the funding valuation only affect council funds.

The pension accounting valuation is the value reported each year in the Council's statement of accounts. Some charges affect the Comprehensive Income and Expenditure Statement, CIES and the valuation at the end of the financial year is reported in the balance sheet. However, these are offset by adjustments in the movement in reserves statement to cancel them out so that the council tax is not required to fund these statutory accounting adjustments.

Historically, the Council's balance sheet has shown that the value of the Pension Fund as a significant liability. The fair value of all the Pensions Fund investments are offset against the present value of the obligations of the Pension Fund though typically it is not enough to cover of all the estimated present value of the pension obligations.

Similar to last year, the Actuary's accounting valuation has determined that the value of the assets exceeds the value of the liabilities and that the Pension Fund is in a net asset position. In drawing up the valuation, the Actuary uses the yield rate on Government Gilts as the discount rate for future liabilities. As this rate increases, the discount rate increases, which has the overall effect of reducing the current value of future liabilities.

The pensions accounting standard IAS19 which was updated by IFRIC14 does not permit reporting a pension net asset for defined funded benefits pensions such as the Gwynedd Pension Fund, as the Council cannot realise the value of the asset at this point. In determining the carrying value on the Balance Sheet, the Council has applied the prudence concept and has the adjusted net asset position on funded obligations from £164.749m to £0. However, the actuary has advised that the net liability of unfunded obligations should be shown on the balance sheet. Therefore, a liability of £9.107m (£9.259m in 2024/25) is included in the long-term pensions liability on the balance sheet funded by the pensions unusable reserve. The full results of the accounting valuation is reported in the Local Government Pensions note 34 on page 54.

Freeport

The Council established the Freeport company on 25 November 2024; however, the company remained dormant throughout 2025/26 and did not undertake any trading activity during the year. It had no employees and carried out no operational activities in 2025/26. A Memorandum of Understanding (MOU) has been entered into between the UK Government, the Welsh Government and the Council, setting out the principles governing the operation of the Freeport. Upon signing the MOU, the Welsh Government agreed to provide £25m of capital funding, of which the first instalment of £11,566,667 was paid to the Council on 27 March 2026. This funding will be applied to projects specified in Schedule 4 of the grant offer letter.

Going Concern

The accounts are prepared on the 'going concern' basis. This means that the accounts have been prepared on the basis of the Council continuing in its current form into the future. The Isle of Anglesey County Council was created by statute law in 1996 and will continue in its current form until changed by statute. Total usable reserves reduced by £245k but remain robust at £55.792m. The increase in the Council's general reserve from £18.160m to £19.037m improves the Council's financial resilience and the Council is very unlikely to issue a S114 notice in the financial year 2026/27. These notices are issued by Councils in difficulty where their expenditure exceeds income and are in budget deficit.

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The Isle of Anglesey County Council's responsibilities

The Isle of Anglesey County Council is required to: -

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Director of Function (Resources) who is also the designated Section 151 Officer;
- Manage its affairs to secure economic, efficient, and effective use of resources and safeguard its assets;
- Approve the Statement of Accounts.

The Section 151 Officer's responsibilities

The Section 151 Officer is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ("The Code").

In preparing this Statement of Accounts, the Section 151 Officer has: -

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with CIPFA Local Authority Code of Practice.

The Section 151 Officer has also: -

- kept proper accounting records, which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate

I certify that this Statement of Accounts gives a true and fair view of the financial position of the Isle of Anglesey County Council at the accounting date and its income and expenditure for the year ended 31 March 2026: -

Signed:

Richard Marc Jones FCPFA

DIRECTOR OF FUNCTION (RESOURCES) AND SECTION 151 OFFICER

Signed:

Councillor Dafydd Rhys Thomas

CHAIR OF ANGLESEY COUNTY COUNCIL

Date:

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT FOR YEAR ENDED 31 MARCH 2026

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. The Services reported below are based on the organisational structure of the Council. The Council raises taxation to cover expenditure in accordance with regulations, which may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

EXPENDITURE AND FUNDING ANALYSIS

The Expenditure and Funding Analysis (EFA) aims to show the real impact of the year's financial performance on the Council's balances. The Comprehensive Income and Expenditure Statement (CIES) includes many accounting adjustments, such as depreciation and pension adjustments, which, by law, are not allowed to be funded by Council Tax. These are not true costs which affect Council usable balances. To ensure that these accounting costs do not affect Council taxpayers and Council funds, these costs are cancelled out in the EFA and are also shown in the Movement in Reserves Statement (MIRS) and Note 6.

MOVEMENT IN RESERVES STATEMENT FOR YEAR ENDED 31 MARCH 2026

This Statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (i.e., those that can be applied to fund expenditure or reduce local taxation) and other reserves. The (Deficit)/Surplus on the 'provision of services' line shows the true economic cost of providing the Council's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. This is different from the statutory amounts required to be charged to the Council Fund Balance for Council Tax setting purposes and the Housing Revenue Account for rent setting purposes. The 'Net (Decrease)/Increase before transfers to earmarked reserves' line shows the in-year movement on the Council Fund and Housing Revenue Account balances before any discretionary transfers to or from earmarked reserves are made by the Council.

BALANCE SHEET AS AT 31 MARCH 2026

The Balance Sheet shows the value of the assets and liabilities recognised by the Council as at the Balance Sheet date. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council. Reserves are reported in two categories. The first category of reserves is usable reserves, i.e., those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that can only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Council is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses, where amounts would only become available to provide services if the assets are sold (for example the Revaluation Reserve) and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations.

	Note	31 March 2026 £'000	31 March 2025 £'000

CASH FLOW FOR YEAR ENDED 31 MARCH 2026

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council during the financial year. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources that are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e., borrowing) to the Council.

	Note	2025/26 £'000	2024/25 £'000
Net Surplus / (Deficit) on the provision of services		35,668	41,122
Non Cash Items charged to the Income and Expenditure Accounts	22	20,638	28,946
Cash items not charged to the Income & Expenditure Account	22	(13,778)	(12,774)
Movements in Net Current Assets	22	9,416	(18,721)
Adjustments for items included in the net surplus or deficit on the provision of services that are investing and financing activities	22	(26,155)	(38,773)
Net cash flows from operating activities		25,789	(200)
Net cash flows from investing activities	23	(18,327)	(17,413)
Net cash flows from financing activities	24	(799)	(923)
Net (decrease)/increase in cash and cash equivalents		6,663	(18,536)
Cash and cash equivalents at the beginning of the financial year		13,571	32,107
Cash and cash equivalents at the end of the financial year	19	20,234	13,571

NOTE 2 – ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT YET BEEN ADOPTED

The standards introduced by the 2026/27 Code where disclosures are required in the 2025/26 financial statements, in accordance with the requirements of paragraph 3.3.4.3 of the Code, are:

- a) **Amendments to FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (Amendments to Heritage assets)** issued in March 2024.

This standard applies to eligible organisations that do not follow International Financial Reporting Standards (IFRSs). The Council is required to prepare the annual accounts in compliance with IFRSs as amended by the CIPFA Code of Practice on Local Authority Accounting 2025/26. Therefore, these amendments do not affect this Statement of Accounts.

- b) **Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7)** issued in May 2024

The changes to IFRS9 clarified that a financial liability is derecognised on the 'settlement date' which is the expiry of the right to receive cash. This is when the related obligation is discharged by being paid back, cancelled or expired. In addition, where a financial liability is settled in full or part, using an electronic payment system, an entity is permitted to adopt a policy to derecognise all financial liabilities before the settlement date in circumstances where there is no ability to withdraw, stop or cancel the electronic payments or access the cash due to the payment instruction. In 2025/26, the Council's derecognition of financial instruments are in accordance the settlement dates.

The changes to IFRS 7 relate to increased disclosures where there are changes to the fair value of equities during the period. The Council did not hold any financial instruments i.e. investments or liabilities valued at fair value in 2025/26. The Council investments are all financial assets measured at amortised cost. The standard also introduced changes which relate to various investments and liabilities which result in changes due to contingent features which do not relate to changes in basic lending risks and costs. The Council's financial instruments do not include such contingent features.

- c) **Annual Improvements to IFRS Accounting Standards – Volume 11**, issued in July 2024.

This makes minor amendments to five accounting standards for periods beginning on or after 1 January 2026. CIPFA considers these changes to have limited applicability.

- d) **Contracts Referencing Nature-dependent Electricity (Amendments to IFRS 9 and IFRS 7)** issued in December 2024.

These requirements have no impact on these accounts as the requirements are effective for the next financial year 2026/27.

NOTE 3 – CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies set out in Note 44, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are: -

- The Accounts have been prepared on a going concern basis, which assumes that the functions and services provided by the Council will continue in operational existence for the foreseeable future. The Council is a local government body created by the Local Government (Wales) Act 1994. The Council operates within a difficult financial climate, similar to all local authorities in Wales. However, there are no indications from either the financial performance of the Authority or Welsh Government plans which undermine the view that the Council will continue as a going concern into the future.
- The Council has determined that a number of assets which are used for social or economic development purposes, most notably the Council's Smallholdings Estate, are not solely held for income generation or capital appreciation purposes and, therefore, do not meet the definition of investment properties. Consequently, these assets are shown as Non-Current Assets - Property, Plant and Equipment within the Balance Sheet.

NOTE 4a – ASSUMPTIONS MADE ABOUT FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends, and other relevant factors. However, because balances cannot be determined with certainty, actual results could be different from the assumptions and estimates.

The following items in the Council's Balance Sheet at 31 March 2026 may be considered to be most vulnerable for estimating error in the forthcoming financial year: -

Non-Current Assets – Property, Plant and Equipment (PPE) - Assets are depreciated over useful lives in accordance with standard accounting practices. Any difference between the depreciation applied and actual deterioration to assets will naturally reflect in future spending patterns. Information relating to Property, Plant and Equipment is contained in Note 13 and note 13b Infrastructure Assets. The value of the Council's PPE assets at 31 March 2026 was £611.754 (580.318m at 31 March 2025). PPE are revalued every five year and since 2025/26 and beyond, the value of some classes of PPE are estimated during the intervening years using appropriate external indices or where there is no suitable index, these assets are valued in year three of each five-year programme.

Provisions - The Council has made provisions amounting to £2.622m (£2.316m on 31 March 2025) for a series of uncertainties which could result in significant costs in later years. These principally relate to after-care costs for the Penhesgyn landfill site and potential liabilities arising from insurance claims. Full details are contained in Note 21.

Pensions Liability - Similar to last year, the Council's Actuary has valued the Pension Fund to a surplus position and therefore a net pension asset of £164.789m, excluding £9.107m unfunded pensions obligations. This surplus has been reduced to nil because of pensions rules restricting the reporting of a net pensions asset in the balance sheet. This is due to a change in the assumptions the Actuary has used in relation to the discount factor due to increased interest and bond rates. This is used to calculate how much the future pension obligations will be at today's prices, so that it can be compared with the current value/market value of investments and assets. (an asset of £138.823m excluding unfunded obligations was reported for the value on 31 March 2025). A net liability of £9.107m (£9.259m on 31 March 2025) remains on the pension liability for unfunded obligations which cannot be offset against the surplus on the pension fund.

The pension's accounting valuation is based on a number of complex assessments and judgements relating to discount rates, projected salary increases, changes in retirement ages, mortality rates and expected returns on pension assets. A firm of consulting actuaries is engaged by the administering Council to provide expert advice on the assumptions to be applied. Further details are contained in Note 34 and the narrative report. The note includes the surplus, however, as outlined in the narrative report, this is not included in the balance sheet due to restrictions prescribed by IAS19 and IFRIC14 on accounting for pensions.

Impairment Loss Allowance and Bad Debt provision - As at 31 March 2026, the Council had a net debtor balance of £57.553m. (£69.520m in 2024/25) A review of arrears balance suggested that impairment or provision of doubtful debts of £9.968m was appropriate (£8.532m at 31 March 2024/25). Any differences between the impairment level applied and the actual arrears position will naturally reflect in future spending patterns. Impairment loss allowances / provision for bad debts are contained within the figures for Short-Term Debtors contained in Note 18.

Fair Value Measurement - The majority of the Council's non-current assets are measured at Fair Value, with the exception of infrastructure assets valued at £74.568m, community assets valued at £259k, assets under construction valued at £39.989m and plant, vehicles and equipment valued at £13.167m. These are all valued at depreciated historical cost.

Leasing – The Council has implemented the requirements of IFRS16 Leases from 1 April 2024. This has resulted in the estimation of the duration of some leases where there are rolling contracts which go beyond the original lease date. Leased vehicles and properties to reduce homelessness tend to be rolling leases. Where a lease or contract with a right of use asset does not specify the implicit interest rate, the Council uses the PWLB annuity rate for the duration of the lease, as its incremental borrowing rate. Many leases are valued on the cost model basis but some assets especially some properties are valued on fair value. Right of Use Assets measured at fair value are valued every five years. In the intervening years, their values are estimated using suitable external indices. Where no suitable index is available, the assets are valued in year three of the five-year programme. See Note 43 for details of Right of use Assets.

4b ESTIMATES AND ERRORS – PRIOR PERIOD ADJUSTMENTS, CHANGES IN ACCOUNTING POLICIES AND ESTIMATES AND ERRORS

The Council's PPE valuation policy has been updated to reflect new CIPFA indexation requirements from 1 April 2025. Where no suitable index is available, affected assets will be revalued in year three of the five-year valuation programme.

NOTE 5 – EVENTS AFTER BALANCE SHEET DATE

The Council must report material events which occur after the reporting period of 31 March 2026 and up to the date the draft accounts were authorised for issue on 30 June 2026.

There were no material events between the reporting period and the date the draft accounts were published.

NOTE 6 – ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATIONS

2025/26	Usable Reserves							Movement in Unusable Reserves £'000

* Three reserves have increased to over £500k during the year, the opening balances for the year have been amended to reflect this.

The more significant reserves are:

Waste / Recycling – this reserve is used to fund future waste management projects.

Schools Rationalisation – to be used to fund school rationalisation.

Education Sinking Fund ICT Equipment – this is to fund the cost of replacement IT equipment in schools.

Insurance Reserve – this is to fund uninsured losses and policy excesses.

Revenue Contributions Unapplied to Capital – this is a capital reserve which is made up of revenue contributions to projects which have not been completed or have been funded by general grant to minimise capital financing costs. Where projects have received alternative funding this frees up the revenue contribution to fund another project in the future, again to reduce capital financing costs.

Housing Developer Contributions S106 – contributions received by housing developers which will be used to fund projects which are in line with the terms of agreement.

Affordable Housing – this reserve is for funding projects that will increase the affordable housing stock on Anglesey.

Leisure Improvements – this reserve is funded from a windfall from HMRC, after HMRC lost a court case which argued that HMRC should not be collecting VAT on leisure services. The Council was repaid approximately £900k from HMRC. The current balance of £762k will be used to fund improvements to the Council's Leisure facilities on Anglesey.

Additional Revenue Settlement – this is to fund unknown inflationary pressures as they arise during the financial year.

Out of County Education – this reserve will be used to reduce the risk associated with the demand led budget and fund in-year unexpected increases.

Homes for Ukraine – support for families from Ukraine to establish a life in Wales.

Council Tax Risk Reserve – to fund council tax refunds.

Penhesgyn Site Culvert – this reserve is to fund any future potential flood prevention works and significant works required in the event that the culvert at Penhesgyn has a total collapse.

Trainee Scheme – this is to fund schemes to employ trainees within different services in the Council.

Afghan Resettlement – this is a grant to aid resettle Afghan interpreters, refugees and their families.

Shared Prosperity Fund (SPF) Interest Received – amount retained to cover any unanticipated administration costs at the closure of the SPF programme.

Schools Balances – these balances are reserved for each school's use in pursuance of its educational objectives. On 31 March 2026, six of the forty primary schools had balances in a deficit position (four in deficit as at 31 March 2025). None of the five secondary schools are in a deficit position at the end of the financial year (none as at 31 March 2025), the Special school is not in a deficit position at 31 March 2025. The combined value of the schools in deficit is £202k (£194k as at 31 March 2025). Copies of the Section 52 Statements, which each Council is required to prepare after the end of each financial year under Section 52(2) of the School Standards and Framework Act 1998, can be obtained from the Accountancy Section, Resources Function, County Offices, Llangefni, Anglesey, LL77 7TW.

NOTE 8 – CAPITAL RECEIPTS RESERVES

These are cash receipts from the sale of Council assets. These are used to fund capital expenditure in the year or to carry forward for future years. A balance of £2.781m will be carried forward to 2026/27 to help fund next year's capital programme.

	2025/26 £'000	2024/25 £'000
Balance 1 April	2,616	2,899
Capital Receipts in year (net of reduction for administration costs)	218	890
	2,834	3,789
Less:		
Receipts set aside to repay debt	-	-
Capital Receipts used for financing	(53)	(1,173)
Other	-	-
Balance 31 March	2,781	2,616

NOTE 9 – UNUSABLE RESERVES

	31/03/2026 £'000	31/03/2025 £'000
a) Capital Adjustment Account	264,811	238,941
Financial Instruments Adjustment Account	(271)	(289)
b) Revaluation Reserve	206,533	204,192
c) Pensions Reserve	(9,107)	(9,259)
ch) Accumulating Compensated Absences Adjustment Account	(2,366)	(3,526)
Total Unusable Reserves	459,600	430,059

NOTE 9a – CAPITAL ADJUSTMENT ACCOUNT

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction, or enhancement of those assets under statutory provisions. The Account is debited with costs such as depreciation, impairment losses and amortisations that are charged to the Comprehensive Income and Expenditure Statement and postings from the Revaluation Reserve to convert fair value figures to historic cost.

The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction, and enhancement. The Account contains accumulated gains and losses on Investment Properties.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains. Note 6 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

Capital Adjustment Account	2025/26		2024/25	
	£'000	£'000	£'000	£'000
Balance at 1 April		238,941		200,735
Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:				
Charges for depreciation, impairment and amortisation of non-current assets	(21,413)		(18,347)	
Derecognised assets	3		(712)	
Revaluation (losses) / gain on Property, Plant and Equipment	652		(334)	
Revenue expenditure funded from capital under statute	(733)		(999)	
Amounts of non-current assets written off on disposal or sale (including impairment) as part of the gain/(loss) on disposal to the Comprehensive Income and Expenditure Statement	(73)		(1,078)	
		(21,564)		(21,470)
Adjusting amounts written out of the Revaluation Reserve		4,912		4,994
Net written out amount of the cost of non-current assets consumed in the year		(16,652)		(16,476)
Capital financing applied in the year:				
Use of the Capital Receipts Reserve to finance new capital expenditure	54		1,173	
Use of capital reserve	1,505		2,155	
Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing	25,937		37,883	
Statutory provision for the financing of capital investment charged against the Council Fund and HRA balances	1,959		2,050	
Capital expenditure charged against the Council Fund and HRA balances	12,935		9,126	
		42,390		52,387
Movements in the market value of Investment Properties charged to the Comprehensive Income and Expenditure Statement		132		2,295
Balance at 31 March		264,811		238,941

NOTE 9b – REVALUATION RESERVE

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment and Heritage Assets.

The balance is reduced when assets with accumulated gains are: -

- revalued downwards or impaired and the gains are lost;
- used in the provision of services and the gains are consumed through depreciation; or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created.

Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account

Revaluation Reserve	2025/26	2024/25
	£'000	£'000
Balance at 1 April	204,192	205,044
Revaluation of assets and impairment losses not charged to the Deficit on the Provision of Services	7,253	4,142
Difference between fair value depreciation and historical cost depreciation	(4,912)	(4,060)
Revaluation balances on assets scrapped or disposed of	-	(934)
Balance at 31 March	206,533	204,192

NOTE 9c -PENSION RESERVE

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions.

Pensions Reserve	2025/26	2024/25
	£'000	£'000
Balance at 1 April	(9,259)	(10,522)
Re-measurement of net defined liability	161,635	138,345
Reversal of items relating to retirement benefits debited or credited to the Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	34	(10,770)
Employers' pension contribution and direct payment to pensioners payable in the year	12,272	12,774
Remove net pension asset as at 31 March	(173,789)	(139,086)
Balance at 31 March	(9,107)	(9,259)

The Council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employers' contributions to pension funds or, eventually, pays any pensions for which it is directly responsible. The balance on the Pensions Reserve, therefore, shows a substantial difference in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

NOTE 9ch – ACCUMULATING COMPENSATED ABSENCES ADJUSTMENT ACCOUNT

The Accumulating Compensated Absences Adjustment Account absorbs the differences that would otherwise arise on the Council Fund Balance from accruing for compensated absences earned but not taken in the year, e.g., annual leave entitlement carried forward on 31 March. Statutory arrangements require that the impact on the Council Fund Balance is neutralised by transfers to or from the Account.

Accumulating Compensated Absences Adjustment Account	2025/26		2024/25	
	£'000	£'000	£'000	£'000
Balance at 1 April		(3,526)		(3,214)
Settlement or cancellation of accrual made at the end of the preceding year	3,526		3,214	
Amounts accrued at the end of the current year	(2,366)		(3,526)	
Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		1,160		(312)
Balance at 31 March		(2,366)		(3,526)

NOTE 10 – OPERATING EXPENDITURE

	2025/26 £'000	2024/25 £'000

Revaluations

The Council has £611.574m recognised as Property, Plant and Equipment (PPE). This includes £74.569m of infrastructure assets, such as roads and street lighting. This value for infrastructure is not included in Note 13a above for PPE but is, instead, reported below in Note 13b. The Council adopts a five-year rolling programme for the valuation of its land and property. The programme is constructed in such a way as to ensure that entire classes of assets within its land and property portfolio are revalued every five years, with the valuation effective on 31 March each year. PPE are revalued every five year and since 2025/26 and beyond, the value of some classes of PPE are estimated during the intervening years using appropriate external indices or where there is no suitable index, these assets are valued in year three of each five-year programme.

The valuations are undertaken by the Council's in-house valuation team, who are members of the Royal Institute of Chartered Surveyors (RICS). The valuations have been completed in accordance with IFRS 13. Non-property assets have not been revalued as the Council has judged that the carrying value of these assets is approximate to fair value, given their relatively short useful economic lives and the relative value of these assets. Additional information on the Council's policy on the measurement and valuation of non-current assets is included in sections 7 to 10 of Note 44 Accounting Policies.

NOTE 13b – INFRASTRUCTURE ASSETS

In accordance with the Temporary Relief offered by the Update to the Code on infrastructure assets, the below note does not include disclosure of gross cost and accumulated depreciation for infrastructure assets because historical reporting practices and resultant information deficits mean that this would not faithfully represent the asset position to the users of the financial statements.

The Council has chosen not to disclose this information as the previously reported practices and resultant information deficits mean that gross cost and accumulated depreciation are not measured accurately and would not provide the basis for the users of the financial statements to take economic or other decisions relating to infrastructure assets.

	2025/26 £'000	2024/25 £'000
Net Book Value at 1 April	71,937	71,415
Additions	6,691	4,771
Reclassification	297	0
Depreciation	(4,356)	(4,249)
Net Book Value at 31 March	74,569	71,937

Total PPE Assets

	2025/26 £'000	2024/25 £'000
Infrastructure assets	74,569	71,937
Other PPE assets	537,185	508,381
Total PPE assets	611,754	580,318

NOTE 14 – SIGNIFICANT CAPITAL COMMITMENTS

At 31 March 2026, the Council was committed to capital works for the construction of Property, Plant and Equipment, giving rise to significant capital commitments of £8.255m in 2026/27 and future years, as shown in the table below: -

	Commitment into 2026/27 & future years as of 31 March 2026 £'000
Planned Maintenance Contracts - HRA	4,539
Development of New Properties - HRA	1,306
Refurbishment of Existing Properties - HRA	224
Heat Pump Installation	1,605
Energy Projects	581
Total	8,255

NOTE 15 – HERITAGE ASSETS

At 31 March 2024	2,299	114	2,413

Revaluation of Heritage Assets (Land and Buildings)

A small number of Land & Buildings assets have been identified as meeting the definition of Heritage Assets. The Heritage Assets (Land & Buildings) were revalued in 2023/24, as per the Council's revaluation procedures. The most notable heritage assets are: -

Felin Y Graig - This asset transferred in 2020/21 from Investment Properties to Heritage Assets to reflect its classification more accurately.

Revaluation of Heritage Assets (Art Collections) - The Council's Art Collections were revalued for 2022/23. The valuation was carried out by Bonhams of London, a firm of international Art Auctioneers and Valuers.

Revaluation of Heritage Assets (Civic Regalia) - The Heritage Assets (Civic Regalia) have been revalued in 2021/22 as per the Council's revaluation procedures and in line with the five-year rolling programme adopted for Property, Plant and Equipment (PPE) and Heritage Assets.

NOTE 16 – INVESTMENT PROPERTIES

a) Investment Properties

	2025/26 £'000	2024/25 £'000
Balance at start of the year	10,068	7,484
Disposals	-	(24)
Additions	-	322
Net gains/(losses) from fair value adjustments	132	2,294
Derecognition	-	-
Transfers:		
- (to)/from Property, Plant and Equipment	-	(112)
- (to)/from Heritage Assets	-	104
Balance at end of the year	10,200	10,068

There are no restrictions on the Council's ability to realise the value inherent in its wholly owned investment property which relates to the significant majority of the investment properties, or on the Council's right to the remittance of income and the proceeds of disposal on these assets.

The Council has a joint venture with Welsh Government for industrial units at Penrhos Industrial Estate, Holyhead, completed in 2022/23 with Phase 2 completed in 2023/24. The Council holds 16% of the property value and income, with Welsh Government holding 84%. The Council must pay Welsh Government 84% of the value of the units, 15 years after completion of the units.

b) Fair Value Measurement of Investment Properties 2025/26 Fair Value Hierarchy

Recurring fair value measurements using:	Quoted prices in active markets for identical assets (level 1) £'000	Other significant observable inputs (level 2) £'000	Significant unobservable inputs (level 3) £'000	Fair Value as at 31 March 2026 £'000
Retail Properties	-	1,362	-	1,362
Office units	-	1,032	-	1,032
Commercial units	-	7,806	-	7,806
Total	-	10,200	-	10,200

2024/25 Fair Value Hierarchy

Recurring fair value measurements using:	Quoted prices in active markets for identical assets (level 1) £'000	Other significant observable inputs (level 2) £'000	Significant unobservable inputs (level 3) £'000	Fair Value as at 31 March 2025 £'000
Retail Properties	-	1,359	-	1,359
Office units	-	1,026	-	1,026
Commercial units	-	7,683	-	7,683
Total	-	10,068	-	10,068

NOTE 17 – CAPITAL EXPENDITURE AND FINANCING

The total amount of capital expenditure incurred in the year is shown in the table below, together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically that has yet to be financed. The net movement in the Capital Financing Requirement illustrates the change in the underlying need for the Council to borrow during the year to fund capital investment which has not been funded immediately from resources such as grants, capital receipts and direct funding from revenue.

Capital Expenditure and Financing	2025/26 £,000	2024/25 £'000
Opening Capital Financing Requirement	152,389	145,754
Capital Invested in Year		
Property, Plant and Equipment	44,482	55,794
Revenue Expenditure Funded from Capital Under Statute (REFCUS)	10,181	9,761
Right of Use Assets	1,275	2,229
Right of Use Assets Adjustment	45	-
Total	55,983	67,784
Source of Finance		
Capital receipts	(53)	(1,173)
Reserve	(1,506)	(2,155)
Government Grants and Contributions	(25,937)	(37,883)
Revenue Provisions	(12,935)	(9,126)
REFCUS Grants	(9,447)	(8,762)
Minimum Revenue Provision and Set Aside	(503)	(1,709)
Voluntary Revenue Provision	(1,031)	-
Minimum Revenue Provision and Set Aside - Right of Use Assets	(423)	(341)
Total	(51,835)	(61,149)
Net Increase/(Decrease) in Capital Financing Requirement	4,148	6,635
Closing Capital Financing Requirement	156,537	152,389
Explanation of Movement in Year		
Increase in underlying need to borrow unsupported by Government assistance - Right of Use Assets	1,259	1,832
Increase in underlying need to borrow supported by Government assistance	4,229	4,243
Increase in underlying need to borrow unsupported by Government assistance - Capital Additions	232	2,491
Loan	385	119
Minimum Revenue Provision and Set Aside	(503)	(1,709)
Voluntary Revenue Provision	(1,031)	-
Minimum Revenue Provision and Set Aside - Right of Use Assets	(423)	(341)
Net Increase/(Decrease) in Capital Financing Requirement	4,148	6,635

NOTE 18 – DEBTORS

	Long-Term Debtors		Short-Term Debtors	
	31/03/2026 £'000	31/03/2025 £'000	31/03/2026 £'000	31/03/2025 £'000
Trade Receivables	-	-	2,621	2,184
Prepayments	-	-	2,610	2,132
Other Receivable Amounts	2,169	1,625	50,153	63,578
Total	2,169	1,625	55,384	67,895

The above debtors' figures are net of bad debt provisions totalling £9.192m in 2025/26 (£8.957m in 2024/25).

The past due date but not impaired amount for Council Tax can be analysed by age as follows: -

	31/03/2026 £'000	31/03/2025 £'000
Less than one year	3,430	3,235
More than one year	6,538	5,297
Total	9,968	8,532

NOTE 19 – CASH AND CASH EQUIVALENTS

Cash and cash equivalents at the end of the financial year, as shown in the Statement of Cash Flow can be reconciled to the related items in the Balance Sheet as follows: -

	31 March 2026 £'000	31 March 2025 £'000
Cash held by the Authority	93	37
Bank current accounts	353	569
Demand Deposits	19,788	5,965
Fixed Short Term Deposits	-	7,000
Total	20,234	13,571

NOTE 20 – CREDITORS

	Long-Term Creditors		Short-Term Creditors	
	31 March 2026 £'000	31 March 2025 £'000	31 March 2026 £'000	31 March 2025 £'000
Trade Payables	-	-	(3,254)	(2,783)
Other Payables	(261)	(255)	(44,573)	(38,474)
Total Creditors	(261)	(255)	(47,826)	(41,257)

NOTE 21 – PROVISIONS

	Balance at 1 April 2024 £'000	Increase / (Decrease) during the year £'000	Utilised during year £'000	Balance at 31 March 2025 £'000	Increase / (Decrease) during the year £'000	Utilised during year £'000	Balance at 31 March 2026 £'000

Total Provisions	4,703	(2,056)	(331)	2,316	545	(239)	2,622

Purpose of Main Provisions – Penhesgyn Waste Site

The provision is for the aftercare of the areas of the site formerly used for landfill. There is no defined timescale for this work to be completed although, for management purposes, a time span of 35 years has been used on an ongoing basis until there is evidence that a shorter period would be sufficient. This funds annual decontamination works at Penhesgyn each year.

NOTE 22 – CASH FLOW FROM OPERATING ACTIVITIES

	2025/26 £'000	2024/25 £'000
Adjustment to surplus or deficit on the Provision of Services for non-cash movements

Cash repayments of Right of Use Lease liabilities	(423)	(341)
Long Term Borrowing	(677)	552
Net Cash flows from Financing Activities	(799)	(923)

NOTE 25a – EXPENDITURE AND INCOME ANALYSED BY NATURE

The Comprehensive Income and Expenditure Statement provides financial information in relation to expenditure and income per service. This nature of expenses note provides financial information per type of expenditure rather than by service.

	2025/26 £'000	2024/25 £'000
Expenditure		
Employee benefits	122,902	120,285
Other services	155,527	150,558
Depreciation, amortisation, impairment & movement in market value of investment properties	21,281	16,077
Interest Payments	24,121	23,183
De-recognition and Impairment of Financial Assets	320	545
Precepts and levies	19,941	18,546
Gain on the disposal of assets	(148)	796
Total Expenditure	343,944	329,990
Income		
Fees, charges and other service income	(42,703)	(41,669)
Interest and investment income	(27,806)	(19,428)
Income from Council Tax, Non-Domestic Rates	(98,155)	(92,948)
Government grants and contributions	(210,948)	(217,067)
Total Income	(379,612)	(371,112)
Surplus or Deficit on the provision of services	(35,668)	(41,122)

NOTE 25b – SEGMENTAL INCOME

The table below shows the total of the Council's income from fees, charges, and rents for the provision of services. This excludes grant income and council tax income.

Services	2025/26 Income from Services £'000	2024/25 Income from Services £'000
Lifelong Learning	(654)	(655)
Adult Services	(8,556)	(8,106)
Children Services	(7)	-
Housing	(478)	(713)
Highways, Property and Waste	(5,289)	(5,249)
Regulation and Economic Development	(3,416)	(3,279)
Transformation	(1)	(37)
Resources	(188)	(209)
Council Business	(155)	(468)
Corporate and Democratic Costs	(290)	(265)
Housing Revenue Account (HRA)	(23,669)	(22,688)
Total Income	(42,703)	(41,669)

Most transactions the Council enters into with service recipients are straightforward. All transaction prices are based on the Council's Fees and Charges booklet which has been approved by the Executive and which are outlined on the Council's website at the following link/web address: -

Council fees and charges

Service recipients, typically, are given 14 days to pay the Council fees and charges owed. This excludes fees and charges payable at the point of provision of the goods/services.

Contracts can relate to the financial year from 1 April 2025 to 31 March 2026. Any income not received by the end of March is accrued to match with the services provided. Some income is received at the same time as the services/goods are provided, for example, sale of gifts in the Oriel shop, admission for a swimming session at the Leisure Centres. One of the most complex income types relates to fees and charges for complex Adult Social Care placements. These charges can be deferred until income is available from sale of property. The Adult Services does recognise this income each financial year, despite it being deferred to match with the period when the care is provided.

NOTE 26 – MEMBER'S ALLOWANCES

A total of £1.162m (£1,061m in 2024/25) was paid in respect of allowances to Council Members during the year, as follows: -

	2025/26 £'000	2024/25 £'000
Basic and Special responsibility allowances	914	865
Chairman and Deputy Chairman's Allowance	16	10
Pension Costs	105	101
National Insurance Costs	113	77
Travel Costs	3	3
Subsistence	3	2
Miscellaneous	8	3
Total	1,162	1,061

In addition, the Council spent £33,906.35 on expenses for lay members (£27,510.71 in 2024/25).

NOTE 27 – OFFICERS’ REMUNERATION

The number of employees (including senior officers) whose annual remuneration paid was more than £60k but not more than £150k in 2025/26, excluding pension contributions but including severance pay, overtime and teaching & learning responsibilities, is as follows :-

Officer Remuneration	Non-Schools 2025/26 Number of Employees	Non-Schools 2024/25 Number of Employees	Schools 2025/26 Number of Employees	Schools 2024/25 Number of Employees
£60,000 to £64,999*	17	17	66	31
£65,000 to £69,999*	8	2	15	23
£70,000 to £74,999*	1	2	27	22
£75,000 to £79,999*	2	-	15	6
£80,000 to £84,999*	2	1	4	7
£85,000 to £89,999*	-	6	4	5
£90,000 to £94,999*	8	-	6	5
£95,000 to £99,999	-	3	3	1
£100,000 to £104,999	3	-	-	2
£105,000 to £109,999	-	1	2	1
£110,000 to £114,999	1	-	2	-
£115,000 to £119,999	-	-	-	1
£120,000 to £124,999	-	-	-	-
£125,000 to £129,999	-	-	-	-
£130,000 to £134,999	-	-	-	-
£135,000 to £139,999	1	1	-	-
Total	43	33	144	104

*8 posts in these bands would not appear above except for termination benefit paid during the year (7 cases in 2024/25). An additional 51 are included above due to additional teaching & learning responsibilities pay (19 cases in 2024/25), and 2 are included above due to a combination of additional teaching & learning responsibilities pay and extra paid post (3 included due to extra paid post in 2024/25).

The following table provides details of remuneration paid to senior employees who are employed on a permanent basis and whose annual salaries and other benefits exceed £60k per annum. Senior employees whose salary exceeds £150k per annum are also named individually to comply with statutory requirements:-

Senior Officer Remuneration 2025/26	Note	Salary, fees and allowances £	Expenses allowances £	Pension contribution £	Total £
Chief Executive	1	136,041	-	27,344	163,385
Deputy Chief Executive		112,748	-	22,662	135,410
Director of Function (Council Business) / Monitoring Officer		91,601	-	18,412	110,013
Director of Function (Resources) & S151		101,101	-	20,321	121,422
Director of Social Services		101,101	-	20,321	121,422
Director of Education, Skills and Young People		101,101	-	20,321	121,422
Head of Profession: HR & Transformation	2	70,446	-	13,570	84,016
Head of Digital, Performance & Modernisation	2	18,148	-	3,648	21,796
Head of Human Resources, Communication and Customer Experience	2	18,148	-	3,648	21,796
Head of Service: Housing		90,015	-	18,093	108,108
Head of Regulation and Economic Development		90,015	-	18,093	108,108
Head of Service: Adult Services		90,015	-	18,093	108,108
Head of Service: Highways, Waste & Property		90,015	-	18,093	108,108
Total		1,110,495	-	222,619	1,333,114

¹ The Returning Officer element of the Chief Executive's salary is £170 and is not included in the figures above.

² The Head of Profession: HR & Transformation left their post on 31/12/2025 and the post was superseded by two new posts, Head of Digital, Performance & Modernisation and Head of Human Resources, Communication & Customer Experience with both officers commencing on 19/01/2026.

The remuneration ratio of the Chief Executive to the median remuneration of all employees during 2025/26 is 4.39:1 (4.39:1 in 2024/25). The median salary for all employees in 2025/26 is £31,022 (£30,060 in 2024/25). This is the salary at the mid-point of all employees' salaries, from lowest to highest.

Comparative figures for 2024/25 are shown in the following table: -

Senior Officer Remuneration 2024/25	Note	Salary, fees and allowances £	Expenses allowances £	Pension contribution £	Total £
Chief Executive	1	131,823	-	26,496	158,319
Deputy Chief Executive		109,252	-	21,960	131,212
Director of Function (Council Business) / Monitoring Officer		88,761	-	17,841	106,602
Director of Function (Resources) & S151		97,966	-	19,691	117,657
Director of Social Services		97,966	-	19,691	117,657
Director of Education, Skills and Young People	2	89,802	-	18,050	107,852
Director of Education, Skills and Young People	2	7,637	-	1,535	9,172
Head of Profession: HR & Transformation		87,224	-	17,532	104,756
Head of Service: Housing		87,224	-	17,532	104,756
Head of Regulation and Economic Development		87,224	-	17,532	104,756
Head of Service: Adult Services		87,224	-	17,532	104,756
Head of Service: Highways, Waste & Property		87,224	-	17,532	104,756
Total		1,059,327	-	212,924	1,272,251

¹ The Returning Officer element of the Chief Executive's salary is £3,937 and is not included in the figures above.

² The Director of Education, Skills & Young People left the council's employment on 28/02/25 and new Director commenced on 03/03/25.

NOTE 28 – EXIT PACKAGES

The number of exit packages with total cost per band and total cost of the compulsory and other redundancies is set out in the table below: -

Exit cost band (including special payments)	Number of compulsory redundancies		Number of other departures agreed		Total number of exit packages by cost band		Total cost of exit packages	
	2025/26	2024/25	2025/26	2024/25	2025/26	2024/25	2025/26	2024/25
							£'000	£'000
£0 - £20,000	2	10	6	4	8	14	85	65
£20,001 - £40,000	5	2	3	5	8	7	241	216
£40,001 - £60,000	-	-	3	-	3	-	140	-
£60,001 - £80,000	1	-	1	-	2	-	123	-
£80,001 - £100,000	1	-	-	-	1	-	98	-
£100,001 - £250,000	-	-	-	-	-	-	-	-
Total	9	12	13	9	22	21	687	281

In accordance with requirements, exit costs which the Council were committed to incurring at the 31 March, but paid after this date are included in the above. The totals disclosed are made up of payments made to the individual and any payments made by the Council to the pension fund when an employee retires early without actuarial reduction in pension in accordance with the Council's Discretionary Compensation Policy.

NOTE 29 – EXTERNAL AUDIT FEES

The Council has incurred the following costs relating to external audit and inspection:-

	2025/26 £'000	2024/25 £'000
Fees payable to Audit Wales with regard to external audit services carried out by the appointed auditor for the year	236	236
Fees payable to Audit Wales in respect of statutory inspections	117	97
Fees payable to Audit Wales for the certification of grant claims and returns for the year	76	80
Total	429	413

NOTE 30 – GRANTS INCOME

The Council credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement in 2025/26 and 2024/25 as follows: -

	Note	2025/26 £'000	2024/25 £'000
Credited to Taxation and Non-Specific Grant Income			
Revenue Support Grant (Non-ring-fenced Government Grants)	12	110,784	102,245
Other (non ring fenced Government Grants)		-	1,035
Capital Grants and Contributions		13,758	20,453
Non-Domestic Rates AEF (NDR)	12	25,097	25,341
Grant - HRA (Capital Grants and Contributions)		12,179	17,430
Total		161,818	166,504
Credited to Services			
Grants:

Levelling Up Fund	2,159	6,794
Sports Wales	67	177
Pride in Place Impact Fund	750	
Other	-	141
Total	4,276	13,511

NOTE 31 – RELATED PARTIES

The Council is required to disclose information in relation to the Authority’s transactions and outstanding balances with its related parties. The materiality of individual transactions arising through related parties and the following disclosures are concerned with transactions between the Council and its related parties. Details regarding joint committees and joint arrangements can be found in Note 37 Joint Committees and Pooled Budgets. A list of stakeholder representation with third party organisations can be found under Appendix 1.

Members - Members are responsible for the direct control of the policies of the Council. The total Members’ allowances paid during the year is shown in Note 26. The Council appoints Members to certain public, charitable and voluntary bodies, which are independent from the Council but have an impact on its service areas. In order that the Council can maintain effective partnerships with a number of these organisations, representatives of the Council, usually elected Councilors, sit on the various committees and forums that are responsible for them.

Senior Officers - Senior Officers’ remuneration totals can be seen under Note 27. Senior Officers are required to complete a personal declaration of interest, stating any interests they may hold with any organisation which may receive payments from the Council.

A summary of transactions with related parties are as follows:

	2025/26 £'000	2024/25 £'000
Payments made	11,329	10,249
Payments Received	928	5,139
Amounts owed by the Council	1,941	6,280
Amounts owed to the Council	1,939	15,808

A summary of the individual organisations which have transactions with the Council in excess of £10k:

Welsh Government - Welsh Government has effective control over the general operations of the Council as it provides the statutory framework within which the Council operates. It also provides the majority of the Council's funding is in the form of grants and prescribes the terms of many of the transactions the Council has with other parties (e.g. council tax, housing benefits). Details of Grant Income is set out in Note 30. Totals for Taxation and Non-Specific Tax is included in Note 12.

INTERESTS IN COMPANIES

The Council has interests in the following companies:-

The Isle of Anglesey Charitable Association (Y Gymdeithas) - The Isle of Anglesey Charitable Association, previously the Isle of Anglesey Charitable Trust, was established by the Isle of Anglesey Borough Council, a forerunner of the County Council, to administer investments purchased from monies received from Shell (UK) Limited when the company ceased to operate an Oil Terminal on Anglesey. The Association is now a separate legal entity with the same charitable purposes as the Isle of Anglesey Charitable Trust.

The Association is governed by a Membership of all of the Council's elected members in an ex-officio capacity, and a Board of 12 Trustees, six elected from the Membership, with the remaining six (including the Chair) appointed independently from the wider community.

The objectives of the Association are to provide amenities and facilities for the general public benefit of persons resident in the Isle of Anglesey. This is achieved by contributing towards spending on public services and by making grants to charitable and voluntary organisations.

The Council received £35k from the Association towards the running costs of Oriel Ynys Môn (£93k in 2024/25).

Porthladd Rhydd Ynys Môn Limited - This company was incorporated in November 2024 to run the free port at Holyhead. Currently, the Council is the only shareholder for this company with the Chief Executive listed as the Director. It is expected that this will change during the next financial year to include other companies. The Council received a grant from Welsh Government of £250k in 2025/26 (£301k in 2024/25) to develop an Outline and Final Business Case for the establishment and development of the free port.

Once the company is operational, it will receive payments from land owners of land designated as tax sites/locations. The Council will receive the value of the tax from the developments from the Welsh Government for a number of years, some of this income will be used to fund the company's running costs. If the value of the taxes received is greater than the financial need of the company, the excess will be used by the Council to fund projects in-line with the free port's objectives. In addition, the Council will also receive a capital grant with the aim to attract companies on to the Island.

The Council also has interests in the following company:-

Caergeiliog Foundation School - Balances for current assets and liabilities controlled by Caergeiliog Foundation School are included in these accounts and so the school's reserves, as stated in this Balance Sheet, represent only the net current assets. The school also has non-current assets that are stated on the school's Balance Sheet at £729k at 31 March 2026 (£770k at 31 March 2025), on a combination of valuation and historical cost, less depreciation. The non-current assets are vested in the school's Governing Body and are not consolidated in this Council's Balance Sheet.

NOTE 32 – TRUST FUNDS

The Council acts as trustee for a number of trust funds some of which are registered charities. The financial administration of the trusts is completed by the Council as Trustee though the financial information held about each trust is separately identifiable. The Isle of Anglesey County Council Welsh Act Fund and the Anglesey Further Education are the two larger trusts for which the Council is trustee for.

2025/26	2025/26 Income £'000	2025/26 Expenditure £'000	2025/26 Assets £'000	2025/26 Liabilities £'000

Anglesey Further Education Trust Fund - Final accounts	198	160	3,395	9

Anglesey Further Education Trust Fund (Reg No 525254)

The Anglesey Further Education Trust is made up of three funds. This includes the David Hughes Estate of farms and smallholdings which is managed by the Council's Smallholdings team within the Property Section. The David Hughes fund collects rents from its smallholdings and interest on its other investments. The other two funds earn income from non-property managed investments. The net income from the trust is to fund financial assistance for eligible older pupils and young people under 25 to help them to complete courses where they are at a financial disadvantage.

The current final audited accounts for the trust relate to 2024/25 which can viewed using the below link.

[Chyfrifon Drafft Ymddiriedolaeth Addysg Bellach](#)

Isle of Anglesey County Council Welsh Church Act Fund

This fund was previously managed by Gwynedd County Council which transferred the assets of the fund to the Council in May 2019. A consultant is currently reviewing the trust with a view to launching a new scheme which will outline the purpose of the fund, its plan for the provision of charitable aid as well creation of the fund as a new charity. The net assets of the fund at 31 March 2026 were £939k (£807k at 31 March 2025).

The current final unaudited accounts for the trust relate to 2025/26 which can viewed using the below link.

[Penderfyniad Gronfa Degwm](#)

Minor Trusts

The Council is also trustee for a number of small education trusts as shown below:-

Minor Education Trusts	2025/26 Assets £'000	2024/25 Assets £'000

John Williams-Hughes	4	3
Anwen Williams	7	6
Total Minor Education Trusts	71	70

Other funds administered by the Council

The Council as part of its safeguarding and supporting vulnerable people remit also administer a number of client bank accounts which the Council has been appointed to manage by the Department of Work and Pensions (DWP) as Corporate Appointee or the Court of Protection as relevant. This is on behalf of individuals who lack the capacity to manage their financial affairs themselves. These are managed by a team in Adults services and are monitored biannually by the Court of Protection. The total value of these accounts at 31 March 2026 was £1.256m (£1,023m at 31 March 2025). This value is not included in the Council balance sheet as the funds do not belong to the Council.

NOTE 33 - TEACHER'S PENSION SCHEME

Teachers employed by the Council are members of the Teachers' Pension Scheme, administered by the Department for Education. The scheme provides teachers with specified benefits upon their retirement, and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

The scheme is technically a defined benefit scheme. However, the scheme is unfunded, and the Department for Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. The Council is not able to identify its share of the underlying financial position and performance of the scheme with sufficient reliability for accounting purposes. For the purpose of this Statement of Accounts it is, therefore, accounted for on the same basis as a defined contribution scheme.

In 2025/26, the Council paid £8.725m to Teachers' Pensions in respect of teachers' retirement benefits, representing 28.62% of pensionable pay (£8.530m and 28.47% in 2024/25).

The Council is responsible for the costs of any additional benefits awarded upon early retirement outside the terms of the teachers' scheme. These costs are accounted for on a defined benefits basis and detailed in Note 34 below.

NOTE 34 – LOCAL GOVERNMENT DEFINED BENEFIT PENSION SCHEME

Retirement Benefits Participation in the Local Government Pension Scheme

As part of the terms and conditions of employment of its officers and other employees, the Council offers retirement benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments that need to be disclosed at the time that employees earn their future entitlement. The Council participates in the Gwynedd Pension Fund which provides defined benefits and is administered by Gwynedd Council. This is a funded scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pension's liabilities with investment assets. In addition, the Council's share of the pension income, costs, assets and liability relating to the North Wales Economic Ambition Board are included in these figures.

a) Transactions Relating to Post-Employment Benefits

The cost of retirement benefits is recognised in the reported cost of services when the employees earn them, rather than when they are eventually paid as pensions. However, the charge made against the Council Fund is based on the cash payable in the year, so the real cost of post-employment / retirement benefits is reversed out of the General Fund through the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance through the Movement in Reserves Statement during the year: -

	2025/26 £'000	2024/25 £'000
Service cost comprising:		
Current service cost	7,504	10,075
Losses on settlements or curtailments	160	242
Total Service cost	7,664	10,317
Financing and Investment Income and Expenditure		
Interest cost on defined benefit obligation	18,737	17,843
Interest on the effect of the asset ceiling	8	3,451
Interest Income on scheme Assets	(26,443)	(20,841)
Total Post-employment benefits charged to the Surplus or Deficit on Provision of Service	(34)	10,770
Return on Plan Assets (excluding amounts included in net interest expense)	(22,028)	1,958
Actuarial losses / (gains) arising on changes in demographic assumptions	(9,194)	(643)
Actuarial losses / (gains) arising on changes in financial assumptions	(8,442)	(61,449)
Other	27,510	(3,616)
Impact of the Asset Ceiling	173,789	(74,595)
Total re-measurement of net defined benefit liability - Asset	161,635	(138,345)
Total Post-employment benefits charged to the Comprehensive Income and Expenditure Statement	161,601	(127,575)
Reversal of net charges made for retirement benefits in accordance with the code	(12,349)	(982)
Actual amount charged against the Council Fund balance for pensions in the year:		
Employers' contributions payable to scheme	12,315	11,752
Total Post-employment benefits charged to the Surplus or Deficit on Provision of Service	(34)	10,770

b) Pension Assets and Liabilities recognised in the Balance Sheet

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels etc. Both the Local Government Pension Scheme and Discretionary Benefits liabilities have been assessed by Hymans Robertson LLP, an independent firm of actuaries, estimates being based on the latest full valuation of the Scheme as at 31 March 2026.

Amounts included in the Balance Sheet arising from the Authority's obligation in respect of its defined benefit plan are as follows:	31 March 2026 £'000	31 March 2025 £'000
Present Value of Scheme Assets	505,052	450,508
Present Value of Scheme Liabilities	(340,303)	(311,422)
Present Value of Scheme Liabilities - Unfunded	(9,107)	(9,259)
Net Asset/(liability) arising from defined obligation	155,642	129,827

Reconciliation of Present Value of the Scheme Liabilities

	2025/26 £'000	2024/25 £'000
Balance as at 1 April	320,681	367,789
Adjustment to opening balance to amend NWEAB	(169)	-
Current service cost	7,504	10,075
Interest cost	16,717	17,843
Contributions from scheme participants	3,817	3,624
Remeasurement losses / (gains)	9,874	(65,708)
Past service costs	160	242
Estimated unfunded benefits paid	(975)	(1,022)
Estimated benefits paid	(12,426)	(12,162)
Effect of business combinations and disposals	4,227	-
Balance as at 31 March	349,410	320,681

Reconciliation of Present Value of the Scheme Assets

	2025/26 £'000	2024/25 £'000
Opening Fair Value of Scheme Assets as at 1 April	450,507	428,411
Adjustment to opening balance to amend NWEAB 2021/22	(293)	-
Interest Income	26,443	20,841
Return on plan assets (excl. net interest expense)	22,028	(1,958)
Other Experience	(2,020)	-
Contributions by members	3,817	3,624
Contributions by employer	12,315	11,752
Contributions in respect of unfunded benefits	975	1,021
Unfunded benefits paid	(975)	(1,021)
Benefits paid	(12,426)	(12,163)
Effect of business combinations and disposals	4,681	-
Balance as at 31 March	505,052	450,507

c) Fair Value of Scheme Assets

The table below shows the categorisation of equities and other investments between the Prices Quoted in Active Markets and Prices Not quoted in Active Markets and the percentage of each type of investments. The investment fund managers vary the investments to achieve the best returns in secure investments.

The Pension fund managers have, since 2018/19, started to move investments from those quoted in active markets to two global pooled funds in the Wales Pensions Partnership (WPP). These investments are shown within Investment Funds and Unit Trusts which are not quoted in open markets. More information about the Gwynedd Pension Fund in its entirety is available on the following link:

<https://www.gwyneddpensionfund.wales/en/Home.aspx>

The Council's share of the Pension Scheme assets comprise :-

	2025/26 Prices Quoted in Active Markets £'000	2025/26 Prices not quoted in Active Markets £'000	2025/26 Percentage of Total Assets £'000	2024/25 Prices Quoted in Active Markets £'000	2024/25 Prices not quoted in Active Markets £'000	2024/25 Percentage of Total Assets £'000

Overseas property	-	-	0%	-	-	-
Derivatives	-	-	-	-	-	-
Total Value – All Assets	-	505,052	100%	-	450,508	100%
Total Value of Active and Non-Active Assets		505,052			450,508	

ch) Scheme History

Analysis of scheme assets and liabilities: -

	31 March 2026 £'000	31 March 2025 £'000	31 March 2024 £'000	31 March 2023 £'000	31 March 2022 £'000
Fair Value of Assets in pension scheme	505,052	450,508	428,411	383,797	397,617
Present Value of Defined Benefit Obligation	(349,410)	(320,681)	(367,789)	(363,983)	(518,816)
(Deficit)/Asset in the Scheme	155,642	129,827	60,622	19,814	(121,199)

The analysis of scheme assets and liabilities show the underlying commitments that the Council has in the long run to pay retirement benefits. For 2025/26 there is a present value of defined benefit obligations of £349.410m which is significantly lower than usual value due to the increased discount factor prescribed by accounting standards and used by the Actuary. This as mentioned in the narrative report is linked to the increased bank base rate and the value of UK corporate bonds which the discount factor is based on. The fair value of assets in the pension scheme is £505.052m which is higher than the present value of the defined benefit obligations of £349.410m. This resulted in a net asset position excluding unfunded benefits of £155.642m. Under accounting rules (IFRIC14) the council is not allowed to show a net pension asset on the balance sheet due to restrictions on the pensions fund.

The Council has applied a net asset ceiling of £173.789m which will bring the asset to nil on the balance sheet on page 17. However, unfunded obligations cannot be offset against the net pension asset for the purposes of the asset ceiling. Therefore, the net pension liability on the balance sheet is £9.107m despite the positive performance of the pension fund in 2025/26.

d) The Significant Assumptions used by the actuary have been:-

	2025/26	2024/25
Mortality assumptions:		
<i>Longevity at 65 current pensioners:</i>		
Men	21.0 years	20.7 years
Women	23.7 years	23.5 years
<i>Longevity at 65 for future pensioners:</i>		
Men	22.2 years	21.8 years
Women	25.4 years	25.3 years
Inflation/Pension Increase Rate	3.0%	2.8%
Salary Increase Rate	3.5%	3.3%
Expected Return on Assets	10.7%	4.4%
Rate for discounting scheme liabilities	6.2%	5.8%
Take-up of option to convert annual pension into retirement lump sum:		
Service to April 2008	50.0%	50.0%
Service post April 2008	75.0%	65.0%

dd) Sensitivity Analysis

Change in assumptions as at 31 March 2026	Approximate % increase to employer	Approximate Monetary Amount £'000
0.1% decrease in real Discount Rate	2%	5,732
1 year increase in member life expectancy	4%	13,976
0.1% increase in the Salary Increase Rate	0%	314
0.1% increase in the Pension Increase Rate (CPI)	2%	5,412

The sensitivity analysis above is based on reasonably possible changes to the assumptions occurring at the end of the reporting period. It assumes for each change in assumption that all the other assumptions remain constant. The sensitivity analysis shows that the impact of a 0.1% decrease in the real discount rate due to potential market changes which could decrease the fund's liabilities by £5.732m. A one-year increase in member life expectancy could increase liabilities by £13.976m. In practice the actual cost of a one year increase in life expectancy will depend on the structure of the revised assumption (i.e if improvements to survival rates predominately apply to younger or older ages). A 0.1% increase in the salary increase rate, could increase the fund's costs by £314k. A 0.1% increase in the pension rate could increase liabilities by £5.412m. The estimations in the sensitivity analysis have been calculated in accordance with professional actuarial assumptions, IAS 19, and FRS 102.

This means that the use of the 0.1% assumptions below were selected by the specialist actuary in accordance with his/her professional judgement. The Actuary would have considered current and past information. Information about people's lifespans and demographic information would have also influenced this.

e) Impact on the Authority's Cash Flows

The objective of the scheme is to keep employers' contributions at as constant a rate as possible. The Council has a strategy with the scheme's actuary to achieve a funding level of 100% over the next 20 years. Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed by 31 March 2026.

The scheme will need to take account of the national changes to the scheme under the Public Pension Services Act 2013.

Under the Act, the LGPS in England and Wales, and other main existing public service schemes, may not provide benefits in relation to service after 31 March 2014 (or Service after 31 March 2015 for other main existing public service pension schemes in England and Wales). The Act provides for schemes' regulation to be made within a common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits.

The net asset/liability show underlying commitments that the Council has in the long run to pay post-employment (retirement) benefits. The net asset of £164.749m has a substantial impact on the net worth of the Council as recorded in the Balance Sheet. This is a statutory accounting asset which does not affect Council balances. However, the accounting standard for Pensions IAS19 and IFRIC14 requires that a net pension asset cannot be included as an asset on the balance sheet, this has therefore been excluded and the pension liability shows the £9.107m balance on unfunded obligations in accordance with the rules.

f) Estimated contributions to be paid to Gwynedd Pension Fund in 2026/27

The Council anticipates paying £10.318m contributions to the scheme in 2026/27. The amount outstanding to Gwynedd Council in respect of the LGPS contributions for 2025/26 as at 31 March 2026 is £1.330m and is included in the short-term creditors' disclosure note.

ff) Uncertainty about the potential impact of the Virgin Media case in relation to changes to member's benefits between 1996 and 2016

In June 2023, the High Court found in the Virgin Media case, that changes to member benefits in contracted out defined benefits pension schemes between 1996 and 2016, were void if an actuarial certificate was not completed in accordance with section 37 of the Pension Schemes Act 1993. This applies to past service rights and future service rights and to changes to the detriment of benefit scheme members. The judgement was appealed in June 2024 but the appeal was dismissed. The actuary for the Gwynedd Pension Fund which includes the Isle of Anglesey County Council pensions, has confirmed that there is considerable uncertainty about whether this ruling will impact on the Local Government Pensions Scheme.

NOTE 35 – FINANCIAL INSTRUMENTS

Financial instruments are contractual agreements between two or more parties regarding a right to payment of money. One party would have a financial asset where money or another financial asset is given to the other party, in exchange for the agreed return of the money or financial instrument, often with interest or a favourable return on the investment. The transaction would be a financial liability for the other party or parties. This would be the agreement to repay the money at the contracted time and for the agreed return. For example, the Council's main financial assets are its investments in bank deposits.

Examples of financial assets are cash, bank deposits, trade receivables (debtors), equities, bonds, and derivatives. Examples of financial liabilities are borrowings, trade payables (creditors) and any contractual obligation to deliver cash or financial assets to another entity.

NOTE 35a – FINANCIAL ASSETS

This note shows the different categories of financial assets required by IFRS 9 and the value of the Council's financial assets at 31 March 2026. It also provides the value of non-financial assets, which includes the value of Land and Property and other assets. The Council can only enter into financial assets and liabilities in accordance with the Council's Treasury Management Strategy Statement. The strategy specifies strict criteria; therefore, the Council can only invest in financial assets which are highly secure, and which can be accessed when the Council needs the cash.

Most investments are deposits in UK banks which meet the Council's credit rating criteria, or loans to other local authorities. These all fall under the IFRS 9 classification of Financial Assets measured at Amortised cost as highlighted by Note 35a.

The table below shows the carrying amount of the financial assets. This is the value of the financial assets in the Balance Sheet based on amortised cost. The fair value would be the price to sell the financial assets on 31 March 2026.

Financial Assets	Short-term				Long-term				Total			
	31/03/2026		31/03/2025		31/03/2026		31/03/2025		31/03/2026		31/03/2025	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Carrying Amount	Fair Value

Deferred Income	-	-	-	-	2,155	2,155	1,611	1,611	2,155	2,155	1,611	1,611
Housing Benefits Overpayments	171	171	171	171	-	-	-	-	171	171	171	171
Other debtors	3,550	3,550	4,367	4,367	-	-	-	-	3,550	3,550	4,367	4,367
Total Financial Assets - Debtors	7,308	7,308	7,775	7,775	2,169	2,169	1,625	1,625	9,478	9,478	9,400	9,400
Total Financial Instruments	27,542	27,542	21,346	21,346	2,169	2,169	1,625	1,625	29,712	29,712	22,971	22,971
Assets not Defined as Financial Instruments	49,202	49,202	61,374	61,374	627,114	627,114	594,717	594,717	676,315	676,315	656,092	656,092
Total Assets	76,744	76,744	82,720	82,720	629,283	629,283	596,342	596,342	706,027	706,027	679,062	679,062

The financial assets are split between investments and debtors. The investments are the cash deposits in UK banks along with other cash and cash equivalents which relate to the amounts held for operational banking and payment of day-to-day costs. The Council also invested in fixed term deposits at a higher interest rates. The amounts held as cash and cash equivalents in UK bank deposit accounts are surplus to the day-to-day needs, but which will be required in the future. These earn interest for the period invested. The other category of financial assets is debtors.

These relate to organisations or individuals who owe the Council money. The most significant are trade debtors which relate to amounts due for services received. Employee loans are also shown; these are soft loans which mainly relate to car loans for members of staff who travel more extensively on Council business. The loans were provided at lower than market value rate due to the need for work-related travel. Debtors exclude transactions with government departments, and income and payments arising from taxation, including Council Tax and business rates.

NOTE 35b – FINANCIAL LIABILITIES HELD BY THE COUNCIL

All of the Council's Financial Liabilities are classified as Financial Liabilities at Amortised Cost. This is shown below. The note also shows the value of non-financial liabilities.

The Council's borrowing liabilities amounted to £123.556m at 31 March 2026. This is the borrowing taken out over the years to fund capital expenditure on the construction of or refurbishment of Council assets. The short-term loans are the amounts due to be repaid by 31 March 2027. The long-term loans are due to be paid in more than one year's time. The main provider of loans to the Council is the Public Works Loans Board (PWLB), which is part of Central Government's Treasury Department.

The fair value of the Council's borrowing was calculated by the Council's Treasury Management consultants, Link Asset Services. The total fair value on the Council's borrowing was £96.493m, lower than the carrying value on the Balance Sheet of £123.556m at 31 March 2026. The fair value of the assets is £27.063m lower than the carrying amount because the PWLB is offering a net discount if the Council replaces these loans with new loans. The Council has benefitted from lower interest loans while the base rate of interest has been low. This has helped ensure that interest repayable each year is lower than previous years when interest rates were higher. The cost in increased interest repayable each year would be higher than the value of the PWLB total discount and the annual interest cost on the new loans would not be affordable.

Financial Liabilities	Short-term				Long-term				Total			
	31/03/2026		31/03/2025		31/03/2026		31/03/2025		31/03/2026		31/03/2025

NOTE 35c- INCOME, EXPENDITURE, GAINS AND LOSSES

The table below shows the impact of the Council's financial instruments held on the Council's annual revenue account for 2025/26.

Income, Expense, Gains and Losses	2025/26		2024/25	
	Surplus or Deficit on the Provision of Services	Other Comprehensive Income and Expenditure	Surplus or Deficit on the Provision of Services	Other Comprehensive Income and Expenditure
	£'000	£'000	£'000	£'000
Net (gain)/losses on:				
Financial assets measured at amortised cost (impairment loss allowance and derecognition)	320	-	545	-
Total net gains/losses	320	-	545	-
Interest revenue:				
Financial assets measured at amortised cost	(1,161)	-	(2,001)	-
Total interest revenue	(1,161)	-	(2,001)	-
Interest expense:				
Financial liabilities measured at amortised cost	5,385	-	5,341	-
Total Interest Expense	5,385	-	5,341	-

The table shows that the Council was charged £320k (£545k in 2024/25) for the impairment and de-recognition of the financial assets noted above in Note 35a. Impairment and de-recognition charges are shown in more detail in Note 36a. The debtor's asset is impaired to consider the risk that not all outstanding debts will be paid. A charge for de-recognition is made for outstanding income unlikely to be paid. This reduces the value of the assets by this amount and charged the Comprehensive Income and Expenditure Statement (CIES).

The Council received £1.161m (£2.001m in 2024/25) in interest from its deposits in UK banks and loans to other local authorities. Interest on investments has reduced significantly as a result of the Bank of England continuing to reduce interest rates as inflation has reduced significantly. Council cash balances are also reducing at times due to cost pressures and reduced funding. Further reductions in the base rate were predicted but since December 2025, the base rate has remained at 3.75% due to caution arising from global uncertainty and conflict. Interest receivable, therefore, is likely to be lower in 2026/27 and beyond. The interest payable on borrowings relating to 2025/26 was £5.385m (£5.341m in 2024/25).

NOTE 36 – THE NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Council's activities expose it to a variety of financial risks: -

Credit Risk – the possibility that other parties might fail to pay amounts due to the Council.

Liquidity Risk – the possibility that the Council might not have funds available to meet its commitments to make payments.

Market Risk – the possibility that financial loss might arise for the Council because of changes in such measures as interest rates. The overall management of significant risks arising from Financial Instruments is supported by the Council's Treasury Management Strategy Statement and Annual Investment Strategy which is approved by the full Council. The Council has only invested in UK banks and other local authorities during the year. The base rate increases have led to a significant increase in interest receivable. However, if the Council borrows from the PWLB in the future the interest rates will be much higher which would increase annual interest costs.

Credit Risk – Credit Risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers (debtors on the Balance Sheet). The standard requires the Council to provide for potential credit losses from potential non-payment of income due to the Council. This is called the Impairment loss allowance (ILA). Instead of basing potential losses on historic information only, the Council will consider potential future credit losses earlier and has revised the impairment policy to impair for potential credit losses on more current debtors. The revised policy can be found in Note 44 Accounting Policies.

The Council has assessed the credit risk of bank deposits on the likelihood of the bank defaulting in repaying the investment. There are increased risks to the banking sector from Brexit, the impact of the Pandemic and more recently, the war in Ukraine. However, the risk of default is still considered low. This is due to banks' increased financial resilience following new legislation following the 2008 banking crises. The bank deposits have, therefore, not been impaired. Deposits are not made with banks and financial institutions unless, having been rated independently, they have attained a minimum credit rating or level of government guarantee, and credit limits are set for each counterparty. The Council has set a number of limits based on credit quality for different types of institutions, different periods and amounts and has a policy of not lending more than £15m to any one institution other than the UK government. The Council monitors credit ratings regularly and is alerted to changes by its Treasury Management consultants. Appropriate action is taken following any changes in accordance with the Annual Investment Strategy. An Annual Treasury Report is produced to report on investment activity.

There were no material breaches of credit limits during the financial year and there were no breaches of the counterparty criteria. The Council does not expect any losses from non-performance by any of its counterparties in relation to deposits.

The Council does not generally allow credit for customers; it has prescribed collection procedures for amounts owed by its customers and appropriate provisions are made for potential credit losses. In some circumstances, the Council obtains a legal charge on property to cover deferred debts, such as self-funding of residential care. The Council also has a number of longer-term debtors, mainly car loans to employees and residual mortgages from a closed scheme offering home loans to tenants and to members of the public. The residual mortgages are low risk due to the charge held by the Council on mortgaged properties. The car loans are considered low risk due to the ability to deduct repayments of car loans from employees' salaries, reciprocal arrangements with other local authorities for any staff transferring with outstanding car loans, insurance for loans unpaid due to death in service and normal debt recovery procedures for any employees who leave local government employment.

NOTE 36a – IMPAIRMENT AND DERECOGNITION OF FINANCIAL ASSETS

In order to ensure that the Council's income is not overstated in these accounts, debtors' balances are impaired to account for the credit risk of receiving less income than is outstanding. This impairment takes into account more current debtors as well as debts outstanding over a longer period of time. In order to ensure that the Council does not recognise any income which might never be recovered, these debts are considered for write-off, which must be approved in accordance with the Council's constitution. Those approved for write-off are removed from the debtor's balance and charged against revenue in the Financing and Investment Income and Expenditure section of the CIES.

The changes in impairment allowance and amount de-recognised is shown below: -

Asset Class (amortised cost)	2025/26 Lifetime expected credit losses - not credit impaired £'000	2024/25 Lifetime expected credit losses - not credit impaired Restated £'000
Opening Balance as at 1 April	5,555	5,246
Deposits in UK Banks	-	-
Trade Debtors (excluding public sector and taxation)	70	289
Soft Loans	-	-
Housing Benefit Overpayments	(4)	(86)
Rents	(26)	106
Total Impairment Allowance 31 March	5,595	5,555
Financial Assets that have been derecognised	280	236
Total Impairment and Derecognition charged	320	545

NOTE 36b – Credit risk from investments

The below criteria provides the minimum credit ratings for institutions the Council invests in. In practice the Council invests in UK banks and building societies and other UK local authorities after assessment of their financial information. The criteria also allows for UK Central Government financial instruments and triple A rated money market funds. This criteria below is included in the annual Treasury Management Strategy Statement and has been approved by Full Council.

Category	Short Term Credit Rating (Fitch)	Short Term Credit Rating (Moody's)	Short Term Credit Rating (Standard & Poor's)	Long Term Credit Rating (Fitch)	Long Term Credit Rating (Moody's)	Long Term Credit Rating (Standard & Poor's)	Cash Limit	Time Limit
Bank and Building Societies (not nationalised or part nationalised)	F1+	P-1	A-1+	AAA	Aaa	AAA	£10m	5 years
	F1+	P-1	A-1+	AA	Aa2	AA	£10m	3 years
	F1+	P-1	A-1+	AA-	Aa3	AA-	£10m	364 days
	F1	P-1	A-1	A	A2	A	£7.5m	6 months
Nationalised / Part Nationalised UK Banks	n/a	n/a	n/a	n/a	n/a	n/a	£10m	364 days
NatWest Bank business account and cash manager – when amounts are held in the NatWest as part of operational banking. The following amounts and limits will apply to ensure adequate cash is available to pay bills as they fall due.	F1	P-1	A-1	A+	A1	A+	1) £20m to £25m 2) £15m to £20m 3) £10m to £15m	5 working days 1 month 2 months
UK Central Government (irrespective of credit rating)	n/a	n/a	n/a	n/a	n/a	n/a	No maximum	No maximum
UK Local Authorities	n/a	n/a	n/a	n/a	n/a	n/a	£10m	364 days
Money Market Funds	n/a	n/a	n/a	AAA	AAA	AAA	£5m	6 months

NOTE 36c – LIQUIDITY RISK AND PROFILE OF WHEN THE COUNCIL IS DUE TO REPAY LOANS

Liquidity Risk is low as the Council had no difficulty in the past in obtaining finance and has ready access to the Public Works Loans Board (PWLb) as lender of last resort. The key aims of the Treasury Management Strategy are to ensure the Authority is exposed to low risk and to ensure liquidity. The majority of the Authority's investments are in instant access deposit accounts. Therefore, there is a reduced risk that it will be unable to raise finance to meet its commitments under financial instruments.

However, there is often a risk that the Council will need to renew a significant proportion of its borrowings at a time of high interest rates. The current low interest rates would reduce interest rates on new loans that are taken out to repay the debt maturing. To assist in achieving this, the Council uses external treasury management advisors.

The maturity analysis of outstanding loans is shown in Note 36c below. Trade and other payables are due to be paid in less than one year.

	2025/26 Outstanding principal £'000	2025/26 Accrued interest £'000	2025/26 Cost less accumulated amortisation £'000	2024/25 Outstanding principal £'000	2024/25 Accrued interest £'000
>45 years	-	-	-	-	-
34-45 years	31,200	-	31,200	32,963	-
23-33 years	52,015	-	52,015	50,251	-
15-22 years	14,494	-	14,494	17,994	-
11-14 years	9,313	-	9,313	6,522	-
7-10 years	2,471	-	2,471	3,127	-
4-6 years	4,276	-	4,276	5,339	-
1-3 years	5,900	-	5,900	5,530	-
Total Long-Term Borrowing	119,669	-	119,669	121,726	-
Total Short-Term Borrowing (< 1 year)	2,037	1,850	3,887	356	1,850
Total	121,706	1,850	123,556	122,082	1,850

NOTE 36ch – MARKET RISK AND ESTIMATED IMPACT OF A ONE PERCENT INCREASE IN INTEREST RATES ON FINANCIAL ASSETS

Interest Rate Risk – The Council faces potential risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council. For example, a rise in interest rates would have the following effects: -

- Borrowings at variable rates – the interest expense charged to the Surplus or Deficit on the Comprehensive Income and Expenditure Statement would rise;
- Borrowings at fixed rates – the fair value of the borrowings' liabilities would fall;
- Investments at variable rates – the interest income credited to the Surplus or Deficit on the Comprehensive Income and Expenditure Statement would rise; and
- Investments at fixed rates – the fair value of the assets would fall.

Borrowings are not carried at fair value as these are carried at Amortised Cost in accordance with the CIPFA code. Therefore, nominal gains and losses on fixed rate borrowings would not affect the Surplus or Deficit on the Provision of Services or other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the Council Fund Balance.

The Council has a number of strategies for managing interest rate risk. The Council policy is to borrow mainly at fixed rates, thus obtaining certainty as to interest payable over the period of the loans. The Council, supported by its treasury advisors, continually monitors the prevailing interest rates and the market forecasts. If there was a significant risk of a sharp rise in long and short-term rates, then the portfolio position would be re-appraised with the likely outcome being that fixed rate funding would be drawn down whilst interest rates were still relatively cheap. If there was a significant risk of a sharp fall in long and short-term rates, then long-term borrowings would be postponed and any appropriate rescheduling from fixed rate funding into short rate funding would be undertaken.

All of the Council's current and long-term borrowings are held at fixed rates. This helps reduce the impact of bank rate changes on the Council. Note 36ch shows the impact of a 1% interest rate increase on the fair value of the Council Financial Instruments. The value of the loans in the Balance Sheet would remain the same due to the interest rates being fixed. However, the fair value would reduce. The rate increase would have a positive impact on the Council's deposits as an extra £175k interest receivable would be received if there was a 1% increase in interest rates. However, as the Council's investments are mainly fixed term which offer much higher returns, the impact of a 1% increase on this is not included in the below figure.

Impact of a 1% interest rate increase	£'000
Increase in interest receivable from investments	176
Impact on other Comprehensive Income and Expenditure	176
Decrease in fair value of fixed rate borrowings liabilities (no impact on the Surplus or Deficit on the Provision of Services or other Comprehensive Income)	(10,191)

The Council receives regular market information and advice from its treasury management consultants and potential outcomes in relation to Brexit, Covid-19 and more recently the war in Ukraine.

The Council has sufficient cash balances and has not had to take out PWLB borrowing during the year. However, the Council did undertake two new Salix loans that are specific towards the development of more efficient energy usage.

NOTE 37 – JOINT COMMITTEES AND POOLED BUDGETS

NOTE 37a – JOINT COMMITTEES

GwE

The Isle of Anglesey Council and the Councils of Gwynedd, Conwy, Flintshire, Wrexham, and Denbighshire are parties to a joint committee relating to GwE (Gwasanaeth Effeithiolrwydd a Gwella Ysgolion Rhanbarthol) (Regional School Effectiveness and Improvement Service).

Gwynedd Council is responsible for the operation of this committee, and the year-end balances are reflected in its Balance Sheet. The accounts for the committee can be viewed by the following link: -

<https://www.gwynedd.llyw.cymru/en/Council/Performance-and-spending/Budgets-and-finance/Statement-of-Accounts/GwE-Joint-Committee.aspx>

On 31 January 2024, the Minister for Education and the Welsh Language announced that new arrangements were to be implemented in relation to school improvement. This included moving away from the regional model. Consequently, the GwE collaboration agreement ceased on 31 May 2025.

North Wales Corporate Joint Committee (CJC)

The North Wales CJC was established during 2021/22 and comprises of the six North Wales local authorities and Snowdonia National Park. This joint committee is responsible for strategic development, planning, regional transport planning and promoting the economic well-being of North Wales.

From 1 April 2025, the responsibility for delivering the Growth Deal in North Wales transferred from the North Wales Economic Ambition Board to the CJC. The Growth Deal is a package of funding from Central Government and the Welsh Government to deliver projects to increase sustainable and economic growth.

Isle of Anglesey Council's contribution for 2025/26 is £90k (2024/25 £77k). The Statement of Accounts can be found here:

[North Wales Corporate Joint Committee \(llyw.cymru\)](#)

The Isle of Anglesey County Council is also involved in various joint arrangements with neighbouring North Wales Councils and the Welsh Government, as follows: -

- North Wales Adoption Service (Lead: Wrexham. Parties: Flintshire, Denbighshire, Conwy, Gwynedd)
- Minerals and Waste Service (Lead: Flintshire. Parties: Denbighshire, Conwy, Gwynedd).
- Regional Emergency Planning Service (Lead: Flintshire. Parties: Wrexham, Denbighshire, Conwy, Gwynedd)
- Galw Gofal (Lead: Conwy, Parties: Gwynedd, Flintshire)
- Under regulation 19(1) of the Partnership Arrangements (Wales) Regulations 2015, a pooled budget arrangement has been agreed between North Wales local authorities and the Betsi Cadwaladr University Health Board (see Note 37b)
- Penrhos Industrial Estate Phases 1 & 2 – A joint arrangement since 2020/21 with Welsh Government where the Council keeps 16% of the net rental income and the remainder is transferred to the Welsh Government.

NOTE 37b POOLED BUDGETS FOR HEALTH AND SOCIAL CARE

Under regulation 19(1) of the Partnership Arrangements (Wales) Regulations 2015, an informal pooled budget arrangement has been agreed between North Wales local authorities and the Betsi Cadwaladr University Health Board in relation to the provision of care home accommodation for older people for 2025/26. Income and expenditure for these pooled budget arrangements are included for information only and have not been accrued in each partners' accounts. The transactions for Isle of Anglesey County Council only are included in the Adults Services line of the Comprehensive Income and Expenditure Statement. This amounts to £8.320m in 2025/26 (£7.126m 2024/25).

North Wales Pooled Budget for Care Homes for Older People	2025/26 £'000	2024/25 £'000
Expenditure		
Care Home Costs	147,652	136,047
Total Expenditure	147,652	136,047
Funding		
Isle of Anglesey County Council	(8,320)	(7,126)
Conwy County Borough Council	(19,835)	(18,090)
Denbighshire County Council	(13,600)	(12,423)
Flintshire County Council	(17,767)	(14,980)
Gwynedd Council	(15,282)	(13,084)
Wrexham County Borough Council	(15,975)	(16,470)
Betsi Cadwaladr University Health Board	(56,873)	(53,874)
Total Funding	(147,652)	(136,047)
(Surplus)/Deficit transferred to Reserve	-	-

NOTE 38 – AGENCY ARRANGEMENTS

The Isle of Anglesey County Council acts as an agent for various schemes on behalf of the Welsh Government.

Houses into Homes

The Council acts as an agent for Welsh Government for the provision of loans to individuals for renovation of empty homes in order to reduce the number of empty homes on Anglesey and increase housing opportunities:-

Houses into Homes £917k (£777k 2024/25);

Home Improvements Empty Homes £69k (£55k 2024/25);

Town Centre Scheme £490k (£490k 2024/25);

Empty Homes Renovations Scheme £333k (£333k 2024/25).

Homes for Ukraine

The agency element of this scheme consisted of a £350 a month thank you payment to those who host families fleeing from the Ukraine, this was raised to £500 after 12 months, up to a maximum of two years. The other element of this scheme is a £200 payment to Ukrainian families to help them to start a life in Wales.

Low Income Band Support

The purpose of this scheme is to provide a one-off £100 support payment for eligible households in Wales to help with cost of living.

Welsh in Education Teacher Retention Bursary

This is a bursary for those who have been teaching subjects in secondary schools through the medium of Welsh for three years. This supports the Government's ambition of a million Welsh speakers by 2050 and its aim is to increase the number of Welsh and Welsh medium teachers by encouraging them to stay in the profession.

The below table includes payments made to individuals and businesses during the year and not the grant amounts claimed:

Grant Title	2025/26			
	Payments Made	Grant (Received)/Repaid from Government	Admin Fee Received	Balance due (to)/from Welsh Government at 31 March
	£'000	£'000	£'000	£'000
Low Income Band Support	6	-	-	6
Welsh Teacher Retention Bursary	130	(130)	-	-
Homes for Ukraine	69	(70)	-	14
Total	205	(200)	-	20

2024/25

Grant Title	2024/25			
	Payments Made	Grant Received from Welsh Government	Admin Fee Received	Balance due (to)/from Government at 31 March
	£'000	£'000	£'000	£'000
Low Income Band Support	-	-	-	-
Welsh Teacher Retention Bursary	-	-	-	-
Homes for Ukraine	100	(54)	-	47
Total	100	(54)	-	47

NOTE 39 – COUNCIL TAX

Council Tax income derives from charges raised according to the value of residential properties, which have been classified into nine valuation bands estimating 1 April 2003 values for this specific purpose. Charges are calculated by taking the amount of income required for the Council and the North Wales Police Authority for the forthcoming year and dividing this amount by the Council Tax base. The Council Tax base is the total number of properties in each band adjusted by a proportion to convert the number to a band D equivalent and adjusted for discounts. The Council Tax base for 2025/26 was 33,472.17 (33,170.03 in 2024/25).

The amount for a band D property in 2025/26, £2,260.73 (£1,982.09 in 2024/25), is multiplied by the proportion specified for the particular band to give the amount due by band. Individual amounts due are calculated by applying discounts and benefits to the amount due by band.

Council Tax bills were based on the following multipliers for bands A to I :-

Band	Total Dwellings	Multiplier	Band "D" Equivalent
A*	9	5/9	4.72
A	4,278	6/9	2,852.17
B	6,193	7/9	4,816.39
C	6,705	8/9	5,959.78
D	7,199	9/9	7,198.50
E	5,436	11/9	6,644.31
F	2,767	13/9	3,996.78
G	1,129	15/9	1,880.83
H	181	18/9	362.00
I	58	21/9	135.33
Total			33,850.81

The Council Tax Base is calculated as follows:-

	2025/26	2024/25
Band D equivalent as above	33,850.81	33,544.06
Collection Rate	98.50%	98.50%
Revised Band D equivalent	33,343.05	33,040.89
MoD Properties – Band D equivalent	129.13	129.14
Council Tax Base	33,472.18	33,170.03

Analysis of the net proceeds from Council Tax:	2025/26 £'000	2024/25 £'000
Gross Council Tax	73,411	67,924
Add/Less: provision for non-payment not required or not previously accounted for	(353)	(317)
Council Tax collectable	73,058	67,607
Less Council Tax Reduction awarded to residents	7,308	(6,729)
Net Proceeds from Council Tax	80,366	60,878

In 2013/14, the Welsh Assembly Government introduced the Council Tax Reduction Scheme to replace the Council Tax benefit scheme. £7.308m of Council Tax reductions were awarded in 2025/26 (£6.729m in 2024/25).

NOTE 40 – NON-DOMESTIC RATES (NDR)

Non-domestic properties are normally assessed every five years for the purpose of calculating liability for NDR. The most recent list came into force on the 1 April 2023. Revaluations do not raise extra revenue overall but reflect changes in the property market values across the country, redistributing the same total tax liability for NDR. Some rates bills will rise and some will fall but the average national bill will only change with inflation.

The Welsh Government specifies an amount for the rate – 56.8p in 2025/26 (56.2p in 2024/25), and local businesses pay rates calculated by multiplying their rateable value by that amount. The Council is responsible for collecting rates due from ratepayers in its area but pays the proceeds into the NDR pool administered by the Welsh Government. The Welsh Government then redistributes the sums paid into the pool back to local authorities on the basis of a fixed amount per head of population.

NDR income, after reliefs and provisions (including Small Business Rates Relief provided by the Welsh Government), amounted to £13.810m for 2025/26 (£15.258m in 2024/25) and was based on rateable value at the year-end of £41.252m (£41.889m in 2024/25).

Analysis of the net proceeds from non-domestic rates:	2025/26 £'000	2024/25 £'000
Non-domestic rates collectable	13,810	15,258
Cost of collection allowance	(186)	(189)
Interest paid on overpayments	(13)	(3)
Provision for bad debts	(118)	(142)
Contribution to cost of charitable relief	89	64
Retail, Leisure and Hospitality Business Rates Relief Scheme met from grant	1,837	1,384
High Street and Retail Relief met from grant	-	-
Payments into national pool	15,419	16,372
Redistribution from national pool	25,097	25,341

NOTE 41 – CONTINGENT LIABILITIES

Waste Recycling Targets

Welsh Government, in a bid to increase recycling, have issued waste recycling targets for Local Authorities for several years. Failure to reach those targets will result in a fine for those Councils, with the penalty charged at £200 for every tonne above target. Isle of Anglesey's waste recycling target was missed for 2022/23, 2024/25 and 2025/26. The Welsh Government can decide not to impose these fines.

Public Liability Claim against Isle of Anglesey County Council's Predecessor

Due to the current circumstances surrounding a former headteacher of schools in Gwynedd, Gwynedd Council is assessing and considering the potential public liability claims against the Council and its predecessor. In the event that Gwynedd Council has to settle claims relating to events prior to 31 March 1996, Isle of Anglesey Council may have to make a contribution, at a previously agreed rate, to cover policy excesses and any liabilities not covered by insurance policies taken out by the former Gwynedd County Council. Gwynedd Council hold an earmarked reserve to meet the costs of claims in respect of the former Gwynedd County Council and Isle of Anglesey Council would only have to make a contribution in the event that this reserve is insufficient to meet any costs that have to be funded by the Council.

NOTE 42 – CONTINGENT ASSETS

Legal Charges

The Council retains a number of legal charges over privately owned residential properties, where it provided support to the buyers under schemes for assisted home purchase, with the Council being entitled to a share of proceeds on the sale of the properties. The actual amount that will be received will vary, dependent upon both the selling prices of individual properties and the nature of any other legal charges against them which may take precedence over the Council's. The timing of any receipts is dependent upon the occurrence of sale.

Financial Assessments

There has been a delay in the completion of financial assessments of Social Services service users. These assessments determine how much, above the minimum charge, the service users pay for their care. As these assessments have not been completed, some service users are yet to start paying for their care.

NOTE 43 – LEASING

NOTE 43a – RIGHT OF USE ASSETS

	2025/26			2024/25		
	Land and Buildings £'000	Vehicles, Plant and Equipment £'000	Total £'000	Land and Buildings £'000	Vehicles, Plant and Equipment £'000	Total £'000
Balance at 1 April	1,628	229	1,857	1,401	142	1,543
Adjustments to prior year	45	-	45	-	-	-

26	Accounting for NDR
27	Agency Income and Expenditure

1. General Principles

The Statement of Accounts summarises the Council's transactions for the 2025/26 financial year and its financial position at the year-end of 31 March 2026. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit (Wales) Regulations and the Accounts and Audit (Wales) (Amendment) Regulations 2018. These regulations require the accounts to be prepared in accordance with proper accounting practices. These practices primarily comprise the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2025/26 and the CIPFA Service Reporting Code of Practice 2025/26, supported by International Financial Reporting Standards (IFRS). All principal accounting policies have been applied consistently throughout the year. The Statement of Accounts has been prepared on a "going concern" basis.

2. Accruals of Income and Expenditure

Transactions are accounted for in the year that they take place, not simply when cash payments are made or received. This accruals accounting approach provides a more complete basis for reporting the Council's financial performance as it includes the Council's future commitments to pay/receive cash for goods and services received but not paid by 31 March 2026. Income and expenditure are accounted for in the year the activity it relates to takes place, not simply when cash is paid or received, i.e., on an accruals basis. This means income is recorded when it is earned not received and expenditure when it is incurred not when it is paid. Income from the sale of goods is included in the accounts when the sale is completed, not when the cash is received. Income from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and, as a result of this, the Council is due income in return for the services provided. In addition: -

- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet;
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made;
- Interest receivable on investments and bank deposits and payable on borrowings (including bank overdrafts) is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than necessarily the cash flows fixed or determined by the contract; and
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that may not be collected.

3. Events after the Balance Sheet Date

Events can occur after the year-end which might have a significant effect on the financial results for that year. Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the financial year and the date when the Statement of Accounts is authorised for issue. The Statement of Accounts is authorised for issue when the Section 151 Officer signs the final audited accounts, after the accounts are approved by full Council. The law requires that the audited, authorised final accounts are completed by 31 July following the year-end. Two types of events can be identified: -

- Those that provide evidence of conditions that existed at the end of the financial year – the Statement of Accounts is adjusted to reflect such events; and
- Those that are indicative of conditions that arose after the financial year – the Statement of Accounts is not adjusted to reflect such events but, where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

4. Jointly Controlled Operations and Jointly Controlled Assets

Jointly controlled operations are activities undertaken by the Council in conjunction with other ventures that involve the use of the assets and resources of the ventures rather than the establishment of a separate entity. The Council recognises on its Balance Sheet its share of the assets and the liabilities that it incurs. The Comprehensive Income and Expenditure Statement is debited with the expenditure it incurs and credited with the share of income it earns from the activity of the operation.

Jointly controlled assets are items of property, plant or equipment that are jointly controlled by the Council and other venturers, with the assets being used to obtain benefits for the venturers. The joint venture does not involve the establishment of a separate entity. The Council accounts for only its share of the jointly controlled assets, the liabilities, and expenses that it incurs on its own behalf or jointly with others in respect of its interest in the joint venture and income that it earns from the venture.

5. Prior Period Adjustments, Changes in Accounting Policies and Estimates of Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e., in the current and future years affected by the change, and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of the transactions, other events and the conditions on the Council's financial position and financial performance. Where a change is made, it is applied retrospectively (unless otherwise stated) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

6. Value Added Tax (VAT)

VAT payable is included as an expense only to the extent that it is not recoverable from His Majesty's Revenue & Customs. VAT receivable is excluded from income.

7. Fair Value Measurement

IFRS 13 Fair Value Measurement requires most non-current assets, liabilities, and financial instruments to be valued at fair value, often with regard to an active market value where available. For operational assets, the standard introduces the concept of fair value being based on current value (often value in use) for revaluations of Property, Plant and Equipment. This means measurements should reflect the market conditions for the service or function at the reporting date. The standard provides different fair valuation approaches to differing asset types. For non-operational assets, i.e., investment assets, assets held for sale and surplus assets, these are valued at their highest and best use. Where there is an alternative use which would be of a higher fair value that is the fair value which would be used for the valuation of non-operational assets. The code does not require infrastructure assets to be revalued at current value. Infrastructure assets are, instead, valued at depreciated historical cost.

The Authority measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

8. Non-Current Assets (Plant, Property and Equipment)

Recognition

Non-current assets – Plant, Property and Equipment (PPE) – are physical assets which last a year or more and will be used by the Council in support of its provision of goods and services. The Council has set a minimum amount for expenditure on assets to be classed as capital expenditure. This de-minimis amount is £10k. Expenditure on the acquisition, creation or enhancement of non-current assets which cost £10k or more is capitalised on an accruals basis providing that it meets the above definition of a non-current asset. Plant, Property and Equipment would include assets such as machinery; it would not typically include assets held for sale as they would normally be expected to be disposed of within 12 months.

The costs of these assets may include initial costs of acquisition and construction and subsequent costs to enhance or replace part of the asset. All other expenditure arising from day-to-day servicing of assets, including repairs and maintenance, is recognised in the Comprehensive Income and Expenditure Statement as the costs are incurred.

Measurement

Assets are initially measured at cost, comprising: -

- The purchase price;
- Any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management; and
- The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located in cases where, in order to bring an asset into use, any relocation of the asset is required.

The Council does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be their fair value, unless the acquisition does not have commercial substance (i.e., it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are then carried in the Balance Sheets using the following measurement bases: -

- Infrastructure, community assets and assets under construction are valued at depreciated historical cost;
- Council dwellings – fair value, determined using the basis of existing use value for social housing (EUV-SH);
- Council offices – current value, determined by the amount that would be paid for the asset in its existing use;
- School buildings – would be valued at current value in use but, because of their specialist nature, are measured at depreciated replacement cost;
- Surplus assets – the current value measurement is fair value, estimated at the highest and best use from a market participant's perspective;
- All other operational assets have been measured at current value based on existing use value (EUV). This means that the current value of land and buildings would be that amount which would be exchanged for an asset in its existing use. If there is no market evident for an asset due to its specialist nature or if the type of asset is rarely sold, the Authority estimates the current value using a depreciated replacement cost approach. For example, for property comprising land and buildings, depreciated replacement cost would be the market value for the existing use for the land on which the building sits plus the current gross replacement cost of the building less allowances for physical deterioration, obsolescence, and optimisation;
- Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-specific Grant Income and Expenditure line of the Comprehensive Income and Expenditure Statement. Where there are conditions on any donated assets, the gain is instead credited to the Donated Assets Account. Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund balance to the Capital Adjustment Account in the Movement in Reserves Statement;
- Where a part or component of an asset is replaced, the carrying value of the old part/component is derecognised to avoid double counting. The new component is then added to the carrying amount. If it is not practicable to determine the carrying amount of the replaced part, the cost of the new part is used as an indication of the cost of the replaced part; and
- Where an asset is not held for the purpose of generating cash flows, value in use is assumed to be at least equal to the cost of replacing the asset's service potential.

Where non-property assets have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value. 'Short Useful life' typically means seven years or less, although it may be longer for specialist items of plant and equipment.

Valuation of non-current assets

Assets included in the Balance Sheet at current value must be revalued every five years to ensure that their carrying amount is materially correct. Where there is no market-based evidence of current value, the Council may estimate current value using a depreciated replacement cost approach (DRC).

New indexation rules were introduced from 1 April 2025, whereby certain assets as shown below have suitable external indices applied in years two to five in between the five-yearly valuations. The Council is required to use the best external index available when indexing assets between full valuations. The BCIS All Tender Price index (TPI) will be applied to assets valued at depreciated replacement cost (DRC) in between five-yearly valuations. CPI or CPIH 12 months March to March will be used for suitable assets. Where there is no suitable

index for assets which require indexation, the Council will revalue the given asset in year 1 and year 3 every five years.

- Other land and buildings;
- surplus assets;
- right-of-use assets measured at current value rather than on the cost basis;
- plant, vehicles and equipment (PVE) not valued at historic cost.

The Council values its Property, Plant and Equipment (PPE) assets under a five-year rolling programme. Some assets will be valued in 2025/26, with the remaining asset classes valued in line with the programme in subsequent financial years. Different asset classes will therefore be valued each year, except where annual revaluation is required, such as for investment properties. Assets valued in 2025/26 will next be revalued in 2030/31, when the valuation cycle restarts. New assets built or purchased after the scheduled valuation year for their asset class will be valued in the year they are completed or acquired, unless cost provides an appropriate basis for valuation.

A de minimis of £10k is set relating to the value of assets from the above categories of assets which should be indexed. This means that assets with a NBV less than £10k will not have indexation applied as the increase from indexation would not be material i.e. the increase would not change the true and fair view of the valuation of the relevant properties individually or in aggregate. This was tested with indices of up to 5%. If there is a significant increase in the index affecting numerous assets which might result in the de minimis causing the assets values to be materially incorrect, the de minimis value will be reassessed. The Council reserves the right not to apply the de minimis value.

In accordance with CIPFA requirements, the Council will not apply indexation to the following asset classes:

- Council dwellings as these are exempt and are revalued every five years at value in use for social housing;
- infrastructure assets as these are valued at depreciated historic cost;
- community assets unless the Council has adopted the valuation option;
- assets under construction which are valued at cost;
- heritage assets;
- investment properties which must be revalued every year;
- Non-property assets that have short useful lives or low values (or both) where authorities elect to adopt a depreciated historical cost basis for current value proxy.

For asset classes where indexation is not applied, the Council will continue to ensure that carrying values remain materially correct through the scheduled valuation approach set out above, annual impairment reviews, and consideration of any indicators of material change in value. Where there is evidence that the carrying amount of an asset may be materially misstated, including as a result of a change in use, market conditions, physical condition, obsolescence, or a decision to dispose of the asset, the Council will arrange for a valuation or impairment assessment outside the normal valuation cycle. Assets held at cost or depreciated historical cost will continue to be depreciated over their useful economic lives, with useful lives and residual values reviewed where appropriate.

Reclassification of assets – during the five-year period covered by a rolling programme of valuations, it is possible that the policy or decisions of the Council will affect the categorisation of assets or there might be a change of use of an asset. These changes could alter the valuation such as when the Council decides to sell a property and actively markets the property for sale. The property is moved to assets held for sale and this triggers a revaluation of the asset, as property assets are sold at market value which is usually higher than the value in use.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Examples of events and changes in circumstances that indicate impairment may have occurred include: -

- Significant decline (i.e., more than expected as a result of the passage of time or normal use) in an asset's carrying amount during the period, which is specific to the asset;
- Evidence of obsolescence or physical damage of an asset;
- A commitment by the Council to undertake a significant reorganisation; and
- A significant adverse change in the statutory or other regulatory environment in which the Council operates.

Where indicators exist, and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified on revalued assets, they are accounted for by: -

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the impairment against the asset is written down against that balance (up to the amount of the accumulated gains);
- where there is no balance in the Revaluation Reserve, the impairment against the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Where an impairment loss is subsequently reversed, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, to the extent that the original loss was recognised in the CIES, adjusted for depreciation that would have been charged if the loss had not been recognised. Any excess is recognised in the Revaluation Reserve.

Where the impairment is on a non-revalued asset (i.e., an asset with a carrying value based on historical cost), the impairment is recognised in the Comprehensive Income and Expenditure Statement.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets in order to allocate their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e., freehold land) and assets that are not yet available for use (i.e., assets under construction). However, if any assets whose estimated useful economic lives are expected to be below or higher than the periods indicated below, due to professional opinion or provided by the manufacture or indicated as an industry standard. Depreciation can be charged on the estimated economic useful life outside the below boundaries.

Depreciation is calculated on the following bases: -

- Buildings excluding Council Dwellings– straight-line allocation over periods of up to 75 years, as estimated by the Valuer, however more than 75 years may be applied if the valuer deems that assets have a useful economic life that surpasses the 75 year that is typically applied.
- Council dwellings will always be calculated on straight line depreciation though the useful economic life of the dwellings within the calculation will remain at 50 due to the significant investment each year in the housing stock

- Infrastructure – straight-line allocation over periods of up to 45 years;
- Vehicles, plant, furniture, and equipment – straight-line allocation over 5 to 15 years.

Where an item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Depreciation is not charged in the year an asset is acquired.

Where an item of Property, Plant and Equipment (Non-Current Asset) has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Applying this in practice requires an assessment against the below criteria, to establish if; -

- The economic useful life is significantly different from the other components of the asset i.e., 15 years or more;
- The value of the asset is £2m or greater and the component is over 25% of the total value of the asset; and
- The economic useful life is significantly different but the value represents less than 25% of the total value of the asset; the component will be separately identified if, in the Valuer's judgement, it is deemed to be material, e.g. where the value of a component is, say, £3m (10%) of the depreciating asset that has a total value of £30m.

If the depreciation asset is part of a wider group held for the same purpose, for example, leisure centres, this recommended policy on componentisation will be applied to the total of the wider group and not to each individual depreciating asset within the group.

Disposals and Non-Current Assets Held-for-sale

These assets are actively marketed for sale and where the Council expects that sale will go through in the next 12 months. The assets are identified separately as the value in the Balance Sheet will be recovered principally through a sale transaction rather than future continued use. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Fair value of non-current assets held for sale is measured at the highest and best use. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previous losses recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held-for-Sale.

If assets no longer meet the criteria to be classified as Assets Held-for-Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale, adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held-for-Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets-Held-for-Sale.

Disposals of Non-Current Assets

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held-for-Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. This cost is subsequently transferred to the Capital Adjustment Account in the Movement in Reserves Statement.

Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e., netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10k are categorised as capital receipts and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the Capital Financing Requirement). Receipts are appropriated to the Capital Receipts Reserve from the Council Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against Council Tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the Council Fund Balance in the Movement in Reserves Statement.

Surplus Assets

The fair value of surplus assets is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This will be based on the highest and best use estimated using Level 1 inputs.

Heritage Assets

Heritage Assets are those assets that are intended to be preserved in trust for future generations because of their cultural, environmental, or historical associations. They are held by the Council in pursuit of its overall objectives to preserve the heritage of the Isle of Anglesey.

The Council owns a number of tangible heritage assets such as historical buildings and works of art.

Operational Heritage Assets (i.e., those that, in addition to being held for their heritage characteristics, are also used by the Council for other activities or to provide other services) are valued and accounted for as operational assets, in the same way as other assets of that general type (e.g., operational buildings).

Heritage Assets are valued on the basis that is most appropriate and relevant in respect of the individual asset or class of assets. Where it is not practicable to obtain a valuation at a cost which is commensurate with the benefits to users of the financial statements, Heritage Assets are measured at historical cost (less any accumulated depreciation, amortisation, and impairment losses as appropriate). Where Heritage Assets are measured at valuation, then the carrying amount is measured with sufficient frequency to ensure that the valuations remain current, and at intervals of no greater than five years. Where a cost or valuation cannot be determined for a Heritage Asset without disproportionate cost, the assets will not be recognised in the Balance Sheet. Instead, the asset will be disclosed in the notes to the accounts.

Where a Heritage Asset has a finite life, depreciation is provided for on the same basis as for other classes of asset (for detail see Accounting Policy for Depreciation, 8.4 above).

Depreciation is not provided on Heritage Assets which have indefinite lives and a high residual value. The carrying amount of a Heritage Asset is reviewed where there is evidence of impairment, for example, where it has suffered physical deterioration or breakage, or new doubts arise as to its authenticity. Any impairment is recognised on the same basis as for other classes of asset (for detail see under Accounting Policy 8.3, Impairment). The Council does not currently actively seek further acquisitions of Heritage Assets but responds to opportunities to enhance its portfolio as they arise. The art collections are housed at Oriel Ynys Môn, with maintenance work being carried out as required. Parts of the collection are on display at any one time, while access to the remainder is available by arrangement. The Heritage Properties are managed and maintained, with due regard for their heritage characteristics, as part of the Council's overall portfolio of land and buildings.

Treatment of School Assets

Local Authority maintained schools are deemed to be in the control of local authorities. The assets, liabilities, reserves and cash flows of the Authority's maintained schools are, therefore, included in the Council's financial statements.

Land and buildings of voluntary aided and foundation schools are owned and controlled by the trustees of the schools or the foundation body and are, therefore, not shown on the Balance Sheet of the Council.

Capital expenditure on community schools is added to the balances for those schools. Individual schools' balances as of 31 March each year, are included in the Balance Sheet of the Council as any unspent delegated schools' budgets remain the property of the Council.

For accounting purposes, the status of the assets of voluntary controlled and voluntary aided schools are as follows: -

- Voluntary Controlled Schools: the land has been included on the Balance Sheet but not the buildings;
- Voluntary Aided Schools: neither the land nor the buildings are included in the Balance Sheet; and
- Additionally, neither the land nor the buildings of Caergeiliog Foundation School are included on the Balance Sheet, as these assets vest with the trustees of the school.

9. Investment Properties

Investment properties are those land and buildings that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are recognised when it is probable that future planned economic benefits will flow to the Authority and that the cost or fair value of the investment property can be reliably measured. Investment properties are measured initially at cost and, subsequently, at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arm's length. The Code requires that Investment Properties be valued at their highest and best use regardless of the intentions of the Council. This means that alternative uses have been considered for each investment property and, if there were an alternative use that would maximise fair value, then that is the fair value which is to be used. The properties are not depreciated but are revalued annually in accordance with IFRS 13 according to market conditions at the Balance Sheet date. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the Council Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the Council Fund Balance. The gains and losses are, therefore, reversed out of the Council Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10k) the Capital Receipts Reserve.

10. Intangible Assets

Intangible assets are non-current, non-financial assets which are separately identifiable, but which do not have physical substance (for example, computer software). These are controlled by the Council as a result of past events. Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Council's goods or services. Expenditure on intangible assets is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council. The useful economic life of intangible assets is determined by the relevant professional leading on the purchase of/development of the intangible asset. The useful economic life of intangible assets is shorter than tangible assets, for example, between five to seven years. Intangible assets are amortised on a straight-line basis over the useful economic life of the asset.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. In practice, no intangible asset held by the Council meets this criterion and they are, therefore, carried at cost less accumulated amortisation. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Intangible assets are evaluated for any impairment annually and whenever there is an indication that an asset might be impaired. Any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the Council Fund Balance. The gains and losses are, therefore, reversed out of the Council Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10k) the Capital Receipts Reserve.

11. Inventories and Long-Term Contracts

Inventories are included in the Balance Sheet at the lower of cost or net realisable value. The cost of inventories is assigned using the 'First In, First Out' (FIFO) costing formula.

Long-term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

Work-in-progress is included in the Balance Sheet at cost.

12. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

13. Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument, are initially measured at fair value, and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Authority has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the CIES is the amount payable for the year according to the loan agreement.

Where premiums and discounts have been charged to the CIES, regulations allow the impact on the General Fund Balance to be spread over future years. The Authority has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the CIES to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cash flow characteristics. There are three main classes of financial assets: -

- Amortised cost;
- Fair value through profit or loss (FVPL); and
- Fair value through other comprehensive income (FVOCI).

The Authority's business model is to hold investments to collect contractual cash flows.

Financial assets are, therefore, classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e., where the cash flows do not take the form of a basic debt instrument).

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment

Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the Authority, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the loan agreement.

However, the Authority has made a number of loans to employees at less than market rates (soft loans). The Council uses HMRC's rate for beneficial employee loans as a proxy for market value/effective interest rate. Where the difference between the discounted rate and the effective interest rate is more than £100k, a loss is recorded in the CIES for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal.

Interest is credited to the Financing and Investment Income and Expenditure line in the CIES at a marginally higher effective rate of interest than the rate receivable from the employees, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the CIES to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Any gains and losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

Expected Credit Loss Model

The Authority recognises expected credit losses on all of its financial assets held at amortised cost [or, where relevant, FVOCI], either on a 12 month or lifetime basis. The simplified lifetime basis expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Authority.

The Council will also extend the simplified approach to lease receivables and trade receivables and contract assets where there is a significant financing component.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly, or remains low, losses are assessed on the basis of 12 month expected losses.

In respect of Sundry Debtors the following bad debt percentages applied: -

6 months to 1 year: 50%;

1 year to 2 years: 75%;

Over 2 years: 100%.

Higher percentages would apply for certain debtors, taking regard of individual circumstances, e.g., company liquidation, personal bankruptcy.

Debtors which had been deferred i.e., Social Services residential fees that had been deferred pending sale of property (where a charge on the property applied), a provision of 10% applied irrespective of age – although a higher provision would apply in certain circumstances e.g., current state of property or property value or dispute.

IFRS requires earlier recognition of debt (current practice does not provide for debts earlier than six months old, although a provision would be made for known individual debtor circumstances, e.g. bankruptcy, aged less

than this) and public sector debts are to be excluded (currently debts for local health board, major and local preceptors (councils)/levying bodies etc. and central/devolved administrations etc. are included). Having regard to IFRS 9, revised impaired loss allowances are required and the following considerations are made to arrive at the revised allowances:

IFRS 9 does not define default of a debt but requires an organisation to provide such a definition consistent with its credit management purposes. The following definition is used for the purposes of impaired loss allowance requirement for Sundry Debt, which is simple enough and is consistent with this Authority's credit management-

A debtor is in default of a debt (for impaired loss allowance purposes in respect of Sundry Debt) if payment has not been received against a debt in the Civica Debtor system (by 31 March each year) where the age of the debt is more than 14 calendar days from the tax point date.

The following allowances are applied for periods up to 6 months: -

- Day 1 to 14 days from invoice being raised – 2%;
- 1 – 30 days past due date i.e., 15 days to 45 days from tax point date – 2.5%;
- 31 – 60 days past due date i.e., 46 days to 75 days from tax point date – 4.5%;
- 61 – 90 days past due date i.e., 76 days to 105 days from tax point date – 7.5%;
- 91 – 168 days past due date i.e., 106 days to 182 days from tax point date – 15%.

The Council would then continue to apply the current percentages for debts older than six months from the tax point date i.e.:

- 183 – 365 days from tax point date – 50%;
- 366 – 730 days from tax point date – 75%;
- 731 days or more from tax point date – 100%.

Deferred charges

These from 183 days from tax point date are to be applied at 10% ONLY and not at the higher rates shown. No provision for deferred debts aged less than six months old. The Council has legal charges secured against individuals' homes, hence the reduced amount for impairment. The annual impairment gain, or loss will be the change in lifetime expected credit losses over the year.

Housing Benefits Overpayments

The Council's impairment loss allowance is 90% of the outstanding debtor for housing benefits overpaid to service users at year-end. The impairment loss allowance is high as recipients of benefits tend to have limited financial resources and the risk of not recovering benefits overpaid is high.

Rents

The impairment loss allowance on rental debtors is based on the amount of debt owed, with higher values impaired on a higher percent as the risk of non-payment increases as the amount of debt escalates. The percentage for loss allowance per banding is then applied to the actual debt outstanding within each band. The banding and percentage of loss allowance applied is as follows: -

Current Tenants

<u>Value of arrears</u>	Impairment Loss Allowance
£0.01 i £49.99	10%
£50 i £99.99	20%
£100 i £249.99	30%
£250 i £499.99	45%
£500 i £999.99	60%
>£1,000	85%

An impairment loss allowance of 90% is applied to all outstanding amounts owed by former tenants as these debts are less likely to be recovered than from existing tenants.

Financial Assets Measured at Fair Value through Profit or Loss (FVPL)

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Service.

The fair value measurements of the financial statements are based on the following techniques: -

Instruments with quoted market price – the market price of other instruments with fixed and determinable payments – discounted cash flow analysis.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the Authority can access at the measurement date.

Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.

Level 3 inputs – unobservable inputs for the asset.

The Financial Statements

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Available-for-Sale Financial Assets

The Council does not have any available-for-sale financial assets and is unlikely to have any in the short-term as these financial assets are not included in the Treasury Management Strategy Statement 2022/23.

14. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, considering relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

When some or all of the payment required to settle a provision is expected to be recovered from another party (e.g., from an insurance claim), this is only recognised as income for the relevant service if it is certain that reimbursement will be received if the Council settles the obligation.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council an obligation,

whose existence will only be confirmed by the occurrence, or otherwise, of uncertain future events not within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required, or the amount of the obligation cannot be measured reliably.

Material contingent liabilities are not recognised in the Balance Sheet, but disclosed as a note in the accounts should they arise.

Contingent Assets

A contingent asset arises where an event had taken place that give the Council a possible asset, the existence of which will only be confirmed by the occurrence, or otherwise, of uncertain future events not within the control of the Council.

Material contingent assets are not recognised in the Balance Sheet, but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

15. Reserves

The Council maintains a range of reserves, reflecting both the extent to which its overall assets exceed its liabilities and any restrictions, either statutory or voluntary, which are placed upon the usage of these balances. The Council has discretion to set aside specific amounts as reserves where it wishes to earmark available funds for future policy purposes, to cover contingencies or manage cash flow. These are summarised in the Movement in Reserves Statement.

Reserves are created by appropriating amounts out of the Council Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement.

The reserve is then appropriated back into the Council Fund Balance in the Movement in Reserve Statement so that there is no net charge against Council Tax for the expenditure. Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments and retirement and employee benefits and do not represent usable resources for the Council – these reserves are explained in the relevant policies and notes.

16. Revenue Recognition

Revenue is recognised in the Comprehensive Income and Expenditure Statement for the year in which it is earned rather than when the cash is received. This relates to income from the sale of goods (produced by the Council for the purpose of sale or purchased for resale), the provision of services (excluding services directly related to construction contracts), interest, royalties and dividends, non-exchange transactions (i.e., Council Tax) and where previously a liability had been recognised (i.e., creditor) on satisfying the revenue recognition criteria.

Revenue is also recognised on gains which may or may not arise from ordinary activities such as gains on the revaluation of non-current assets, gains on the sale of non-current assets and gains on available-for-sale financial assets. Where the Authority is acting as an agent, only the income the Council is paid for its role of agent will be recognised in the accounts. The amount relating to the third party (the principal) will not be included in the accounts.

Revenue is recognised and measured at the fair value of the consideration receivable. This is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Rebates and cash settlements, where relevant, will be considered in measuring the fair value of the consideration received.

If payment is on deferred terms, the consideration receivable is discounted to present value in order to achieve a fair value. The difference between this amount and the total payments received is recognised as interest revenue in the Surplus or Deficit on Provision of Services. Short duration receivables with no stated interest rate are measured at original invoice amount where the effect of discounting is immaterial. There is no difference between the delivery and payment dates for non- contractual, non-exchange transactions i.e., revenue relating to Council Tax and general rates and, therefore, these transactions are measured at their full amount receivable.

17. Internal Interest

The council invests its cash balances in accordance with its Treasury Management and Investment Policies and the interest is accrued and credited to the Comprehensive Income and Expenditure Statement. Interest is credited to trust funds and other third-party funds based on the average rate of interest earned by the Council. Some reserves receive interest by way of an appropriation calculated on the same basis.

18. Leases

The authority as lessee

The authority classifies contracts as leases based on their substance. Contracts and parts of contracts, including those described as contracts for services, are analysed to determine whether they convey the right to control the use of an identified asset, through rights both to obtain substantially all the economic benefits or service potential from that asset and to direct its use. The Code expands the scope of IFRS 16 Leases to include arrangements with nil consideration, peppercorn or nominal payments.

Initial measurement

Leases are recognised as right-of-use assets (ROU assets) with a corresponding liability at the date from which the leased asset is available for use (or from 1 April 2024 on transition of existing leases). The leases are typically for fixed periods in excess of one year but may have extension options.

The authority initially recognises lease liabilities measured at the present value of lease payments, discounting by applying the authority's incremental borrowing rate wherever the interest rate implicit in the lease cannot be determined. The authority's incremental borrowing rate will be based on the PWLB annuity rate for the same duration as the lease term.

Lease payments included in the measurement of the lease liability include:

- fixed payments, including in-substance fixed payments
- variable lease payments that depend on an index or rate, initially measured using the prevailing index or rate as at the adoption date
- amounts expected to be payable under a residual value guarantee
- the exercise price under a purchase option that the authority is reasonably certain to exercise
- lease payments in an optional renewal period if the authority is reasonably certain to exercise an extension option
- penalties for early termination of a lease, unless the authority is reasonably certain not to terminate early.

The right-of-use asset is measured at the amount of the lease liability, adjusted for any prepayments made, plus any direct costs incurred to dismantle and remove the underlying asset or restore the underlying asset on the site on which it is located, less any lease incentives received.

However, for peppercorn, nominal payments or nil consideration leases, the asset is measured at fair value.

Subsequent measurement

The right-of-use asset is subsequently measured using the fair value model. The authority considers the cost model to be a reasonable proxy except for:

- assets held under non-commercial leases
- leases where rent reviews do not necessarily reflect market conditions
- leases with terms of more than five years that do not have any provision for rent reviews
- leases where rent reviews will be at periods of more than five years.

For these leases, the asset is carried at a revalued amount. In these financial statements, right-of-use assets held under index-linked leases have been adjusted for changes in the relevant index, while assets held under peppercorn or nil consideration leases have been valued using market prices or rentals for equivalent land and properties.

The right-of-use asset is depreciated straight-line over the shorter period of remaining lease term and useful life of the underlying asset as at the date of adoption.

The lease liability is subsequently measured at amortised cost, using the effective interest method.

The liability is remeasured when:

- there is a change in future lease payments arising from a change in index or rate
- there is a change in the group's estimate of the amount expected to be payable under a residual value guarantee
- the authority changes its assessment of whether it will exercise a purchase, extension or termination option, or
- there is a revised in-substance fixed lease payment.

When such a remeasurement occurs, a corresponding adjustment is made to the carrying amount of the right-of-use asset, with any further adjustment required from remeasurement being recorded in the income statement.

Low value and short lease exemption

As permitted by the Code, the authority excludes leases:

- for low-value items that cost less than £10,000 when new, provided they are not highly dependent on or integrated with other items, and
- with a term shorter than 12 months (comprising the non-cancellable period plus any extension options that the authority is reasonably certain to exercise and any termination options that the authority is reasonably certain not to exercise).

Lease expenditure

Expenditure in the Comprehensive Income and Expenditure Statement includes interest, straight-line depreciation, any asset impairments and changes in variable lease payments not included in the measurement of the liability during the period in which the triggering event occurred. Lease payments are debited against the liability. Rentals for leases of low-value items or shorter than 12 months are expensed.

Depreciation and impairments are not charges against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the capital adjustment account from the General Fund balance in the Movement in Reserves Statement.

The authority as lessor

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Finance leases

Where the authority grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether property, plant and equipment or assets held for sale) is written off to the other operating expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the authority's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (ie netted off against the carrying value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- a charge for the acquisition of the interest in the property – applied to write down the lease debtor (together with any premiums received), and
- finance income (credited to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund balance to the capital receipts reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund balance to the deferred capital receipts reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the capital receipts reserve.

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the capital adjustment account from the General Fund balance in the Movement in Reserves Statement.

Operating leases

Where the authority grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the other operating expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease or where this is initiated by a service to the individual service, even if this does not match the pattern of payments (eg there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

19. Charge to Revenue for Non-Current Assets – Minimum Revenue Provision (MRP)

Services and support services are charged with the following amounts to record the real cost of holding non-current assets during the year: -

- Depreciation of assets used by the Service;
- Revaluation and impairment losses on assets used by the Service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off; and
- Amortisation of intangible assets attributable to the Service.

The Council is not required to raise council tax to cover these costs. However, it is required to set aside an annual contribution from revenue towards its overall borrowing requirement. These costs are, therefore, replaced by the Minimum Revenue Provision (MRP) by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

The Welsh Government issued new regulations in 2008/09 requiring local authorities in Wales to make a prudent provision for MRP, including an option to provide an MRP over the life of an asset. The policy also allows MRP to be deferred until the asset is commissioned.

The MRP charge on HRA borrowing has historically been charged at 2% of the HRA's proportion of Capital Financing Requirement (CFR). In 2015, Welsh Government changed the determination to allow the HRA MRP charge to be calculated by more options. It was recommended that the annuity asset life method would result in the highest NPV for both supported and unsupported borrowing, and the most affordable option for the present and future generations is the option where the annuity is based on 60-year asset lives, using the Council's average borrowing rate of 4.58%. Therefore, for both HRA supported and unsupported borrowing the annuity methods as recommended over 60 years at the interest rate of 4.58% should be implemented from 1 April 2022. It would allow a more prudent approach rather than a current one as, instead of the CFR taking 300 years to be reduced to zero, it would only take 60.

Transactions in relation to investment properties are recorded against the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement.

20. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third-party contributions and donations are recognised as due to the Council when there is reasonable assurance that: -

- The Council will comply with the conditions attached to the payments; and
- The grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until the conditions attached to the grant or contribution have been met. Grant conditions are the requirements which have to be met in order to qualify for the grant, for example, the building of a school or key outcomes specified within the conditions. Monies advanced as grants and contributions, for which conditions have not been satisfied, are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non- Specific Grant Income (non-ring-fenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the Council Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Some grants' bodies impose restrictions which limit or direct the purposes for which the grant may be used but do not stipulate that the grant is to be repaid.

21. Revenue Expenditure Funded from Capital Under Statute (REFCUS)

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the Council Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of Council Tax.

22. Overheads and Support Services

The costs of overheads and support services are charged to services that benefit from the supply or service in accordance with the Authority's arrangements for accountability and financial performance for the purpose of full-cost accounting for the statutory statistical returns, for example, the annual RA and RO Government returns. However, for budget monitoring and the statutory annual accounts, recharges are excluded, and the corporate and support services are reported as service segments and held accountable for budget management.

23. Foreign Currency

The Council has a diminishing number of European grant aided schemes where the grants may be denominated in Euros. A Euro Bank account was opened to support these schemes. The balance on this bank account at the year-end is converted at the spot exchange rate on 31 March with resulting gains or losses being recognised in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

24. Employee Benefits

Benefits Payable during Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits for current employees and are recognised as an expense for services in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g., time off in lieu) earned by employees but not taken before the year-end, which employees can carry forward into the next financial year.

The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. To prevent fluctuations from impacting on Council Tax, the year-on-year change in cost generated by this accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement to the Accumulating Absences Adjustment Account, so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

The Council does not award long-term employee benefits, i.e., those which are not expected to be paid or settled within 12 months of the Balance Sheet date.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an employee's employment before the normal retirement date or an employee's decision to accept voluntary redundancy. These benefits are charged on an accruals basis to the relevant service line in the Comprehensive Income and Expenditure Statement when the Council can no longer withdraw the offer of those benefits or when the Authority recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions (usually in the form of added years), statutory provisions require the General Fund Balance to be charged with the amount payable by the Authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post-Employment Benefits

Employees of the Council are entitled to be members of two separate pension schemes: -

- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education; and
- The Local Government Pension Scheme, administered by Gwynedd Council.

Both schemes provide defined benefits to members (retirement lump sums and pensions), earned as employees have worked for the Council.

Teachers' Pension Scheme

The arrangements for the teachers' scheme mean that liabilities for these benefits cannot ordinarily be identified to the Council. The scheme is, therefore, accounted for as if it were a defined contributions scheme and no liability for future payments of benefits is recognised in the Balance Sheet. The Lifelong Learning Service line in the Comprehensive Income and Expenditure Statement is charged with the employer's contributions payable to the Teachers' Pension Agency in the year.

The Local Government Pension Scheme

All employees (other than teachers) and Councillors, subject to certain qualifying criteria, are able to join the Local Government Pension Scheme. The Scheme is known as the Gwynedd Pension Fund and is administered by Gwynedd Council in accordance with the Local Government Pension Scheme Regulations 2013 on behalf of all participating employers. Under International Accounting Standard (IAS19), the Local Government Scheme is accounted for as a defined benefits scheme.

The liabilities of the Gwynedd Pension Scheme attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e., an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees.

Liabilities are discounted to their value at current prices, using a real discount rate that is based on the indicative rate of return on UK Government bonds adjusted for an addition to the yield that reflects the extra risk involved in using AA Corporate Bond yields – known as the credit spread.

The assets of Gwynedd Pension Fund attributable to the Council are included in the Balance Sheet at their fair value: -

- Quoted securities – current bid price;
- Unquoted securities – professional estimate;
- Unities securities – current bid price; and
- Property – market value.

The change in the net pension liability is analysed into four components: -

- a) Current service cost – the increase in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked.
- b) Past service cost – the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non-Distributed Costs. Net interest on the net defined benefit liability, i.e., the net interest expense for the Council - the change during the period in the net defined benefit liability that arises from the passage of time, is charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement. This is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period, to the net defined liability at the beginning of the period (considering any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments).
- c) Benefit liability (asset) during the period as a result of contributions and benefit payments).
- d) Re-measurement comprising: -
 - The return on plan assets (excluding amounts already included in the net interest on net defined benefit) which is charged to the Pensions Reserve as Other Comprehensive Income and Expenditure;
 - Actuarial gains and losses – changes in the net pension liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions. This is charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.

- e) Contributions paid to the Gwynedd Pension Fund – cash paid as employer’s contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund Balance to be charged with the amount payable by the Authority to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year- end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any employee (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

25. Exceptional Items

Where items of income and expense are material in the context of these accounts, their nature and amount is disclosed separately either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Council’s financial performance.

26. Accounting for NDR (Non-Domestic Rates)

As the Council acts as an agent in the collection of NDR income, it does not include the financial position with regard to the ratepayers and only reports the net cash position with Welsh Government in its Balance Sheet. Therefore, if the amount collected from NDR taxpayers by the Authority (net of the cost of collection allowance) exceeds that paid to Welsh Government on 31 March, the amount not yet paid to the Welsh Government is included in the Balance Sheet as a creditor. Similarly, if the cash paid to Welsh Government exceeds the cash collected from NDR taxpayers (net of the cost of collection allowance), the excess is included in the Balance Sheet as a debtor. The Council maintains records of NDR arrears, impairment allowances, prepayments, and overpayments in its underlying accounting records; however, for final accounts purposes, these balances are consolidated into a single agency account, with the figures netting down to the debtor/creditor to the national pool. The cost of collection allowance received by the Isle of Anglesey County Council is the billing Council’s income and is included in the Comprehensive Income and Expenditure Statement.

Cash collected from NDR taxpayers is not included in the Cash Flow Statement except for the cash retained in respect of the cost of collection allowance. Any difference between the cash collected from NDR taxpayers and the cash paid into the NDR Pool is included within financing activities in the Cash Flow Statement.

27. Agency Income and Expenditure

Under various statutory powers, a Council may agree with other local authorities, water companies and government departments to do work on their behalf. The body conducting agency services is reimbursed by the responsible body to the extent of approved expenditure together with any agreed contribution towards

administrative costs. Only the amounts relating to the Council, for example the fees earned for providing the agency services, will be included in the Council's Comprehensive Statement of Income and Expenditure.

SUPPLEMENTARY FINANCIAL STATEMENT

HOUSING REVENUE ACCOUNT (HRA)

Income and Expenditure Statement for the year ended 31 March 2026

	2025/26 £'000	2024/25 £'000
<u>Expenditure</u>		
Management and Maintenance - Repairs and Maintenance	6,417	6,183

Adjustment to Reserve	-	-
Balance on the HRA at the end of the Current Reporting Period	(3,063)	(7,977)

NOTES TO THE HOUSING REVENUE ACCOUNT (HRA)

NOTE 1 – HOUSING REVENUE ACCOUNT

The Housing Revenue Account is a record of expenditure on, and income from, the provision of local Council housing, and the form and content of the Account is prescribed by statute. The Housing Revenue Account is “ring-fenced” and must be self-supporting. Contributions both to and from the Housing Revenue Account (e.g., from the Council Fund) are limited to special circumstances.

NOTE 2 – HOUSING STOCK

As at 31 March 2026, the number of dwellings was 4,026, which is an increase of 46 properties from the year 2024/25. The breakdown by type of dwelling is as follows:

	31 March 2026	31 March 2025
Council Owned Stock		
Houses	2,162	2,137
Bungalows	1,069	1,065
Flats	787	770
Bedsits	8	8
Total Council Owned Stock	4,026	3,980

NOTE 3 – HOUSING REVENUE ACCOUNT CAPITAL EXPENDITURE

	2025/26 £'000	2024/25 £'000
Capital Expenditure		
Land	593	1,388
Dwellings	22,281	24,496
Other - Disabled Facilities and Adaptations	499	474
Other - Office Buildings	-	229
Other - Social Care Facilities	1,209	909
Other - Garages	163	103
Other - Vehicles	369	-
Other - Car Parking Areas	-	99
	25,114	27,698
Sources of funding		
Government grants and other contributions	(12,179)	(17,430)
Capital receipts		(1,141)
Direct Revenue Financing	(12,935)	(9,127)
Total Funding	(25,114)	(27,698)

The Major Repairs Allowance for 2025/26 of £3.581m was used in full during the year (£3.816m in 2024/25).

NOTE 4 – DEPRECIATION, IMPAIRMENT AND REVALUATION LOSSES OF PROPERTY, PLANT AND EQUIPMENT

	2025/26 Revaluation £'000	2025/26 Depreciation £'000	2025/26 Total £'000	2024/25 Revaluation £'000	2024/25 Depreciation £'000	2024/25 Total £'000
Land	-	-	-	-	-	-
Dwellings	-	3,240	3,240	-	3,261	3,261
Other Property - Operational Assets	(16)	448	432	-	418	418
	(16)	3,688	3,672	-	3,679	3,679

NOTE 5 – CAPITAL RECEIPTS

There were no capital receipts in 2025/26. Five dwellings were sold in 2024/25 with £632k capital receipts, which was utilised in full to fund the capital programme in 2024/25.

NOTE 6 – RENT ARREARS AND IMPAIRMENT LOSS ALLOWANCE

During 2025/26, total rent arrears increased by £9k. A summary of rent arrears is shown in the following table:

Rent Arrears	2025/26 £'000	2024/25 £'000
Current Tenant Arrears	730	786
Former Tenant Arrears	326	261
Total Rent Arrears	1,056	1,047

Allowance has been made in the Balance Sheet for bad and doubtful debts. These stood at £745k against rents (£771k in 2024/25).

NOTE 7 – PENSION COSTS

As part of the terms and conditions of employment of its officers, the Council offers retirement benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments that need to be disclosed at the time that employees earn their future entitlement. The Council participates in the Local Government Pension Scheme administered by Gwynedd Council. This is a funded scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pension's liabilities with investment assets.

The costs of retirement benefits are recognised in the Net Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge required to be made against the Housing Revenue Account is based on the cash payable in the year, so the real cost of retirement benefits is reversed out of the Housing Revenue Account after Net Operating Expenditure. The following transactions have been made in the Housing Revenue Account during the year: -

Pensions	2025/26 £'000	2024/25 £'000
Current service cost included in movement in reserves statement		
IAS19 current service cost	531	673
Impact of pension fund business combinations and disposals	(35)	-
Unfunded costs	76	73
Contributions in respect of undunded benefits paid	(76)	-
Total IAS19 service costs	496	746
Less: actual employer's contributions	(981)	(866)
Movement to pensions reserve	(485)	(120)
Current service cost included in movement in reserves statement	485	120
Pension net interest cost	(600)	(27)
Pension net interest cost included in movement in reserves statement	600	27
Total impact on usable reserve	-	-

GLOSSARY

MONTH EXPECTED CREDIT LOSSES

This is the portion of lifetime expected credit losses that represent the expected credit losses that result from default on a financial instrument which are possible within the 12 months after the reporting date.

ACCOUNTING PERIOD

This is the period of time covered by the accounts, normally a period of 12 months, commencing on 1 April. The end of the accounting period is the Balance Sheet date, usually 31 March of the following year.

ACCRUALS

Sums included in the final accounts to recognise goods/services received in the year or income and expenditure earned or incurred in the financial year but for which actual payment had not been received or made as of 31 March.

ACTUARIAL GAINS AND LOSSES

For a defined benefit pension scheme, the changes in actuarial surpluses or deficits that arise because: -

- Events have not coincided with the actuarial assumptions made for the last valuation (experience gains and losses); or
- The actuarial assumptions have changed.

AGENCY SERVICES

These are the services provided by the Council to a third party on behalf of another organisation.

APPROPRIATIONS

These are the amounts transferred between the Comprehensive Income and Expenditure Statement and revenue or capital reserves.

ASSET

An asset is an item having value to the Council in monetary terms. Assets are categorised as either current or non-current: -

- A current asset will be used or be of minimal value within the next financial year (e.g., cash and inventories);
- A non-current asset provides benefits to the Council and to the services it provides for a period of more than one year and may be tangible (e.g., a community centre), or intangible, (e.g. computer software licences).

AUDIT OF ACCOUNTS

This is an independent examination of the Council's financial affairs.

BALANCE SHEET

The Balance Sheet is a statement of the true and fair value of the recorded assets, liabilities, and other balances at the end of the financial year.

BUDGET

The Budget is a statement of how much the Council has allocated to each service and function to spend or raise in income for the financial year.

CAPITAL EXPENDITURE

Capital expenditure is expenditure on the purchase of a non-current asset, which will be used in providing services beyond the current financial year, or expenditure which adds to, and not merely maintains, the value of an existing non-current asset. Examples include: the building of a new school, the purchase of IT equipment, a major refurbishment of a care home.

CAPITAL FINANCING

Funds that are available to pay for capital expenditure. There are various methods of financing capital expenditure including borrowing, leasing, direct revenue financing, usable capital receipts, capital grants, capital contributions, revenue reserves and earmarked reserves.

CAPITAL FINANCING COSTS

Capital Financing costs are any additional costs arising from borrowing to fund capital projects. These tend to be interest payable on loans taken out and the Marginal Revenue Provision (MRP) charge on projects financed by borrowing. The MRP is the minimum amount which must be charged to the revenue account each year in order to provide for the repayment of loans and other amounts borrowed by the Council.

CAPITAL PROGRAMME

The capital schemes the Council intends to carry out over a specific period of time.

CAPITAL RECEIPTS

Capital receipts represent the proceeds from the disposal of land or other non-current assets. Proportions of capital receipts can be used to finance new capital expenditure, within rules set down by the government, but they cannot be used to finance revenue expenditure.

CASH AND CASH EQUIVALENTS

This is cash-in-hand, cash overdrawn, cash held in bank accounts and short-term (for example three months) investments which are readily converted into known amounts of cash.

CASH FLOW STATEMENT

The cash flow statement shows the changes in cash and cash equivalents of the Council during the financial year.

CIPFA

This is The Chartered Institute of Public Finance and Accountancy, the lead professional and regulatory body for local Authority accounting.

COMMUNITY ASSETS

Community assets are assets that the Council intends to hold in perpetuity, that have no determinable useful life and that may have restrictions on their disposal. Examples of community assets are parks and historical buildings.

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This is one of the main financial statements of the Council which records all the income and expenditure for the Council categorised on the basis of standard CIPFA requirements to enable comparisons to be made between authorities.

CONSISTENCY

This represents the concept that the accounting treatment of like items, within a financial year and from one year to the next, is the same.

CONTINGENT ASSET

A contingent asset is a possible asset arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Council's control.

CONTINGENT LIABILITY

A contingent liability is either: -

- A possible obligation arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Council's control; or

- A present obligation arising from past events where it is not probable that a transfer of economic benefits will be required, or the amount of the obligation cannot be measured with sufficient reliability.

CORPORATE AND DEMOCRATIC CORE

The corporate and democratic core comprises all activities that local authorities engage in specifically because they are elected, multi-purpose authorities. The cost of these activities is, thus, over and above those which would be incurred by a series of independent single-purpose, nominated bodies managing the same services. There is, therefore, no logical basis for apportioning these costs to services.

CREDIT LOSS

This is the difference between the cash amounts due to the Authority in accordance with the contract and all cash flows that the Authority expects to receive, discounted at the original effective interest rate.

CREDITOR

The amount owed to individuals or other organisations by the Council for work done, goods received or services provided within the financial year but for which payment has not been made by the end of that financial year.

CURRENT SERVICE COST (PENSIONS)

The increase in the present value of a defined benefit pension scheme's liabilities, expected to arise from employee service in the current year.

DEBTOR

The amount owed to the Council from individuals or other organisations for works done, goods received or services provided within the financial year, but for which payment has not been received by the end of that financial year.

DEFINED BENEFIT PENSION SCHEME

Pension schemes in which the benefits received by the participants are independent of the contributions paid and are not directly related to the investments of the scheme.

DEPRECIATION

The measure of the cost of wearing out, consumption or other reduction in the useful economic life of the Council's non-current assets during the financial year, whether from use, the passage of time or obsolescence through technical or other changes.

DISCRETIONARY BENEFITS (PENSIONS)

These represent the retirement benefits, which the employer has no legal, contractual or constructive obligation to award and are awarded under the Council's discretionary powers such as the Local Government (Discretionary Payments) Regulations 1996.

EVENTS AFTER THE BALANCE SHEET DATE

Events after the Balance Sheet date are those events, favourable or unfavourable, that occur between the Balance Sheet date and the date when the Final Statement of Accounts is authorised for issue.

EXPECTED RETURN ON PENSION ASSETS

For a funded defined benefit scheme, this is the average rate of return, including both income and changes in fair value but net of scheme expenses, which is expected over the remaining life of the related obligation on the actual assets held by the scheme.

EXPENDITURE AND FUNDING ANALYSIS

This statement aims to show how annual expenditure is used and funded from resources. The first column, the net expenditure chargeable to the General Fund and HRA balances, shows the true impact of the cost of providing services for the year, excluding accounting adjustments.

FAIR VALUE

The fair value of an asset is the price at which it could be exchanged in an arm's length transaction less, where applicable, any grants receivable towards the purchase or use of the asset.

FINANCE LEASE

A Finance Lease is one that transfers substantially all the risks and rewards of ownership of a non-current asset to the lessee.

GOING CONCERN

This represents the concept that the Statement of Accounts is prepared on the assumption that the Council will continue in operational existence for the foreseeable future.

GOVERNMENT GRANTS

Grants made by the government towards either revenue or capital expenditure in return for past or future compliance with certain conditions relating to the activities of the Council. These grants may be specific to a particular scheme or may support the revenue spend of the Council in general.

HERITAGE ASSETS

An asset with historical, artistic, scientific, technological, geophysical or environmental qualities that is held and maintained principally for its contribution to knowledge and culture.

HOUSING BENEFITS

A system of financial assistance to individuals towards certain housing costs administered by authorities and subsidised by central government.

HOUSING REVENUE ACCOUNT (HRA)

The HRA is a separate account to the Council Fund, and includes the income and expenditure arising from the provision of housing accommodation by the Council.

IMPAIRMENT

Impairment is a reduction in the value of a non-current asset to below its carrying amount on the Balance Sheet. This is usually due to an event which has substantially reduced the value of the asset, for example, a fire or if an asset has become obsolete.

INFRASTRUCTURE ASSETS

Non-current assets belonging to the Council that cannot be transferred or sold, on which expenditure is only recoverable by the continued use of the asset created. Examples are highways, footpaths and bridges.

INTANGIBLE ASSETS

An intangible (non-physical) item may be defined as an asset when access to the future economic benefits it represents is controlled by the reporting entity. This Council's intangible assets comprise computer software licences.

INTEREST COST (PENSIONS)

For a defined benefit scheme, the expected increase during the financial year of the present value of the scheme liabilities because the benefits are one financial year closer to settlement.

INVESTMENTS (PENSION FUND)

The investments of the Pension Fund will be accounted for in the statements of that fund. However, authorities are also required to disclose, as part of the disclosure requirements relating to retirement benefits, the share of the pension scheme assets associated with their underlying obligations.

INTEREST RECEIVABLE OR PAYABLE

The effective interest rate method is used to measure the carrying value of a financial asset or liability measured at cost less accumulated amortisation, and to allocate associated interest income or expense to the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the

expected life of the financial instrument to equal the amount at initial recognition. The effective interest is adjusted to the actual interest payment or receipt through the Movement in Reserves Statement to ensure only actual interest is charged to Council Tax.

For financial assets and liabilities carried at cost because the effective rate of interest is the same as the carrying rate of interest, the carrying value is adjusted for accrued interest.

INVENTORIES

Items of raw materials and stores a Council has procured and holds in expectation of future use. Examples are consumable stores, raw materials and work-in-progress.

LIABILITY

A liability is where the Council owes payment to an individual or another organisation.

- A current liability is an amount which will become payable or could be called in within the next financial year, e.g. creditors or cash overdrawn.
- A deferred liability is an amount which, by arrangement, is payable beyond the next year at some point in the future or to be paid off by an annual sum over a period of time.

LIQUID RESOURCES

Current asset investments that are readily disposable by the Council without disrupting its business and are either: -

- Readily convertible to known amounts of cash at, or close to, the carrying amount; or
- Traded in an active market.

LONG-TERM CONTRACT

A contract entered into for the design, manufacture or construction of a single substantial asset or the provision of a service (or a combination of assets or services which, together, constitute a single project), where the time taken to substantially complete the contract is such that the contract activity falls into more than one financial year.

MATERIALITY

The concept that the Statement of Accounts should include all amounts which, if omitted or mis-stated, could be expected to lead to a distortion of the financial statements and, ultimately, mislead a user of the accounts.

MINIMUM REVENUE PROVISION (MRP)

The minimum amount which must be charged to the revenue account each year in order to provide for the repayment of loans and other amounts borrowed by the Council.

MOVEMENT IN RESERVES STATEMENT

This statement shows the movement from the start of the year to the end of the year for all the usable reserves held by the Council which can be used to fund Council costs or reduce local taxation, and unusable reserves.

NET BOOK VALUE

The amount at which non-current assets are included in the Balance Sheet, i.e. their historical costs or current value less the cumulative amounts provided for depreciation.

NET DEBT

The Net Debt is the Council's borrowings less cash and liquid resources.

NET WORTH

The Net Worth is the Council's value of total assets less total liabilities.

NON-DISTRIBUTED COSTS

These are overheads for which there are no direct user benefits and, as such, are not apportioned to services.

NON-DOMESTIC RATES (NDR)

The Non-Domestic Rate is a levy on businesses based on a national rate in the pound set by the government and multiplied by the assessed rateable value of the premises they occupy. It is collected by the Council on behalf of central government and then redistributed back to support the cost of services.

NON-OPERATIONAL ASSETS

Non-current assets held by the Council but not directly occupied, used or consumed in the delivery of services. Examples are investment properties, assets under construction or assets surplus to requirements pending sale or redevelopment.

OPERATING LEASE

An Operating lease is where the ownership of the non-current asset remains with the lessor.

OPERATIONAL ASSETS

Non-current assets held and occupied, used or consumed by the Council in the pursuit of its strategy and in the direct delivery of those services for which it has either a statutory or discretionary responsibility.

PAST SERVICE COST (PENSIONS)

For a defined benefit pension scheme, the increase in the present value of the scheme liabilities related to employee service in prior financial years arising in the current financial year as a result of the introduction of, or improvement to, retirement benefits.

PENSION SCHEME LIABILITIES

The liabilities of a defined benefit pension scheme for outgoings due after the valuation date. Scheme liabilities measured during the projected unit method reflect the benefits that the employer is committed to provide for service up to the valuation date.

PRECEPT

The levy made by precepting authorities on billing authorities, requiring the latter to collect income from Council Tax on their behalf.

PRIOR YEAR ADJUSTMENT

A Prior Year Adjustment is a material adjustment applicable to previous years arising from changes in accounting policy or from the correction of a fundamental error. This does not include normal recurring corrections or adjustments of accounting estimates made in prior years.

PROVISION

An amount put aside in the accounts for future liabilities or losses which are certain, or very likely, to occur but the amounts or dates of when they will arise are uncertain.

PUBLIC WORKS LOANS BOARD (PWLB)

A Central Government Agency which provides loans for one year and/or more to authorities at interest rates only slightly higher than those at which the government can borrow itself.

RATEABLE VALUE

The annual assumed rental of a hereditament, which is used for NDR purposes.

RELATED PARTIES

There is a detailed definition of related parties in IAS 24. For the Council's purposes, related parties are deemed to include Central Government, Local Authorities, and other bodies, either precepting or levying demands on the Council. Related Parties can also include subsidiary and associated companies, joint venture, and joint venture parties and particularly Members and chief officers of the Council.

When considering who is a related party, regard is also taken of transactions involving members of the close family or household of any individual listed.

RELATED PARTY TRANSACTIONS

The Statement of Recommended Practice requires the disclosure of any material transactions between the Council and related parties to ensure that stakeholders are aware when these transactions occur and the amount and implications of such.

REMUNERATION

All sums paid to, or receivable by, an employee and sums due by way of expenses allowances (as far as those sums are chargeable to UK income tax) and the money value of any other benefits received other than in cash. Pension contributions payable by the employer are excluded.

RESERVES

Reserves are the accumulation of surpluses, deficits, and appropriations over past years. Reserves of a revenue nature are available and can be spent or earmarked at the discretion of the Council. Some capital reserves, such as the Revaluation Reserve, cannot be used to meet current expenditure.

RESIDUAL VALUE

The residual value of an asset is the net realisable value of an asset at the end of its useful life.

RETIREMENT BENEFITS

All forms of consideration given by an employer in exchange for services rendered by employees that are payable after the completion of employment.

REVENUE EXPENDITURE

Revenue Expenditure represents the day-to-day expenses of providing services.

REVENUE EXPENDITURE FUNDED BY CAPITAL UNDER STATUTE (REFCUS)

Expenditure which can be properly deferred (i.e., treated as capital in nature), but which does not result in, or remain matched with, a tangible asset. Examples of deferred charges are grants of a capital nature to voluntary organisations.

REVENUE SUPPORT GRANT

A grant paid by Central Government to authorities, contributing towards the general cost of their services.

SUPPORTED BORROWING

Council borrows money to fund part of its capital programme. This borrowing is funded by Welsh Government as part of its calculation of the formula funding for the Council.

TEMPORARY BORROWING

Money borrowed for a period of less than one year.

TRUST FUNDS

Funds administered by the Council for such purposes as prizes, charities, specific projects and on behalf of minors.

UNSUPPORTED BORROWING

The Council can borrow additional money to the borrowing supported by Government to finance its capital expenditure as long as it is affordable and sustainable. This power is governed by the Chartered Institute of Public Finance and Accountancy's (CIPFA) Prudential Code, with which the Council fully complies.

UNUSABLE RESERVES

Unusable Reserves are those reserves used to absorb the differences between the outcome of applying proper accounting practices and the requirement of statutory arrangements for funding expenditure. Such reserves include the unrealised gains and losses in relation to revaluations of property, plant, and equipment where the value only becomes available if the asset is sold.

USABLE RESERVES

Specific amounts set aside for future policy purposes or to cover contingencies. They can be used to fund expenditure or reduce taxation.

USEFUL ECONOMIC LIFE (UEL)

The period over which the Council will derive benefits from the use of a non-current asset.

WORK-IN-PROGRESS (WIP)

The cost of work performed on an uncompleted project at the Balance Sheet date.
