Scope of Responsibility

The Isle of Anglesey County Council is responsible for ensuring that it conducts its business in accordance with the law and proper standards, and that it safeguards and properly accounts for public money, and how public money is used.

The Council also has a duty under the Local Government and Elections (Wales) Act 2021 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, the Council is also responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, which includes arrangements for the management of risk together with adequate and effective financial management.

The Council approved and adopted a revised [local code of corporate governance](#) in March 2022, which is consistent with the seven core principles of the CIPFA/SOLACE Framework, Delivering Good Governance in Local Government.

This statement explains how the Council has complied with the code and meets the requirements of non-statutory proper practice encouraging the publication of an Annual Governance Statement. It also meets the requirement of regulation 5 of the Accounts and Audit (Wales) Regulations 2014 in relation to the publication of a statement on internal control.

The Governance Framework

The governance framework comprises the systems, processes and cultural values by which the Council is directed and controlled. It also guides the activities through which it accounts to, engages with and leads the community. It enables the Council to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate and cost-effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can only provide reasonable and not absolute assurance of effectiveness. Follow this link for more information on the [committees](#).

Isle of Anglesey County Council resolved in its meeting on 9th March 2023 to make changes to the Constitution enabling one or more members to job share as leader, deputy leader and as portfolio holders on the Executive. Following this decision, the Executive made changes to their structure and the current information is available [here](#).

Marc Berw Hughes was appointed to the Director of Education, Skills and Young People role in September 2022. Dyfan Sion was also appointed to the statutory post of Head of Democratic Services in January 2023. Follow this link for more information on the [Leadership Team and Corporate Management Team](#).

Review of Effectiveness

The Isle of Anglesey County Council has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of managers within the Council who have responsibility for the development and maintenance of the governance environment, the Head of Internal Audit's annual report, and also by comments made by the external auditors and other review agencies and inspectorates.

The effectiveness of the governance framework has been evaluated by a combination of:

- the results of the regular in-year review and monitoring by officers and committees;
- a review of relevant documents prepared during the year or relating to the year;
- the review of progress against the Council Plan;
- reviews of feedback from Estyn and Care Inspectorate Wales (CIW) and the related scrutiny panels on the improvement work in relation to Education and Social Services;
- a series of interviews with key officers;
- regular officer meetings of the Governance and Performance Review Group to review governance arrangements,
- discussion with, and receiving comments from, groups of officers and members including the Leadership Team and the Executive.

In addition, regular in-year review and monitoring includes:

- formal risk management activity, including specific consideration of those risks linked to governance processes;
- internal audit, whose work includes auditing the highest risks identified in the Strategic Risk Register, including risk management, in accordance with the annual internal audit strategy, and which includes 'follow-up' work to ensure that senior officers address agreed 'Issues / Risks';
- the work of the Council's Scrutiny and other Committees, including its Governance and Audit and Standards committees;
- the opinions and recommendations of the Council's external auditors and other review agencies and inspectorates;
- the regular monitoring of improvement and performance against the Council Plan and its supporting plans and strategies by members and senior managers.

Certifying the Annual Governance Statement

We have been advised on the implications of the result of the review of the effectiveness of the governance framework by the Governance and Audit Committee and that the arrangements continue to be regarded as fit for purpose in accordance with the governance framework. The areas already addressed and those to be specifically addressed with new actions planned are outlined in the document.

We propose to take appropriate steps to address these and the other weaknesses identified in the Annual Governance Statement and to further enhance our governance and assurance arrangements in the forthcoming year. We will monitor the implementation and operation of improvements through the Governance and Audit Committee and as part of our next annual review.

CIPFA Financial Management Code (2019)

CIPFA's Financial Management Code (2019) is designed to support good practice in financial management and to assist local authorities in demonstrating their financial sustainability. The Code is not prescriptive and is based on six principles supported by specific standards considered necessary to ensure continued financial resilience within the Local Authority setting. The six principles of effective financial management underpinning the Code are as follows:

- Leadership
- Accountability
- Transparency
- Professional Standards
- Assurance
- Sustainability

The six principles are translated into seventeen Financial Management (FM) standards (denoted from A-Q), grouped into seven sections. All local authorities were required to demonstrate full compliance with the Code by 31st March 2022.

Following an internal audit of compliance with the Code in April 2020, a further audit of Financial Resilience was undertaken in November 2022 to seek to answer the following question: Does the Council have adequate arrangements in place to manage the implications of real term funding reductions to ensure that it continues to achieve its priorities and delivers quality services?

The report states:

“Overall, our review concludes that within the scope of its control, the Council has a framework of effective controls in place to manage the implications of real term funding reductions. Despite this, it is clear that the Council faces difficult decisions over the next two years due to the current challenging and unpredictable economic climate.”

The review identified one issue/risk which required management attention to strengthen arrangements in this area and an action plan was agreed with management.

Significant Governance Issues

The Council's Internal Audit report for 2022/23 came to the following conclusion –

“For the 12 months ended 31 March 2023, the Isle of Anglesey County Council’s Head of Audit and Risk’s opinion is that the organisation has an adequate and effective framework for risk management, governance and internal control.

While I do not consider any areas of significant corporate concern, some areas require the introduction or improvement of internal controls to ensure the achievement of objectives, and these are the subject of monitoring.

There are no qualifications to this opinion.”
