Bwriad: Application to determine whether prior approval is required for the erection of an agricultural shed for storage of machinery on land at Marian, Llanddeusant

Lleoliad: Marian, Llanddeusant

Report of Head of Regulation and Economic Development Service (David Parr-Sturgess)

An application to determine whether prior approval was required for the erection of an agricultural shed for storage of machinery on land at Marian, Llanddeusant was submitted by a relevant officer as defined in the Council's Constitution. The Planning Department assessed whether the works were deemed permitted and whether or not the details such as design, siting and appearance required prior approval. None of the consultation responses raised concerns regarding the siting, design and appearance of the proposed shed. The Planning Department determined that as there were no concerns raised from the consultees, and as the details of the siting, design and appearance of the building were considered reasonable that the proposed works were classed as permitted development on the 01/05/2024.
